Old Time Resident of County Laid to Rest

John Lohnes, Longtime Resident Here at Rest in Glendale Cemetery.

From Thursday's Daily—
Yesterday afternoon the funeral services of the late John Lohnes, old time resident of Cass county, was held at the Glendale church on the Louisville road near Cedar Creek and the body consigned to the last long rest in the cemetery near that place.

The funeral was one of the largest that was held in Eight Mile Grove precinct in many months and almost 200 persons paused to pay a brief farewell to the departed friend and neighbor as he passed on from this earthly abode to his home in the hereafter.

At the home of William Lohnes, a son, with whom the deceased had made his home, there was a short service held, the Rev. O. G. Wichmann of the St. Paul's Evangelical church of Plattsmouth holding the service and which was attended by the relatives and the close friends and neighbors.

Following the service at the home the cortege made its way to the Glendale church where the main funeral service was held. Rev. Wichmann being assisted in this service by Rev. H. G. McClusky, pastor of the First Presbyterian church of Plattsmouth. Rev. McClusky giving the scripture lesson and a brief sermon while Rev. Wichmann gave the sketch of the life of the departed and a brief tribute to his long and useful life in the community.

The male quartet composed of Frank A. Clodt, Raymond Cook, R. W. Knorr and H. G. McClusky gave three of the old and loved hymns, "Abide With Me," "Beautiful Isle of Somewhere" and "Rock of Ages."

The pall bearers were selected from the grandsons of the departed and who tenderly bore the body to the last resting place.

John Lohnes was born in the province of Hessen-Darmstadt, Germany, in the closing days of the year 1840, his birthplace being Oberkillingen, one of the attractive villages of that portion of what is now the German republic. The deceased was the son of Heinrich and Margaret Lohnes and when an infant was given baptism in the Lutheran faith. In his boyhood he attended the school in his village and was graduated there at the age of fourteen years and shortly thereafter was confirmed in the faith of the church in which he had received baptism.

The family migrated to the United States in the late fifties and located in Illinois where a large number of the relatives, friends and neighbors from the province of Hessen-Darmstadt had located, the family settling near Pekin, where they engaged in farming and where the deceased also learned the art of tilling the soil and the habits of industry and thrift that made his life a success in acquiring a competency.

In the year 1861 Mr. Lohnes was united in marriage to Miss Caroline Lohnes, and the family continued to reside on the farm near Pekin until in 1871 when they moved to Nebraska and located in Cass county. The family has contributed a large part to the developing of this part of Nebraska and Mr. Lohnes proved one of the strong and stable residents of this section of the state and leaves a real heritage to his children and their descendants.

There were seven children born to bless the life of Mr. and Mrs. Lohnes, one of whom, Mrs. James Terryberry, preceded the father in death. The living children are John G. Lohnes, Plattsmouth; Jacob Lohnes of Grant; George and William Lohnes of Cedar Creek; Conrad Lohnes of Omaha and Mrs. Henry Ragoss, Louisville.

After a married life of fifty-six years Mrs. Lohnes passed away August 6, 1916 and since that time Mr. Lohnes has made his home with the children.

Religiously Mr. Lohnes was very devout and for some twenty-five years was trustee of the Lutheran church near his home and conducted the Sunday school there. During the last ten years he was a member of the St. Paul's Evangelical church of Plattsmouth and when his health permitted was a constant attendant at the services.

SCENIC DRIVE ALONG RIVER

From Friday's Daily—
The board of directors of the Chamber of Commerce at their meeting this morning discussed among other things—
Talking about the views along the Hudson river in New York state, don't forget the "Scenic Drive" along the "River Road" is just as superb. It has been suggested that the commissioners consider at once putting this river road in shape to meet the road being put thru from Nebraska City to the county line, which has been mapped out by the Boy Scouts of this city and county. Here is a fine job for our own Boy Scouts to mark the river road to the county line to meet the road coming from the other direction.

With the brush cleaned from the bluffs and hillsides along the Missouri river and this scenic road, and some pretty rustic summer homes built, things would begin to boom! Every day the possibilities of Plattsmouth loom up and shout at us to "get busy."

This River Road is one of Plattsmouth's most beautiful and attractive assets. It is urged the citizens of this city co-operate in this matter, and have this road pushed thru and put into fine shape to the county line. The Chamber of Commerce solicits your co-operation and suggestions in this proposition.

