## There's Nothing More Practical Than Banking!

Banking may be compared to the universal joint, the main spring of business.

Commercial activities are centered in banks because banks are worth while institutions and render a worth while service to business.

At our bank there is pleasure and profit on both sides of the counter.

This is exactly as it should be.

**Not a Slacker**  
No one, when the home, the country or society in general is in danger should stand back and not do their portion for the good of all. We have used the word "slacker" with the intent that we might more forcibly bring to the attention of the one who does not wish to do his share of the service allotted to him to perform under the most just laws that can be framed. If we do not pay our taxes, we are a tax slacker. If we do not do our portion in support of the government which provides security of life, liberty and the pursuit of happiness for us, in time of danger, we are classed as a wartime slacker. When we do not stand for the loyalty of a friend, or for the true principles of the best government on earth and justice between man and man, and do not reverence God our Father, and do not stand for the virtue of the mothers and sisters, and the inviolability of the home, the school and the church, we are moral slackers. Do any of us want to aspire to this?

**Be a Man Among Men**  
You would man the pumps to keep the ship afloat until all on board might be saved, or do your portion to save the home of a neighbor from destruction by fire, even if we did not like him very well, and that should do, but would we be as zealous to protect his good name or that of his family, when we could, or would we let the matter go by and not speak up even if there was opposition to what we could say in justice to the one being derided and given the worst of it, unjustly.

We do not mean, carry a chip on your shoulder looking for some one to knock off, for we would be looking for trouble and we would get it in a very short time, as we should and justly. "For if we wish others to respect us and treat us as real, honest-to-goodness men, we must conduct ourselves in this manner. "Let no one despise you." It is mostly up to us what people think of us, for by the way we treat others, they are also liable to treat us. To make friends we should also be friendly.

Men are naturally friendly, and when one is gruff they pass it over in a friendly way and you have as a general thing to break through one's good nature to pick a quarrel, for no one can quarrel with himself.

**In Justice to All**  
We remember when in our younger years, we were a member of a great brotherhood, which was organized for protection against the avarice of consolidated capital, ever seeking to wring from labor a little more for the stipend which was given. In this organization there was a sentence of one of the charges which runs, "An injury to one is the concern of all." This is true, not alone in the fight against combined avarice, but an injury to one's neighbor in any way, to any member of his family, to his reputation, to his character, or injury to his property is indeed our concern.

Cain asked God when an inquiry was made about his brother, Abel, "Am I my brother's keeper?" We are indeed our brother's keeper and at the same time our brother is our keeper. It is only when we are working for the benefit of all, for the welfare of our brother, and are acting like honest men that we are good citizens. With malice toward none and charity to all, we must enter into the work of making the community, the state, the nation and indeed the world, the best place possible to live in, and then, and then only—do we approximate that stage which is entitled to be called good citizenship.

Misses Henrietta and Helen Toman were among the visitors in Omaha today where they spent the time there visiting with friends and looking after some business matters.

## BIBLE SCHOOL LESSON

Sunday, June 19th

By M. S. Briggs

Golden Text: "Love worketh no evil to his neighbor."—Romans 13:10.

**Good Citizenship**  
Personal liberty is a very fine thing and a high sounding phrase and we appreciate the fact that one has the right to do just the things which please him, so long as his actions do not trespass on the rights of others and interfere with the freedom of his fellow man. Were there but one person in this world, that person could live in utter abandon, and not in any way interfere by his actions no matter over what scope they extended, and not trespass on the rights of others. When there were but two people, Adam and Eve, they could do as they desired, until they trespassed on the regulations which God the Father placed on their actions regarding the things which he had. Then when they did not do right with God's property ("The world is the Lord's and the fullness thereof") they were trespassors and were sinners against the great Jehovah. When God had created the world and given man a place to live and had indeed made a paradise for man to inhabit, a sense of gratitude would counsel him to obedience to the admonitions of the loving Father who thus provided so well for his comfort.

When man was cast out of the garden and the ground was cursed for man's sake and the sentence was passed on mankind that they should only eat bread by the sweat of their face, it also carried with it the blessing of honest labor which would develop man and make him self-sustaining, and putting all on an equal footing, that all should work and be blessed thereby. But some wanted to live without working and they tried to get the results of others' labor to live on, and so laws had to be enacted to protect the weak against the strong. With the years and the centuries a large number of laws have been enacted for the regulation of man in his dealings with man. One of the priceless gifts of a loving Father to his children was life, and the right to make something to sustain that life. God himself said, "Thou shalt not kill." With this came the further admonition that one should not take away the means of making a living or place another in a position that he could not make a living, also that man should not take the living away from his brother without giving just recompense—that is, purchasing with some means of exchange the things which one could use and that with the will and consent of the other. For God had said, "Thou shalt not steal."

To dwell in harmony with one's neighbors, to reverence and obey God the Father, and to do one's own part in the work which is for the benefit of all, constitutes, in the main, what is required to make a good citizen. Governments were instituted among men for the benefit of the governed, and when such is the case, there are laws enacted for the benefit of all.

**Our Portions of Expense**  
No government can be conducted without some cost, without some sacrifice to the things which we would have if there were none but us, and when we become a member of society we are receiving great benefits by this reason, and we are then called on to pay for these benefits in some way or another, it may be in money, it may be in obedience to the laws which are enacted, it may be in some service which we render.

Taxes are assessed for the benefit of the government and are so apportioned as in the best judgment of all the people is just and right. Therefore, we should pay our taxes, and if when the taxes are just and right, we willingly meet our share of the expense of government, we are good citizens. Heving to the line sometimes seems a rather perplexing proposition and difficult to do. We fancy, and sometimes with some degree of justice, that we are required to furnish more than our proportion. The way to do is to have the matter adjusted to be as just as we can, but no tax dodger, for who would not do their portion to maintain the country which protects them and their family in the pursuits of peace and safety.

**Not a Slacker**  
No one, when the home, the country or society in general is in danger should stand back and not do their portion for the good of all. We have used the word "slacker" with the intent that we might more forcibly bring to the attention of the one who does not wish to do his share of the service allotted to him to perform under the most just laws that can be framed. If we do not pay our taxes, we are a tax slacker. If we do not do our portion in support of the government which provides security of life, liberty and the pursuit of happiness for us, in time of danger, we are classed as a wartime slacker. When we do not stand for the loyalty of a friend, or for the true principles of the best government on earth and justice between man and man, and do not reverence God our Father, and do not stand for the virtue of the mothers and sisters, and the inviolability of the home, the school and the church, we are moral slackers. Do any of us want to aspire to this?

**Be a Man Among Men**
