A Correction. Union, Neb., Oct. 18. Through your paper, I wish to correct a misinterpretation of a statement I made at the W. C. T. U. convention held in Louisville a short time ago. During the discussion of candidates, and their answers to the "questionnaire" sent out, I mentioned a conversation held on Primary day, in regard to a candidate living in Nebraska City, but did not say he was "wet" nor did the one wish whom I talked, I am sorry to have been misquoted and hope this may correct all who think or have said, I used said expression. What I told was in regard to other matters.

FARMER JOHN MOREHEAD. Every time we meet Congressman John H. Morehead was reminded of the most beautiful poem that one hears ever so often:

"Say hello! When you meet a friend, just walk up and say, hello. Even though he is not dressed in broadcloth, Slap him on the back and say—Hello!"

Friday afternoon was Democrat Day at the Cass County Fair, and our congressman at the present time was here and viewed the fine stock, and talked hogs and crops among those he met during his trip with friends among the exhibitors. Most of those who shook hands with him said, "Hello, John, glad to see you at our little fair" and he replied in the best county in the state, and he came right back by saying, "Cass county is my best friend in the district, and I'll need you all this fall, so remember my efforts to do a good turn for you in congress."

After the parade, Mr. Morehead was introduced again to the large crowd that was up close to the few words to help out the good program of the afternoon. He spent a part of his time in speaking words of praise for his friends, Hon. W. B. Banning and Col. Phil Hall and others who were to speak during the afternoon.

Mr. Morehead, as you all know, was governor of our state, and is now serving you in Washington, and was on the job at all times, working at a disadvantage—but working for the state he calls home—Nebraska, and if sent back again he will be in shape to work for the interest of our state, as he has gone through the fight to get recognized as coming from the great west that will have to be recognized at an early date. Eastern capital will sometime find out that the farming district must be protected, and if you send John Morehead back this fall he will be on the job and fight to the last ditch for the people who till the soil and his friends.—Weeping Water Republican.
