## Secretary Davis Writes of Matters of Civic Interest

Consistency is one of the most necessary of virtues; a fellow can't be a genuine booster for his community, regardless of much shouting, if he continues to patrolize arms away from his community.

We stop to inquire, why are grasshoppers and grass-widows alike? They both jump at the first chance! Watch your step!

The writer has been called "Jeff" for years in honor of the great president of the unlucky confederacy, but the paper last night gave us a new name—Gandy—it might better have been "Candy." Woutyouthinkit?

Joe Barnett secretary of the Omaha Automobile Club called on us yesterday—a most likable smiling agreeable gentleman. Of course, he has from Mansfield, Arkansas, and has contracted some of that smile in the "Land of a million smiles" and the Big Red Apple. Call again—Barnett—we're for "you-all." He couldn't say Fort Smith—called it "Fote Smith."

This reminds me of some good friends Nebraska City has in our city. Got to feeling sorry for the taxpayers down there so send laundry to that place instead of to our own splendid efficient laundry that pays taxes, and wages at home! Don't know how that city is reciprocating this generosity on our part!

"Has anyone commented on the way you drive your new car," inquired the sweet young thing. "Yes, one man did, said 'Twenty dollars and costs.'" Ouch!

Watchful waiting, is exemplified in hunting turtle eggs along the Florida coast. Some warm moonlight night hide in a bunch of scrub palmetto along the Florida beach; see the moonlight dancing in the ocean; hear the mighty roar of the beating surf on the beach; smell that ocean salt water smell that reaches your nates before you get to the rolling tossing restless roving old Atlantic. Shortly—or later, mama-turtle sticks her beaked horny head up thru the foam, crawls out on the beach, digs a hole in the sand and lays several hundred tough skinned snow white eggs, fills the hole again with sand, smooths it over and dives back into the surging foam. Dig up those eggs, hear the rattle for a big mess of turtle egg pancakes!

If you are itching for turtle soup, after those eggs have been laid, grab mother-turtle, hoist her over on her back—her some 400-pounds, chop off her head, cut off her front legs, then pound flapper—and then get out the big copper kettle—O Boy!

Don't you think Longfellow could have made a fortune writing "The midnight ride of the Lager Beer." We spell it with big letters. With swiss cheese sandwiches or pretzels, would have to spell it all with capital letters. Hey?

One of the sad events here in recent years has been the efforts the changing managers of our telephone company the past week got across North Sixth street to give us a call. He telephoned to see if we had an extra pair of big-boots so he could wade over thru the mud. Our inability to provide a boat, or boots, necessitates his waiting until the slight breeze, over, or heavy rains come to wash it away! ! ! !

Mrs. Carol McKinstry Spiritualist recently declared that the spirit of "Rudy" still is in the movies. Yes, the splendid acting of "Rudy" still fills our memories with great thoughts—and makes the old hat-headed have-run bachelors squint with envy. But this spiritualistic bunk gives us a pain even in our bunk brain lobes! We think old Omar Khayyam puts it tersely:  
I sent my soul thru the invisible,  
Some letter of the After Life to spell;  
And by and by my soul returned to me,  
And answered, "I myself am Heaven and Hell."

"Yet, Ah, that Spring should vanish with the Rose,  
That Youth's sweet-scented manuscript should close!  
The Nightingale that in the branches sang,  
Ah, whence, and whither flown again, who knows?"

It is atrocious that no matter how good condition the Omaha road may be in, it is always reported bad! We have driven over this many-a-time when it is like a boulevard, yet never is this condition so reported. Don't know who gives out dope on this road, but some of it is mostly bunk!

Even when yur better half knocks you cold with the waffle iron, it is only fair to admit that the waffles were darn'd good!

"Ain't" it nice to hear our new band practicing these nights? Our city park is the prettiest in the state—as is our city. The longer we are here, the more we jest natcherly fall in love with Plattsmouth, and that means the people too. Even tho

## City Election Now but Matter of Few Weeks

Half of City Council and Members of the Board of Education to Be Named.

From Thursday's Daily—  
The city election is now the matter of but a few weeks away and when the voters of the city will be called upon to choose the five members of the council, one from each of the wards of the city, as well as two members of the board of education.

With the mayor and other city officials holding over the city elections do not attract usually the amount of enthusiasm as the majority campaign years altho there are half the members of the council elected who will be important factors in the handling of the affairs of the city in the next two years.

In the election for members of the board of education there is not the same party lines as in the councilmanic ticket and the city has in the past years usually chosen these candidates on the lines of non-partisanship, usually the candidates being endorsed by both parties, up until last year when both parties had tickets and the voters chose the retiring members of the board again regardless of the political labels. The candidates this year who retire are Searl S. Davis, the president of the board and Mrs. Grace V. Chase.

The councilmen who are to retire are all of the republican faith and were elected two years ago in the landslide that swept them into office, as to whether or not all or any of these will be candidates again has not been announced as the position is one that is usually more of a question than a satisfaction to the occupant of the office, but which requires some one to make the personal sacrifice to serve the people.

The councilmen who are to retire are E. C. Harris, first ward; John L. Tidball, Jr., second ward; S. S. Chase, third ward; John E. Schultz, fourth ward and L. E. Vroman, fifth ward.

The hold over councilmen are Carl Kunsmann, first ward; Fred G. Egenberger, second ward; William Highfield, third ward; George Luschnisky, fourth ward and William Shea, Jr., fifth ward.

The party conventions that will nominate the candidates will probably be held around the 29th of the month and the election will occur on April 5th so that the campaigning will not be of a strenuous nature to the candidates altho almost every campaign develops some warm contests before the final day of judgment.

The voters of the city should in the election of the councilmen remember that these men will have the handling of the city legislation and the disposition of the sums raised by taxation so that care and caution should be used in their naming.