ACCEPTS NEW POSITION

From Friday's Daily—
Esper McCleery, well known resident of this city has just accepted a position of traveling representative and distributor for the Robb Wholesale Candy Co., of Plattsmouth and Nebraska City. Mr. McCleery is a gentleman of ability and pleasing personality and should make a very valuable addition to the Robb company in handling their increasing volume of business.

CARD OF THANKS

As it will not be possible to personally thank the many kind friends who have remembered me in my illness with the beautiful flowers, cards and other tokens of remembrance, I wish to take this means of expressing my deep appreciation of the many acts of kindness shown me. They will always be a most cherished memory.

Vineyards and Small Fruit Farms Offer Big Return

Secretary of Chamber of Commerce Points Way to Develop a Paying Industry.

Coming from a fruit growing section of the Ozarks I am interested naturally in seeing this profitable phase of farming encouraged and supported here.

The grape offers one of the greatest possibilities for our rough lands, and this soil and climate are ideal for their production. Have found the Nebraska grapes sweeter, firmer and larger than any I have inspected in the Ozarks. Grapes will produce commencing at the second year, but not in commercial quantities, a rule until the third year, and in full producing running from one to two and three tons per acre, normal average. At Nebraska City the association secured the growers a price of five cents per pound. Figures and money always talk. Give an acre a very slight yield of a ton and a half per acre and the gross returns on three thousand pounds is \$150.00 per acre, which returns cannot be realized from general farming, and offer the small farmers an attractive investment.

The grape, does not cost for spraying like the apple or pear or tree fruits; it is less subject to diseases; and once planted offers a steady source of revenue for hundreds of years. One hundred and fifty dollars per acre is not to be sniffed at! We know our live business men and progressive bankers here in Plattsmouth will be glad to call this to the attention of the farmers who trade and meet them daily. Also send them up to the chamber of commerce to talk it over.

This section is free from the rocks that make farming the hardest labor in the world, and if a man has any religion left in him after running a walking plow thru a rock field—he is a wonder to be admired and respected about the country. We have plenty of rain. Our frosts are late in the fall and stop in the spring early enough to justify this investment.

Car lot production is always the means of better prices; it is an inducement for outside buyers; gives the local fruit growers organization a chance to more easily dispose of their shipments. Any suggestions in this proposition will be appreciated by the Chamber of Commerce. Mr. Tidd is gathering information along these lines, that will be of great value to the farmers and merchants of this section. This offers a mid summer or early fall cash revenue for farmers, before corn is on the market, and means more even and general distribution of cash buyers and more stable condition of local finances. Let's consider this carefully.

YOUTHS RECEIVE SENTENCE

From Thursday's Daily—
This morning in the district court Sylvester Straube and Claus Jalinski, two young men charged with the robbing of the store of the Murdock Mercantile Co., a week ago Monday, were given a hearing.

The young men on being arraigned and hearing the complaint read against them by County Attorney W. G. Kieck, entered a plea of guilty to the charge and were given an opportunity by the court to give any reason why they should not be sentenced for the offense.

The court considering the youth of the two young men decided that a sentence to the state reformatory would be probably the best punishment and they were given a sentence of from one to three years in the state reformatory for first offenders at Lincoln.

JOY RIDER CAUGHT

From Friday's Daily—
Last evening Charles Shraner, former Greenwood young man, who a few days ago secured a car on trial at Union and has not since been seen, was apprehended at Hastings by the police of that city at the request of Sheriff E. P. Stewart.

The young man had secured a car at the Atterberry garage on the plan of making a trade and asked to be allowed to make a test of the car and has since that time been on the go with the car.

This morning Sheriff Stewart departed for Hastings to secure the young man and the joy ride appears to be over for the present at least for the young man.

BOLT OF LIGHTNING DOES SMALL DAMAGE

From Friday's Daily—
A bolt of lightning which struck the house of Mr. and Mrs. George Kraft south of town last Saturday evening, about 8 o'clock, broke a window and scorched the south side of the house, and put the telephone out of commission.

Mrs. Kraft, who had been on the sick list that week, was lying on the bed in an upstairs room and although she felt the shock perceptibly, by some freak of the lightning she escaped injury.

Her escape was almost miraculous and she and her husband feel very thankful that the damage was no greater and they are receiving the hearty congratulations of their many friends.—Louisville Courier.

Death of Richard York Occurs in Omaha Thursday

Former Plattsmouth Young Man Dies as Result of Injuries Received at Packing Plant.

From Friday's Daily—
Last evening at 6 o'clock at the Nicholas Senn hospital in Omaha occurred the death of Richard York, aged 21, son of Mr. and Mrs. O. C. York, former residents of this city.

