A Commendable Enterprise
Herman Reicke, one of the progressive farmers living north of Union, has taken a step to supply for the coming years the people of this vicinity with the best of fruit, and to make better the production of a 40-acre tract of land which he owns. He is planting the land to an orchard of the best and most selected varieties of fruit, there being a very large portion of the tract to be placed in apples of the best kinds. This is a step which will not only supply the country with fruits that now have to be shipped in, but at the same time have it growing at hand and make more valuable the country contiguous to this city. J. C. Ellington, of Plattsmouth is assisting in the setting out of the trees.
