

Nehawka Department!

Prepared in the interests of the People of Nehawka and Surrounding Vicinity Especially for the Journal Readers.

Delbert Switzer has the Sheldon thrasher about ready to go now and will be in the field within a few days. Henry Wessell and the good wife were visiting and looking after some business at Nebraska City on last Monday afternoon, they driving down in their car.

George C. Sheldon was a visitor in Plattsmouth last Saturday where he was called to look after some business matters, he driving over to the county seat in his auto.

J. W. Hobson and his helpers of Plattsmouth are sinking a well on the farm of Joseph Behrnes. Mr. Behrnes thinks it is a good investment to have plenty of good water.

R. D. Taylor, with the Nehawka DHB, was a visitor in Omaha last Tuesday, driving over to the big city with his truck for a load of feed which is handled at the Nehawka mills.

Glen Rutledge, the man of the Nehawka Enterprise, was called to a point in Iowa on last Monday to look after some business matters in connection with the paper which he publishes here.

Miller and Gruber the enterprising firm of contractors were building a bridge near the farm of Frank Schlemmer over in the direction of Murray, during the later portion of last week and early this week.

A. C. Munn was a visitor in Nehawka from near Weeping Water and reported that many were thrashing wheat both at Avoca and in the vicinity of Weeping Water, and that the yields were very satisfactory.

Lucas Carper and sister, Miss Hazel, and Mrs. Venus Griffin were visiting at Murray and at the bathing beach on last Sunday and report an excellent crowd of merry makers there and all enjoyed the evening.

Mr. and Mrs. A. D. Murdoch, and their son, Albert, were visiting in Murray on last Sunday evening as well as attending church services at the Murray Presbyterian church where Rev. Brown of Omaha was conducting the services.

Robert Troop and wife were visiting and looking after some business

in Omaha on last Friday, they having shipped some hogs to the big town the evening before and were there to see them sold as well as to look after other business matters.

Uncle Z. W. Shrader and Ben Martin had two loads of cattle from their feeding yards north of town on the live stock market at South Omaha on Friday of last week, which they had to market on account of the shortness of water in their vicinity.

On Thursday of last week Eugene Nutzman was a visitor in Omaha, having been called there to look after some business and made it a very pleasant errand to visit Stewart Rough at the hospital where he is found a gentleman doing nicely.

F. R. Cunningham, who has a saw mill in the neighborhood of Elmwood, was over and got the motive power, his engine, that he might use it for thrashing, which when he is done, he will return to the mill to complete the sawing which he has in hand there.

On last Sunday evening Henry Knabe shipped a car load of very fine hogs which he had fed out at his farm southwest of Nehawka, and with his son, Edward, was visiting in Omaha on Monday where they were looking after the sale of the porkers.

Mrs. Nels Anderson is visiting for the week at the home of Guy Root, her son, who resides at Burr, and where she is enjoying the week. This, however, requires Nels to be his own housekeeper and cook, this he prides himself he can do well, like any other man.

Charles Chappell, who is working on the Sheldon farm with L. M. McVey this summer, is having his house retouched on the interior, with a coat of varnish and paint which is adding much to the nice appearance of the place. Morris Pollard is doing the decorating.

Mrs. Frank P. Sheldon, who has been at a hospital in Omaha for some time past, where she has been receiving treatment for her health, it not being the best of late, was able to return home on last Saturday evening and is reported as feeling somewhat improved.

Grover Hoback, who was a farmer lad in his youth, likes to get out on the farm and do some of the real farming still, and on last Monday afternoon he went to the home of P. M. Massie, where he did some of the old time corn plowing and by the way he did it right.

Fred L. Nutzman shipped to the South Omaha live stock market on Monday of this week a very fine load of fat cattle which were conditioned at his feed yards south of Nehawka. Mr. Nutzman was in Omaha on Tuesday of this week to look after the sale of the cattle.

Wm. Schumaker, Fred Schumaker and Weaver Goodman, all of Nehawka, were looking after some business matters in Omaha last Monday morning, they all driving over in a car, starting early and after attending to the business in hand, were able to return home by noon.

Miss Clara Ahrends, who has been at the hospital in Omaha, where she

underwent an operation for correction of a case of appendicitis, and who is doing nicely at this time, Miss Clara was able to come home on last Sunday and is doing nicely at this time and will soon be well again.

Albert Anderson departed last Tuesday for a two weeks outing, being accompanied by Mrs. Anderson and their little son. They will expect to spend the major portion of their vacation in the Sun Flower state where they have relatives which they can enjoy visiting with and thus spend the time splendidly.

Last Monday Mrs. D. C. West and her grandson Bohlen Wundrich, departed for Masonic Park, Colo., where they will spend the summer and where they will be joined this week by Mr. D. C. West, and little Jack Wundrich and Mrs. Walter J. Wundrich and Mrs. George Pollard, they all expecting to make a stay of some time in the west. The latter party drove out starting from Nehawka on Tuesday morning of this week.

A number of the relatives and friends of Mr. and Mrs. Ernest Schumaker who reside near Murray, were over to their home on last Saturday evening where they attended a surprise on Mrs. Schumaker whose birthday occurred at that time. There were there from Nehawka and vicinity, Noah Parker and family, Frank Tundie and family, Ralph Hoback and Irvan Buck, who were accompanied by Misses Louise and Minnie Clarke.