The young man was born in Watson, Missouri, August 20, 1905 and was brought here when a very small child and spent a greater part of his life in this city where he was educated at the local schools. Since the family moved to Omaha several years ago Richard has been engaged in working there.

From Thursday's Daily—
Mr. and Mrs. Luther Pickett of this city are among the happiest residents of the city as the result of the fact that a fine son and heir arrived last evening at 5 o'clock at the Nicholas Senn hospital in Omaha, where the parents, Mr. and Mrs. Charles Campbell have been making their home for some time. Possibilities of Forming Athletic Club in This City

Edward Brantner of This City Head of Similar Clubs in Northern Nebraska Towns.

From Friday's Daily—
While in conversation with Edward Brantner, manager of the Hotel Perkins, a few days ago, Mr. Brantner was telling of the interest and general benefit that the young men of his former home, Pender, and other towns in that part of the state derived from the use of an athletic club.

This brings up the thought of why such an organization would not prove a real success in this community during the long winter months and furnish the young men with the means of getting good healthful exercise and creating a real interest in the athletic sports that would be a good thing for not only the younger men but those a little older could enjoy the exercise and acquire skill in the various sports that the gym would develop.

Mr. Brantner states that a club of from fifteen to twenty members could be very easily handled and a room equipped for their use without a great deal of expense and small monthly dues would keep the equipment and cost of maintaining the club up in good shape.

A club of this kind would have many other sports, boxing and wrestling as well as apparatus toning that would aid in the development of the young men and keep the older ones fit and trim. There are a number of the clever boxers and wrestlers in Omaha and Council Bluffs who would be glad to come down occasional and help out in the coaching and assisting of the local club and help it a complete success.

There was a string of these clubs formed at Pender, Wisner and several of the towns in the northern part of the state while Mr. Brantner was a resident there and which furnished a great deal of pleasure and interest not only for the members of the clubs but the general public in that part of the state. This could be the case here with the interest of a number of the athletically inclined young men and would be the source of providing a great deal of entertainment for the public in various athletic events after the club had been in good running order for a few months.

The proposition is a good one and should be thought over by the residents here so that if they desire one it might be started by the time cold weather comes around.

DEATH OF HENRY LAMBERT

The meeting was under the leadership of Mrs. J. S. Livingston and the program of the year's work was outlined, which will include a study of the book "Beyond the City Limits;" the first of the subjects taken up was that of "the value of rural life" and proved most interesting.

Mrs. Fritz Tschirren, residing west of this city, who was taken to the Immanuel hospital in Omaha yesterday for treatment and an operation if her condition would warrant, stood the trip in very fine shape and was reported today as doing as well as possible under the circumstances. The condition of Mrs. Tschirren is very grave and her case is one that has been giving the attending physicians a great deal of worry and the outcome of the case is the matter of the gravest doubt although all that is possible is being done for the relief of the patient. Mrs. Tschirren is a daughter of Mr. and Mrs. John Kafenberg of this city.

Changes Made in Teaching Force in Public Schools

Owing to Large Lower Grade Attendance Changes to Be Made—To Be More Efficient.

From Saturday's Daily—
Due to unusually large enrollments in second, third, and fourth grades in the Central building, the following changes will become effective Monday: Miss Crook will be given the first grade and one class from the second grade. Miss Eastwood will be transferred from Mercerville to the Central building and given a room composed of pupils from the third and fourth grades. This will relieve the congestion in these grades. Mercerville school will be closed for the present and pupils furnished transportation to Central building. Pupils now attending Mercerville school will gather at their school house not later than 8:45 a. m. This will give the taxi drivers plenty of time to reach Central building by 9 o'clock. Since the road is now graveled to the cemetery, rainy weather will not interfere with this arrangement.

Miss Hempel has been absent the past two weeks and Mrs. Ralph Anderson has been substituting for her. Since the condition of Miss Hempel's health makes it uncertain when she will be able to resume her regular duties, the board of education has decided to grant her a semester's leave of absence. It is hoped that this will give her time in which to effect a complete recovery from the unfortunate railroad accident of which she was victim.

Mrs. Gerner will take Miss Hempel's work in Junior high school for the present. The small enrollment of the sixth grade makes it possible to run this grade in two sections in charge of Miss Rys and Mrs. Carlson. These changes make it reasonably certain that no room in Central building will be crowded for the remainder of the year.

The enrollment at Columbian school is so large that it has been necessary to transfer several pupils to Wintersteen hill school. Since the Wintersteen enrollment has been below normal, this makes a very satisfactory adjustment.
