Land Grant Rumor Disturbs Mr. Johnson

California Senator Asks Light on Reported Concession of Land to Mexican-Japanese Syndicate.

Washington, March 29.—Machinery of the federal government was set in motion today to ascertain the facts regarding reports that a grant of two million acres of land on Magdalena bay, Lower California, has been made to a Mexican-Japanese syndicate by the Mexican government. Simultaneously, Don Manuel C. Telez, the Mexican ambassador, declared that any report that his government had made a land grant concession to a Japanese syndicate was "perfectly absurd." He added that reports of similar grants in the past had been found upon investigation to be without foundation. Japanese embassy officials later said they had no information on the subject.

The first move for an investigation was made in the senate, at request of Senator Johnson, republican, California. He asked for an early meeting of the foreign relations committee, and it was promised by chairman Borah, who later dispatched telegrams to several principals in California in an effort to obtain leads on which the committee might work.

The subject was discussed among department officials during the day, and Ambassador Sheffield, at Mexico City, will probably be asked to make informal inquiries at the Mexican foreign office.

Announcement of a land grant was made at San Pedro to Robert Sangerez, a former officer in the governor's office of Lower California. The announced purpose was the production of rubber and vegetable dyes. Reverting to this announcement in the senate, Senator Johnson said it would be premature for him to comment on the published account of the announcement, but he added that it came with all the verisimilitude of truth and dealt with such "a sufficiently grave and important situation that we ought to know exactly the facts."

SHAKESPEARE'S LATEST PLAY IS PRESENTED

Berlin, March 30.—A brand new "Shakespeare" play entitled "The Lost Son of London," produced for the first time in history at the little town of Recklinghausen has won the praise of critics as one of the best Shakespeare plays in existence.

The play first appeared in a German edition of Shakespeare plays published in 1926, but its genuineness was attacked by experts and it was eliminated. The play as it appeared then contained only a few scenes. It has now been completed by Ernest Kaminzer and one of the best Shakespearean scholars in the world.

Whoever the author may be, the German critics say the drama breathes the spirit of Shakespeare and that its characters forcibly recall King Lear, Falstaff and Imogen.

The plot deals with the dubious paths of a lost son who shrinks from nothing for the sake of money, but he is saved later by the love of a pure girl. The father of the lost son helps in the salvation by entering the service of his son, disguised as a sailor.

280 STOCKS SLIP TO LOWER LEVELS

New York, March 30.—Stocks of all grades and descriptions were thrown for sale on the New York stock exchange Monday in a seemingly never-ending stream with the result that prices were carried down 1 to 20 points. The selling movement was one of the most extensive since the current down swing began a month ago. Of the 626 individual issues traded in, 250 were hammered to new low levels for the year and 60 others duplicated their previous minimum quotations.

Except for the calling of about \$25,000,000 additional in bank loans, which sent the call money rate from 4 1/2 to 5 1/2 per cent, and is not unusual around the end of the month, there was nothing in the day's news to account for the selling.