Expect to Drill Soon. The people who are to sink the oil well and which is to be in the Ernest Pollard orchard, are expecting to have their machine and materials here in a very short time and begin the drilling of the hole, which all are hoping will result in the striking of an abundance of oil.

Thinks Crops Look Well. John G. Wunderlich, who has farmed in Cass county for many a long year, and who is a good judge of farming conditions took a trip last Sunday which included going over the O street highway to Walton, thence to Palmyra, Syracuse, Dunbar, Avoca and home to Nehawka. He traveled a long distance and observed the crops closely and was pleased to observe the wheat, most of it cut, was of excellent quality and of heavy yield. The oats was not as good as he would have liked to have found it. The corn was looking fine and with a good color and standing weather very well. The corn and pasture would be greatly benefited by a good soaking rain, and Mr. Wunderlich is hoping that the rain may come soon.

Home From the West. John H. Steffens and family, who have been in the west and north for the past more than a week, were able to return home on last Sunday after having enjoyed the trip very much. They first went to the western portion of Nebraska where they visited with friends and relatives for a number of days, and then drove to the north going into the Black Hills where they again visited and later went to the east until they had arrived at Chamberlain, South Dakota, visiting there and then on east, coming via Sioux City, and thence home via Omaha, and in all they enjoyed the trip very much.

Uncle Peter Leaves Hospital. Uncle Peter Opp, who has been at a hospital in Omaha for some time and where he underwent an operation for a long standing trouble and where since he was in a very critical condition, has been improving and was able to leave the hospital several days since and is getting along nicely at this time, and it is hoped he will soon be entirely well again in a short time.

Nehawka Looking Fine. Nehawka is looking spick and span just now with the many houses which are being painted and beautified. The three store buildings which are owned by Scott Norris, and one occupied by Frank Robb, on Main street, have been treated to a painting which makes the buildings look very nice.

The Postoffice has been given a painting at the front, the work being done by Mark Burton, and which has added much to the appearance of the main street of Nehawka. The painting of the double store of Frank P. Sheldon by Edward Woods has added to the appearance of the street, and with the tasteful decoration of the color used in the trimmings, which was black on white, and given a decided striking appearance to the white and black this producing a very marked contrast which is very pleasing to the eye. The building is being painted all over and which is adding much to it, is also an insurance for all well painted buildings have years added to their life of usefulness.

Have Spirited Ball Game. The Janda Funeral Home, of Omaha, ball team were down to Nehawka and endeavored to give the Nehawka lads an interesting time but nearly failed in the end for the game was very one-sided, though there were many good plays made on each side. The home team won in the contest by a score of nine to three for the visitors. The pitching of Lucas Carper and his support in the catcher were marked features of the playing of the home team, as well as the batting of Carl Prince, who was the only one to lift the ball far enough into the field to enable him to be entitled to a home run. However it was a very interesting and entertaining game. The home team will play with the South Side Merchants team

of Council Bluffs the coming Sunday, and a good game may be looked for.

Quarter Sells for \$20,000. A quarter of land lying a few miles north of Nehawka, and well improved sold last week for twenty thousand dollars, and while the ground was good and the improvements very fair, the price at this figure was thought to be very good. Mrs. Edna Shannon of Weeping Water secured one-half of the parcel of land while the Hart Brothers, living in the vicinity of the place secured the remainder.

INDUSTRIAL NOTES

A sound industrial policy, bringing prosperity to business and employment at good wages for workers, must square with economic laws.

LEAVES FOR AURORA

From Wednesday's Daily—William Weber, Jr., who has been foreman of the machine department of the local Burlington shops, has been transferred to the shops at Aurora, Illinois, where he will report for duty on Saturday to take over his work there for the company.

Mr. Weber has been foreman of the machine shops here for the past seven years and is one of the most experienced and efficient machinist workers on the system and has while he developed several very effective pieces of machinery that has added to the speed and efficiency of the shop and the production of work. The many friends of Mr. and Mrs. Weber regret very much to see them leave the city but as this a part of the life of a railroad man they must accept the change made. In the new home Mr. and Mrs. Weber will take the best wishes of their many friends for success and happiness.

All kinds of business stationery printed at the Journal office.

Good Used Cars!

EAGLES FIX CAMP

From Wednesday's Daily—The South Omaha aerie of the Eagles who have leased the Tom Hoer tract of land near La Platte are now busy getting the land arranged for a summer camp. The land is located just north of the Platte and lies between the highways leading to the two auto and wagon bridges and is an ideal place for the establishment of a summer camp or resort and the 18 acres that is contained in the park is amply sufficient for all of the needs of a camping ground. The ground has been leased for a period of five years. A clubhouse has been completed. An outdoor oven and an inside range have been installed along with swings and a fine well for the use of members and their families. There is a good bathing beach. Included in the 18 acres there are six acres of timberland from which all underbrush has been cleared for picnicking and auto parking purposes. A committee will be present every Saturday to look after the visitors. Keys to the clubhouse will be issued to members. Arrangements are now being made for a big picnic of members and their families. An automobile record is announced of seven days' time in making the trip from San Francisco to New York, thence to Los Angeles, the time east being 79 hours and 55 minutes. But as yet no world heroism has been claimed, nor popular ovations extended. Thus the world discriminates.

Have the Best Light

We handle the Westinghouse Electric Light for the home and business house. These are absolutely the best lights made and sell as low as you can get them anywhere, even Omaha or larger cities.

If you want best tires at lowest cost, come see us.

Olaf Lundberg
