Invention Makes Gasoline Power

P. L. Boyd, Former Resident of This City Perfects Device That Makes Drilling Easier.

of that state comes the story of the invention by a former resident of this city of a device that will have a great deal to do with the work of oil well drilling in that section pect to be home Friday. of oil well drilling in that section of the west.

Mr. Boyd who is better known as Wedding Bells "Roy" Boyd, has been a mechanic since his school days and his efforts in this ine has won him a great deal of success and he is at present mechanic at the Cat Creek oi fields in Montana and in that work was able to figure out the invention that is expected to be a great step forward in the imporving of the drilling

In speaking of the invention and its practival purposes the Winnett Times has the following:

"F. L. Boyd, mechanic in the Cat Creek field, has invented, patented and put into operation a gasoline

as in the case of steam.

"Gasoline engines have long been manufactured with sufficient power in this city and the wedding was a to operate a string of standard tools
