**Tri-County Poultry Show.**

President O. E. Henning, Mead, together with his committee selected from three counties are working early and late completing arrangements for the big tri-county poultry show scheduled to be held at the Huxman auditorium, Ashland, December 7, 8, 9 and 10.

This is to be the first showing of the tri-county poultry association, a new organization which absorbs the old Saunders association of past years, and in addition includes the counties of Cass and Sarpy. This show has every indication of becoming one of the biggest district shows in the state because of the very great importance of the poultry industry in the three counties involved, where nearly half a million birds are being raised on the farms annually. As a starter, superintendent Levi Mays expects six to eight hundred fowls on exhibition, and will have room for more if they come in the big auditorium.

The premium list is now on the press and will be ready in a few days. It contains classes for all known practical varieties of poultry and pet stock, with a special corner for junior poultry raisers. Liberal cash and special premiums are provided with a view of encouraging the amateur as well as the experienced showman to bring something in and help to make this a real show in this territory. A feature of the premiums will be a fifty dollar silver cup awarded as a sweepstake prize, presented by the business men of Memphis. Business men of Ashland and other towns of the district are donating generously to cash and other special premiums.

The annual poultry banquet, known as the "Scratch Feed" is dated for Thursday evening of the show and is being arranged by Messrs. George Martin and Levi Mays.

Premium lists will be available from the office of Secretary Elmer Ziegenfuss, Memphis, or at the Cass County Farm Bureau office at Weeping Water, and all entries should be made with the secretary not later than Saturday, December 4th.

A business meeting of this tri-county poultry association will be held Friday, the last day of the show at 10 o'clock. Everyone is urged to attend.

L. R. SNIPES, Co. Exten. Agent.

## FILIBUSTER FEAR

Effort Is Made to Get the Supply Bills Ready to Be Rushed Through.

Washington, Nov. 20.—Republican leaders in congress are at work early to get appropriation bills walled on their way before the Christmas holidays, the object being to forestall insurgents who attempt to filibuster for an extra session.

President Coolidge opposes an extra session after March 4. The only way one is likely to come about will be through obstructive tactics against appropriation bills. If these are not passed by March 4, congress would have to be called back to pass the measures, so that the big government departments would have founds to operate with during the fiscal year beginning July 1.

Filibuster Improbable.

These bills all originate in the house. Chairman Madden of the house appropriations committee has his committee preparing the bills for prompt presentation after congress assemblies in December. He expects to have them all passed in the house before February 1. The senate would have a month left in which to finish them.

Some insurgents desire a special session. Brookhart of Iowa has urged that one be called to dispose of farm relief. Others oppose it. Borah is indifferent. Hiram Johnson is cool. Democratic leaders have not been won over.

Unless the situation changes, therefore, there may not be sufficient support to organize a filibuster.

Most appropriation bills now go through with little debate. Scrutiny is only casual.

May Pass McNary Bill.

Pressure for farm relief legislation is becoming more insistent. The St. Louis declaration of principles has increased it. Some senators hostile to the McNary farm bill now feel that politics will force it through, despite President Coolidge's opposition.
