The Bad Samaritan.
The new book which has been written by Justin Sturm of Chicago, gets much favorable comment from a New York paper, which says that the grocer with the reading of the book that he read it at his meals, on the street as he walked along and while he was waiting for the street car, and for the jam on the streets to thin so he could cross. He stated that it was not possible for him to lay the book down until he had completed it.

The story is laid in Chicago and across the waters, and the hero was born in Nehawka, Neb., bringing the book home to the people of Cass county. Better get the book and read about all the amusing situations which contains and enjoy it like the writer of the comment did.

MAKES GREAT IMPROVEMENT

From Wednesday's Daily—
The Bekin building at 6th and Main streets has received a great deal of improvement since it was purchased by Mr. Bekin, the well known Omaha capitalist, and not the least of these is the changes that the owner has made in the courtyard in the rear of the building.

For many years this court yard was one of the eyesores of the business section of the city but such is not the condition now, as the new owner has gone after the task of making a clean up and as the result that section of the city is a credit to any other part of the town. Where before there was a court yard littered with dirt, debris and all kinds of material and waste matter, there is now a large concrete paved court yard that is clean as a pin and makes a 1,000 per cent improvement in the appearance of the building and the neighborhood.

TO AID IN GOOD CAUSE

A number of the residents of Cass county have started the very worthy move to secure a radio set for the use of the residents of the county farm near this city that will aid in making their lives a little more pleasant and giving them a touch with the outside world. The aged and unfortunate people who make their home there have little from the regular routine to make life more enjoyable and the good people of the county are getting together in a move to secure a radio that may aid in a little pleasantness for them.

The move is one that certainly will meet with a strong support from all sections of the county as one of the most laudible nature and which should receive the backing of the big hearted and kindly people of the county.

It has been arranged that those wishing to make donations to the fund do so by sending their contributions to the Nebraska State bank at Weeping Water and the Plattsmouth State bank at Plattsmouth.

This is something that everyone should be able to give some small amount at least and will make a gift that will be most thoroughly appreciated by the resident of the county farm.

Miss Hemple has been compelled to get around with the use of a cane and which made necessary her getting a leave of absence from her work as a member of the teaching force of the city. The many friends of this estimable lady will regret to learn that she has been compelled to lay aside her school work and trust that she may eventually recover from the effects of the accident and be able to resume her usual activities.
