Thomas E. Fulton and the good

wife were visiting on last Sunday at the home of Harold Kemlon and wife over near Murray, where all enjoyed a very pleasant stay. Harold is growing a large number of pigs and has about four hundred little fellows at this time.

D. C. West and wife, Walter Wunderlich and family were enjoying a visit at Crete, on last Sunday, where they were guests at the home of Joseph West and family, and where all enjoyed the occasion very much. Mr. and Mrs. Joseph West expect to depart for California to make their home in a short time.

Mr. and Mrs. F. M. Lemon were at the hospital at Omaha early Monday morning where Mrs. Lemon underwent an operation for the removal of a portion of her tonsils which were not removed at the first operation. Mrs. Lemon is getting along nicely since the operation.

Benson and the kiddies from Colone, in South Dakota, were with the parents over to Crete, where Mr. and Mrs. Rough, with the children and grandchildren, enjoyed the day very much. Mrs. Benson remained for a visit during the week, while Mr. and Mrs. Rough returned home on last Sunday evening.

Troop will look after some business matters in the cattle line, while in the west. They are expecting to be away for some ten days or two weeks.

Played Good Ball.

Last Sunday the Earl Troop Wild Cats, which is a baseball team and a go-getter at that, played and defeated the team west of Murray, the Wild Cats winning the game ten to nothing.

Enjoyed Trip to West.

Charles D. Adams and the family who have been in the west for some time, having driven there in their car, and visited while away at Denver, Stirling and vicinity, returned home last Sunday evening and reported an excellent time while away and found the crops looking finely with the single exception of corn which is very backward.

Nehawka the Hustling City.

Nehawka who was always a hustling city, has again demonstrated that she is in the line of progress, and is putting every effort in force for a better and a livelier hustling city. It was a good step forward when she years ago built the Auditorium, and fostered for so long a time that industry which advertised this live wire city over the entire United States the Sheldon Manufacturing Company, which at the present time finds customers over the entire United States, and a number of for-

sign countries, sending the product manufactured here to Australia, and the islands of the sea.

The last step to be taken to improve the conditions in and around the town is the graveling of the city streets and roads leading in three directions. All the streets have been gravelled, the road leading to "O", the road running out past the orchard, and the road leading to Mt. Pleasant cemetery. These improvements and the disposition of the people to make progress, marks this city as one of the most progressive of towns.

Chamber of Commerce Has Kicks on the Stop Signs

Many Out of Town People Complain of Signs at 6th and Main on Federal K-T Highway.

Yesterday we had the pleasure of inspecting the pool in the Westcott grounds—and aside from its great beauty, we were most impressed with the fact that the work was done by a Plattsmouth man, William Kief. This is no advertisement for Mr. Kief, but is for the public spirit that prompted him to hire a local man to do this work. The foundation required expert knowledge of cement construction, and some would have felt as though they must send away for a man to do it. However it is done beautifully and the money remains at home. The right sort of spirit to show.

Visiting with Mr. Linn, superintendent of the Missouri Pacific Plate river bridge construction work, we learn that he buys Plattsmouth bread for his camp. Mr. Linn is here and gone tomorrow, as they say, yet he gives his business to our bakery interests. In this he offers a challenge to the citizens of Plattsmouth to meet his public spiritedness.

Some say there is no sentiment in business—but that is crude wisdom. Business is founded on sentiment and a fine spirit of idealism—I dare you to look into our beautiful store windows and deny this statement of ours.

On Sunday Booster Bob Bates drove over to our neighboring little city of Cedar Creek to see the fishermen! Cars from Omaha and other cities were lined up along the beautiful fishing pools. We could not help but appreciate what great opportunities are being thrown away at Cedar Creek. What a spot for a diving board and a swimming pool; for a lunch room; and for a dancing pavilion! Mora benches and shelter for picnic parties.

A commercial swimming pool at Plattsmouth with large dance pavilion, a good orchestra and a tea room would draw crowds from Omaha and other points, for the drive, as well as the use of the pool and the dancing. If you can suggest any one who would or could finance this, drop in.

Dances and entertainment in the new Legion community building will draw many Omahans here, now that gravel roads from the metropolis are available. Every out of town car in our city means some money left here. The filling stations, restaurants and refreshment places seem to be getting the bulk of this trade, but their prosperity results in some of this same money finding its way into the cash registers of other firms who may not be open to get it first hand.

The business men, in considering the parking of cars to leave room for signers to draw up to the curbs, will do our rural trade a great kindness, and it has been several weeks since this same suggestion was made thru this column.

There are hundreds of complaints registered in this office over the stop signs on our K-T highway. For the love of Mike, let's keep our through trail open and throw these stop signs to the side streets, or take them out. This refers only to 6th and Main streets. If you approve of this, drop us a line—or come in and give us your opinion. If you don't—also tell us.

We suggested at the High school last winter that some efforts be made by the boys there to organize a Junior Chamber of Commerce. We'd like to see about 50 live-wire Plattsmouth boys, from 16 to 22 years old, get into the harness for our city—as they are doing in Omaha, Lincoln and Hastings. Youth is full of idealism—we need you, boys—get a bunch together, and come in and let's talk it over. Old age sometimes becomes "stale"—men often make their "wad," and then forget to assist or even thank the community that made it for them! We notice many bright, wholesome, clear-headed young men around the social Ptak and Consist establishments, as well as our splendidly conducted pool halls, and it hurts us to think what they could do for Plattsmouth—their homes—if they would line up into a Junior Chamber. Boys, talk it over—come in and tell us what you think of it.

One fellow said the other day, "Ah, dry up, Davis, on your trade-at-home bunk!" We received a bulletin from the United States Chamber of Commerce, Washington, D. C., recently, for which we had sent, on Retail Extension, and it was admitted that trade-at-home centers are a basic element of sentiment were failures. But we don't ask for sentimental reasons—if people had sentiment in their hearts toward the development and growth of Plattsmouth they would
