Out for Future Farm Relief Acts

Group Reorganized for Fight at Next Congress; Hope to Unite West and South.

Des Moines, Ia., Oct. 21.-A reorganized and strengthened force of farm relief advocates, representing a greater diversity of interests than the group that battled unsuccessfully for a farm aid bill last winter, will descend upon congress in December under a program mapped out at the conference of the grain belt federation of farm organizations, which closed here Wednesday. Approxi-Dry Law Poll mately two score farm organizations. with memberships aggregating well over 1,000,000, have enlisted in the movement and subscribed to a definite program embracing price stabilization through a surplus crop marketing agency, readjustment of freight rates, waterway development and extension of the producers' con-

major crops by lining the cotton growers, the livestock and dairy interests and the commercial organ-

men have invited all southern states to send representatives, expressing

The American cotton growers' exhange is the southern organization farm bodies and the governors have been asked to participate in the St. Louis conference.

Representatives of the committee f 22, one of the groups that aided in the farm fight at Washington last winter, also will attend the St. Louis meeting and will function again this winter in co-operation with the corn belt committee.

Unseen Sources of Long Life

The basic sources of automobile value are not always apparent to the eye.

A motor car, like a house, may LOOK a great deal more substantial than it really is.

Because of this difficulty, more and more thousands are turning to Dodge Brothers product for insurance against disappointment.

The years have proved, and each year proves anew that Dodge Brothers are as deeply concerned with the UNSEEN goodness of their motor car as with the seen. The mileage it will deliver, the

safety it will provide, the expense and trouble it will save the owner over a period of years are quite as important to Dodge Brothers as the more obvious details of equipment and style.
