But did you stop to consider we have an exceptional winter and during the past week with the brand of weather which would put to shame even the California kind. **Eagle School Man Rejects State Offer**

**State Superintendent Wishes Wayne Soper to Join Staff But Offer Is Declined.**

When a long distance telephone call Monday from the State Capitol summoned Supt. Wayne Soper in to that place for an immediate conference with officials of the Department of Public Education he began to wonder what offense he could have committed against the school laws of Nebraska or what delinquency in reports he might be guilty of, not being apprised of the nature of the conference.

Upon arrival at the Capitol all apprehension was relieved when he was told that it was necessary to appoint another high school inspector for the remainder of this school year and that he was the man they wanted if available. Coming as it did, unsolicited and unexpected, it took him by surprise and required some time for deliberation before accepting or refusing the offer.

After due consideration of various conflicting problems, among them the change of schools for his children, and the very limited time allowed for the local board of education to get a man to fill his place, the prospect of disrupting the work of this school year and the disadvantage of being away from home almost continuously—declined the offer.

However, the fact that he was selected for this responsible position not only gives evidence of his high standing in his profession, but reveals to our people Mr. Soper's real worth and how fortunate we have been to retain him in the Eagle school.—Eagle Beacon.

# K&E BAKING POWDER

## Same Price for over 35 Years

### 25 ounces for 25 cents

#### Why Pay War Prices? Our Government used millions of pounds

#### Fort Crook to be Busy Place This Summer

#### Citizens Military Training Camp, Officers Reserve Training Camp at Nebraska Post.

From Saturday's Daily—  
There will be plenty of life and stir the coming summer at Fort Crook, eight miles north of this city, that will be a marked departure from the last few years when the post has been deserted during the summer months with the troops away at Fort Des Moines and Fort Leavenworth.

The formal orders have been received establishing a military training camp for the citizens military training corps, the reserve officers training corps and the officers reserve corps at Fort Crook from June 15th to September 1st.

The announcement of the decision of the war department to make the Nebraska post a training camp was made public by Major General B. A. Moore, commander of the seventh army corps, whose headquarters are at Omaha.

Provisions are made in the order for the training of 1,300 young men this summer, with an increasing number each succeeding year.

Three hundred recruits of the reserve officers training corps will be assembled at the post from June 15th to August 1st; 200 reserve officers from July 10th to July 25th.

There will be 800 members of the citizens military training corps sent to report at Fort Crook from August 1st to September 1st and who will be given training in the basic, red white and blue courses of the military training.

The extensive use of Fort Crook as a training point for the reserve forces of the seventh army corps means that the rifle range at this place will be given a great deal of use in the practicing of the rifle and machine gun units of the training camp and will give the residents of this city a chance to become acquainted with the young men that will be at the camp receiving their training.

As was noted in the Journal a short time ago the use of the range by the training camps should lead to the roads leading to the range being placed in good shape for the transportation of the troops to and from the fort and to co-operate with the plans of the war department in this respect.

**BREEN BUYS THE LINCOLN LEAGUE CLUB**  
Lincoln, Neb., Feb. 1.—Henry F. "Dick" Breen, ex-ball player and a manager of many years experience signed the dotted line here Tuesday and is now the owner of the franchise of the Lincoln club of the Western league.

Breen is reported to have paid the full 10 thousand dollars purchase price placed on the franchise by Larry F. Arnold, former owner of the links.

Hank Severeid, former big league catcher, who was in Lincoln along with Breen, decided to return to baseball next season as an active player, rather than as a manager, he told E. Lee Keyser, president of the Des Moines club, and Barney Burch, president of the Omaha club, who represented the Western league in the deal.

It was gathered from Severeid's statement that he would be back in the big leagues, possibly with the Detroit Tigers, who had, he said, made him an attractive offer.

Breen's first job will be to get himself a ball club. He has started a hunt for a player-manager and enough other gentlemen of the trade to form a team.
