## Real Fraternal Spirit Shown in Moving Stock

Andrew Kroehler Has Goods and the Counters Moved by Members of the Masons.

From Saturday's Daily—  
The large hardware stock of the Kroehler Brothers store which has been located in a room in the Bekin building was last night moved to another location in the same building, the large stock being moved in a two hour period and in which Mr. Kroehler was very ably assisted by the members of the Masonic lodge of which he is a member.

When the Masonic temple was recently overhauled and improved Mr. Kroehler was one of the members that responded to the call and gave a great deal of his time to the work and by his efforts made it possible to secure a real job in rearranging and improving the interior of the building. This was remembered last night by the members of the order and unknown to Mr. Kroehler the word was passed for the members to be on the job and some forty of the Masons responded and with these numbers and the sons of the members who made this moving a short job.

In two hours the working members of the craft moved all the stock and the counters to the new location and had the stock and the counters to the new location and the stock placed on the shelf and the store all ready for business this morning.

After the work of moving, the members adjourned to the dining room of the Masonic temple where a luncheon was served and the members enjoyed a smoke on the successful completion of the job of moving.
