NEBRASKAN RECEIVES DETAILS OF DEATH OF SON

Paragraph in Comrade's Diary Tells of Fatal Air Flight.—Will Seek His Grave.

Albion, Neb., March 27.—An entry of six lines in the diary of an Ohio man has cleared up a 10-year-old mystery of the death of a Nebraska aviator in the world war and will launch a bereaved father on a pilgrimage to France with the American Legion next September. The entry in the soldier's diary that solved the mystery of the death in action of the aviator was:

"Bud Lehr has been killed. Driving over in a low raid he was shot down by machine gun bullets on the first day of the second battle of the Marne. His observer averted a crash by manipulating the stick with his feet. His observer is still alive. They hit a tree. The observer was thrown out and will live. What was left of Lehr was burned."

This page from the diary of Henry Beckley, Springfield, O., is the convincing link in the chain of evidence relating to the hitherto mysterious death of Manderson "Bud" Lehr, the son of Henry F. Lehr of Albion. And on this bit of information, the father, who since the war had been unable to obtain any definite details concerning the tragedy, will make a journey to France with members of the Amer-

This page from the diary of Henry Beckley, Springfield, O., is the convincing link in the chain of evidence relating to the hitherto mysterious death of Manderson "Bud" Lehr, the son of Henry F. Lehr of Albion. And on this bit of information, the father, who since the war had been unable to obtain any definite details concerning the tragedy, will make a journey to France with members of the Amer-

ican Legion this year. His will be a sacred pilgrimage.

Mystery for 10 Years.
"Bud" Lehr's death was cloaked in mystery for nearly nine years. He was a student at Beloit college in 1916 when an ambulance unit was organized to serve with the French armies. Going overseas immediately he served as a driver until the United States entered the war when he enlisted in the French aviation service and became a pilot in the famous Lafayette Escadrille. His communications with his parents were constant until 1918 when all letters ceased. In his efforts to obtain information the father, communicated with Dr. Julian S. Wadsworth, director of the Methodist Memorial at Chateau Thierry, France. Dr. Wadsworth began an investigation. In the almost impenetrable woods near Amneville his Boy Scouts found the remains of a shattered airplane. Madame Champagne, in the kitchen of whose home near the spot 17 American soldiers were killed, remembered when the plane was shot down.

"The body of the aviator was taken away on a truck. The truck turned to the right when it left the yard. That is all I know, she explained.

Beckley's letter, in which he further substantiates his diary by the statement that Lehr was a member of the day bombardment and attack group of the Escadrille and was driving a "Breguet" plane (the wrecked machine carried identifying marks), has cleared the mystery. While Lehr's body may never be identified, the circumstances of his death have been convincingly proved.

To Place Body in Crypt.
So, this summer, "Bud" Lehr's father will make his sacred pilgrimage. He will be able to carry out the desire of his heart, to stand on the spot where his son lost his life. And he will then be called upon by Lewis D. Crenshaw of Neully-Sur-Seine to allow the remains of "Bud." If these remains are found, to be buried in the Crypt Memorial at St. Cloud where the bodies of the 27 members of the Lafayette Escadrille will be taken this year to remain for all time.
