Urges Writing to Solons on the Bridge Bill

Lincoln People Getting in Support of the Bridge at Plattsmouth.

The cornborer, with his wife, children, nephews, nieces, uncles, aunts, and cousins, has now taken up residence in Illinois. This corn borer is a serious menace—like the boll weevil they just "set 'round" and let it come "ahoid!" In one of the books of the Bible some prophet used to eternally be shouting "The Kingdom of Heaven is at Hand"—of course he was some off on his dates, but the persistency of enthusiasm of that is needed today to wake men out of their lethargy. Well, if the corn borer arrives in Nebraska, and puts his cold clammy death grip on our great corn fields, what are we going to do about it?

Don't get the mistaken idea the small town or small city merchant is scared of mail order business, or of radio retailing but from some of the punk bargains some of us are receiving by "radio," it would be fine to come in and have a heart-to-heart talk with that old reliable friend of yours—your local merchant! It isn't that we object to any sort of competition, but it is disheartening and rotten friendship and petty tactics, to not even give your local friend the opportunity to meet outside competition.

How many pounds of butter and dozen eggs will your radio broadcaster buy of you—and how'll you deliver 'em? Do you get any 30 days net on purchases by radio?

We may be like the old maid who said in all her life she'd never seen a man make an improper advance to her, but Lordy, can't you imagine the hasty retreats.

B. A. George of Lincoln writes us the Lincoln Chamber of Commerce is handling by telegraph with Washington, D. C. urging the bridge program at Plattsmouth. Now a post card costs one cent to mail—a letter two cents— isn't it worth two cents apiece to help get that bridge. Write Howell, Norris, and Morehead and tell 'em just why we need a bridge so much, and how we are depending on them to get that permit without too much horse-play!

Rented the last furnished apartment have listed Saturday; if you have anything open, telephone us—No 11.

Wallace Thornton, secretary of the Kearney Chamber of Commerce signs us a copy of the resolutions adopted by their directors regarding the retail selling by radio.

Considering only certain designated ones can have a broadcasting station, it is unfair to permit those government appointed few to use it for retailing, as it would be to designate that some farmers must haul their produce by team and wagon while

Shop Early for Best Selections Buy Your Season's Supply

This sale was planned weeks in advance. We made arrangements with the Manufacturer of 8 o'Clock Dressettes to use a quality of materials that will make you marvel at the remarkably low price quoted on them.

Toile du Nord, one of the finest cotton fabrics made in this country, not usually found in garments selling for less than \$1.98.

Confined patterns of Amoskeag Gingham, exclusive designs and colorings woven at the mill for these particular garments. These designs will not be duplicated elsewhere either in the yard goods or in other garments this season.

Printed Pongette in patterns and colorings that reflect the very newest ideas for Spring.

Such styles and materials have never before been offered at a price so alluring. These very attractive dressettes, revealing excellent workmanship in every detail, will stand tubbing perfectly and retain their freshness and smart lines in a most surprising manner.

others may use an auto. Are you a party to such unfairness?

Hogishness may be a cardinal virtue with some people, but the lawyer pleading his case for a farmer in a law suit to secure damages for hogs killed on a railroad right of way, shouted, "Yes my friends, twenty-four hogs! Twenty-four hogs, I repeat—twice the number in the jury box!"

We are elated to learn that our good city council, or the members of the street committee are considering the paving of several blocks here this spring. There is nothing as yet definite in this matter, but we assume it will cover the volcanic-lava-mud flows into our business section. We hope the councilmen from the third ward will not overlook Ninth street in this program, to give that much neglected section of the city an avenue of safety for the fire truck, to say nothing of the comfort of its citizens. Some of our citizens can drive to Omaha or Nebraska City, and when they return to Plattsmouth within two or three blocks of home, have to get out and put on skid-chains to get into their own front yards! Hot dog!

Saturday Councilman Kunsman assured us we would see the water hose playing on our muddy streets today if it did not freeze. If it isn't done pretty soon people will think we have dirt roads thru the city! Ain't that a hot-un?

Anyhow, it isn't often our streets get so dirty—our city council as a whole is and has been very keen and alert to keep Plattsmouth's streets in good shape, and this is one of the most noticeable things about a city, to the stranger.

Burning words: (Local golfers please note!) "Husband is very frank and plain spoken—he always calls a spade a spade. So does mine! But I can't tell you what he sometimes calls his golf clubs!"

As to the speedy driving on Main street about which the Journal was speaking, we have a good slogan from

Judge. It is—"Say it with brakes, and save on the flowers."

W. G. DAVIS,
Secretary.

P. S. Have you written Washington yet? It's so little to do, and might help so much—let's pull together or we'll pull in two!

The senate has passed a bill providing for three new battle cruisers, despite the opposition of President Coolidge. Sooner or later it is going to dawn on Cal's mind that they do not hold his opinions in very high regard in that body.
