**Many Enlistments for Camp at Fort Crook**

**Greater Omaha Association Commends Training Plans; W. B. T. Belt Aiding in Work.**

W. B. T. Belt, president of the Northwestern Bell Telephone company, has been named civilian aide to the secretary of war for Nebraska, charged with much of the responsibility of procuring candidates for the Citizens' Military Training camp to be held at Fort Crook during August.

Lieutenant Colonel F. S. Young, C. M. T. C. officer for the Seventh Corps area, said Wednesday the enlistments were being received at a lively rate and he anticipated there would be no difficulty in procuring eight hundred, which is Fort Crook's maximum quota. About seven thousand candidates can be accommodated at the five C. H. T. camps in this area and already two thousand have signed up. Nebraska boys will be stationed at Fort Crook; Iowa boys at Fort Des Moines; Minnesota, North Dakota and South Dakota candidates at Fort Snelling, and Missouri, Arkansas and Kansas trainees at Fort Leavenworth and Jefferson Barracks, St. Louis.

The Greater Omaha association has adopted a resolution along with civic associations in a number of cities throughout the corps area commending the camps to the boys and parents.

General B. A. Poore, Seventh Corps area commanding officer, in thanking officials of the association for their co-operation, stated: "It has been accurately stated that one of the dangers of a democratic form of government, like ours, is that the rudiments of military training are too much neglected by citizens of the country, the result being in time of war, casualties in excess of those warranted to obtain success."

 One hundred farmers in Cass county are keeping complete records of all their farm operations. It was noticed in the state paper a few days ago that there were 500 farm record books placed in the state of Nebraska. Of this number 100 were placed in Cass county. These farmers have taken their inventory and are keeping their expenses and receipts. This they will continue to do until Jan. 1st, 1928, when they will take their closing inventory. A summary of these books will be made which we know will be useful in planning the next year's farm operation.

**New Egg Recipe Circular.**

Railway diners, hotels and restaurants are being asked to feature a number of the egg dishes during the week. The circular's number is 910. It will be on the general mailing list and available to anyone who writes or asks for it at county extension agent offices and at the Agricultural college at Lincoln. National Egg Week is intended to encourage egg production as well as egg consumption. Nebraska's record flock co-operators are being urged to produce more clean, good eggs and put them on the market while they are still fresh.

**Baseball Park A Real Problem to be Repaired**

**Effects of Heavy Rains of Past Two Seasons Will Make It a Real Job.**

From Friday's Daily—  
 The baseball park situated on the Missouri river bottom east of the Burlington station, is offering a real problem to the park board and the city council in getting in proper shape and which is necessary if the park is to be preserved in shape so that it can be used in any way in the future.

The very heavy rains and large amounts of flood water from the city has played havoc with the park in many ways and which add to the problems of the board in getting it back in anything like the old time form.

When first erected the ball park was one of the best in the state both as to equipment and grounds and for a number of years was kept up in good shape with small repairs being looked after by the baseball association but after the passing of the regular business administration of the team there was a period of several years that the park was nobody's charge and consequently suffered from the ravages of time and the acts of vandals who tore parts of the fence down and otherwise raised several varieties of trouble with the equipment of the park.

When the park was in a state of damaged goods it was transferred to the care of the park board whose funds are very limited and as the result they could make but little improvement in the park. Two years ago the baseball team under Manager Swanson joined with the park board and fixed up the fence and the ball team spent considerable money in getting the grounds in shape to play, but hardly had the work been completed when heavy rains commenced and the flood waters pouring from the storm sewers made the park a vast lake and the force of the waters took out a large section of the fence. This was later replaced but again washed out and last season the park was very near a wreck. The grounds have been washed by the waters until it is a mass of bumps and hollows that make ball playing a real task.

The city and the park board will start work as soon as possible on getting the fence in some shape so that it may properly enclose the park, the grandstand repaired and strengthened as well as the bleachers fixed up and other small repair jobs cared for.

**JESSIE DOMINGO STUCK IN MUD HOLE SEVERAL HOURS**  
 Jessie Domingo of Weeping Water had an experience Monday afternoon and evening which he does not care to go through with again if it can be avoided. He was driving past the home of Carl Wessel east of town and when he came to cross the bad bridge, his car became mired in the mud. This happened about three o'clock in the afternoon. As he is a cripple and unable to walk he honked his horn for about an hour and tried to attract attention and then the battery became weak and the horn refused to respond and still no one came to help him in his predicament.

When the horn failed to work he started to call for help and at nine o'clock his call was heard by Mr. and Mrs. Carl Wessel who lived nearby and Mr. Wessel got out of bed and after finding out what was the trouble succeeded in getting Mr. Domingo and his car out of the mud.

Mr. Domingo began to think he would have to spend the night there and had not the Wessel family lived so near such would no doubt have been the case. Owing to the condition of this road, those who are familiar with it never travel it except when conditions are good and consequently it is seldom traveled.

This particular piece of road is very bad and in spite of the fact that many complaints have been made to the county for relief, so far, not a thing has been done.—Nehawka Enterprise.

**MISCELLANEOUS SHOWER**

Miss Agatha Colbert entertained about 45 friends at a miscellaneous shower Friday evening, complimenting Mr. and Mrs. Donald Philpot. A feature of the evening's entertainment was a mock wedding. The bridal couple (Don and Olga) were attended by Leonard Doty as best man and Agatha Colbert as bridesmaid, Clark Switzer as the official minister, read an original composition of marriage vows, from a "National" catalogue to which the bride and groom blandly promised to obey. Dorothy Jean Swisher and Genevieve Scott, as flower girls, carried a five pound sack of flowers, Jimmie Wolcott, as the ring bearer, carried a small bell which he rang vigorously. Miss Verna Colbert played the wedding march and presiding the ceremony Seward Day, sang "Almost Persuaded." Later he sang "Always."

Following the ceremony Dorothy Jean Swisher and Genevieve Scott entered drawing a small wagon loaded with very pretty and useful gifts which were presented to the bride and groom. The remainder of the evening was spent playing cards and at a late hour dainty refreshments were served.—Weeping Water Republican.

It used to be considered startling when the Rockefeller's gave away such a large sum as \$200,000. The amount of the recent gift to the Y. M. C. A., but now everybody wants to know why they didn't make it an even million.

**PIONEER RESIDENT GOES TO METHODIST HOSPITAL**

The many old friends of George Delezene will regret to learn that he was taken to the M. E. hospital the first of the week for treatment for a serious heart trouble with which he suffered for a long time.

Mr. Delezene has made his home with his sister-in-law, Mrs. Philip Kahler for the past eight years, where he has been given every care and attention, but his case demanded expert nursing and it was thought best to remove him to the hospital. He is past 75 years old and his family and friends are apprehensive of the results.

He was accompanied to the hospital by Mrs. Kahler and son, Forrest Brunson, and Mrs. George Schoeman, the eldest daughter of Mr. Delezene. The many friends will hope that Mr. Delezene will be greatly relieved by the treatment and that because of this his life may be prolonged.—Louisville Courier.
