Mont Robb and J. D. Bramblet were much concerned about their friend, Hans Christensen, on last Monday afternoon, in fact it was getting well along towards evening, they had not seen their friend since early morning and they were fearing something had happened to this affable gentleman. We tried to assure them that Hans was all right and that no harm had come of him, but they would not be comforted, they wanted to see him and be sure he was all right.

A. ROBB,

Acting Postmaster.

A Chance of Harm.

We like to see the boys have a good time playing ball and it is essential that a good safe place should be had for this exhilarating exercise, for when they are playing they are very much interested in their game. They have been in the habit of playing in the main street of Union and at all times there are cars passing and moving very rapidly at that. We do not want the boys to miss the sport which they so much enjoy and greatly need, but we would dislike very much that any of them should be struck with a car.

Better Hurry Up Now.

Robert E. Hastings and with much earnestness says that the person who borrowed his turkey gobbler, had better get in somewhat of a hurry in returning the bird. Mr. Hastings is much in earnest about the matter and will allow only a short time for the one getting the turkey, to return it, or he will bring the law into effect, which will create a good deal of publicity and much trouble to the thief.

The Old Settlers' Picnic.

There will be a meeting of the members of the Old Settler association and all good citizens are members, at the room in the rear of the Bank of Union, on Saturday of this week, in the evening, June 18th, at which time there will be an election of the officers for the coming year, and who will have charge of the arrangements for the picnic and setting the date for the celebration. FARM BUREAU NOTES

Copy for this Department furnished by County Agent

Septic Tanks.

The following men, Herman Leuchen, August Rhugs, August Wendt, Ludwig Bornemeier, August Jochem and C. J. Fleischman are planning on building septic tanks. The men mentioned above and many more attended a demonstration where Mr. Young and Mr. Oberlin of the Portland Cement and Agricultural Engineering Department built a septic tank. The new method of mixing the cement with water instead of with sand was greatly appreciated.

Fish Pools on Farm Lawns.

The country people as well as those in the city have made great progress in beautifying their lawns. Fish pools and bird baths are found at Geo. Bomy's, Wabash, Henry Tool's, Ludwig Bornemeier's, Chris Kupka's, and James Mills', Murdock.

Differences in Farm Records.

Farm records kept on 47 farms in Cass county last year show that the ten best farmers of the group made an average of \$3,235 as a farm income while the ten poorest farmers made an average of only \$100. Considering the labor income the differences are even more striking—the ten best made \$3,199 while the ten poorest made an average of \$1,675. These farmers live in the same county, some almost side by side. The difference in income are due to the differences in methods used, farm expense, crop yield per acre, and net profit from live stock.

Farm expenses of the best farms took only \$43 of each of \$100 of gross income while the expenses of the ten poorest farms ate \$97 of each \$100. The ten best farms averaged from 25 to 50 per cent high yields per acre of corn, oats, wheat and legume hays. The ten best farmers received from each \$100 invested, \$154 while the ten poorest received only \$103. On the basis of feed fed the ten best farmers got \$224 per \$100 worth of feed used while the others got only \$147.
