The burglars, however, were apparently interested only in securing cash as there were no merchandise or other articles taken from the various stores visited.

At Weeping Water the parties made their way through the rear portion of the Chris Elgard hardware store and tapped the cash register of some \$20 in change that had been left there over night, but as far as learned, there was nothing else disturbed.

The town of Union was also the target of the robbers who visited the Rhin & Green grocery and the store of Mrs. Mable Reynolds, securing \$7 in small change from the Rhin & Green store, but nothing at the store of Mrs. Reynolds.

Entrance to the Rhin & Green store was secured by cracking a small part of the glass in the door of the store that permitted the party to

The POWER that was hidden in RED CROWN

ETHYL BRAND of Anti-Knock Compound puts at your service a power in Red Crown Gasoline hitherto hidden and unused. It makes Red Crown burn more efficiently—not explosively, but evenly—with a steady, powerful push on the piston for the whole length of the power stroke.

For this reason, Red Crown Ethyl Gasoline gives a gasoline motor much of the flexible power that a steam engine has. It ends knocks on hills, through mud or sand, or when you suddenly accelerate in traffic and throw a heavy load on your motor.

The higher the compression—from carbon or sudden load—the more power this wonderful combination motor fuel develops. The genuine is quick-starting, clean-burning, always-reliable Red Crown Gasoline with Ethyl Brand of Anti-Knock Compound added.

Try a tankful. But be sure to get the genuine. It is sold only where you see the RED CROWN Ethyl Gasoline sign on the silver pump.

For "knockless" operation avoid dilution. Wait until your gasoline supply is low before filling with Red Crown Ethyl Gasoline—then use Red Crown Ethyl Gasoline exclusively.
