Bring Man Here from Near Murray for Peace Bond

Number of Residents of Near Murray Express Fear of Injury From James Topp.

From Tuesday's Daily—
Yesterday afternoon Deputy Sheriff Rex Young and Constable Tom Svoboda were called out to the vicinity of Murray where they secured James Topp, who has been looking after the farming of a small tract of land between Murray and Nehawka.
The arrest of Mr. Topp followed the filing of a complaint by J. V. Pittman, Ivan De Les Derrier, D. R. Topf, Nick Frederick, Herman Wohlfarth and Roy Gerking, with County Attorney W. G. Kieck and in which the parties had expressed their fear that Mr. Topp might do them some injury and for which reason they desired to have him restrained from making any demonstration or threats at any of the complaining witnesses.
The man was brought here and arraigned before County Judge A. H. Duxbury on the charge as preferred by the county attorney and Mr. Topp was represented by his attorney, D. O. Dwyer in the action and entered a plea of not guilty to the charge.
The hearing of the case was set for Friday morning and Judge Duxbury placed the bond of the defendant at \$1,000 and in failure to secure this he was remanded to the care of Sheriff Bert Reed. Efforts are being made to reach a brother of the defendant living near Crete and who will probably supply the bond for his appearance at the hearing in the county court.
Mr. Topp has been engaged in looking after a small farm or tract of land owned by Frank Schlichtmeier in the Murray-Nehawka neighborhood for the past few months.

OLD SETTLERS CONVENTION

From Monday's Daily—
On Saturday of last week occurred the last day of the meeting of the old settlers of Cass and adjoining counties, and was a demonstration of the manner in which the people attach to the former days and the work which has been done by this generation just leaving the arena of activities of Cass county and making history for the generation which is coming. There was something near three thousand people gathered together to touch elbows and give the cordial handshake which betokened the mark of greeting which the people manifested for each other. There were people who formerly resided in that community from many places over the state and nation. The various amusements were all there but the committee having the matter in hand want to say that while they did everything they could to furnish the Merry-Go-Round and the Ferris Wheel for the kiddies that they were disappointed after they had had contracts for them. The Union band and the Maes Orchestra made the air merry with pleasant strains of music which added cheer to the assembled throng. Two very prominent speakers were present and made very worth while address, they being Hon. John E. Curtis, National Vice Commander of the American Legion, who enlivened the crowd with many a hearty laugh, as well as giving them some very wholesome advice in the matter of better living. He was followed by the Hon. A. J. Weaver, who complemented the commander on his excellent talk, and then went ahead with a most wholesome address himself, touching the matter of international waterways for the nation, and especially the Middle West, which was well received and listened to with much interest.
In the amusement line there was the tug of war between the Modern Woodman team and the All American represented by a cortege of five young men selected from the vicinity of Union, all robust fellows and excellent types of American manhood, the contest was won by the Modern Woodman team. Then followed a pull by two teams of eight Boy Scouts. The sixteen young men will surely see that all things will go well with the nation if they make the men which their example of pulling together yesterday, denote and we are certain they will, for there is nothing just like organized Boy Scouts of America.

Time Savers in Construction

Twenty or more home demonstration clubs are already in line to take the new extension project. "Time Savers in Construction," which Miss Helen Roewe of the agriculture college at Lincoln is beginning in September. It is expected that all organized clubs and other groups of women who want to organize will send their project leaders and president to the first meeting at Elmwood on Sept. 29 and at Weeping Water, Sept. 30 at 1 o'clock.
The suggestions and methods that Miss Roewe is going to give to the women in this county who do their own sewing will take away from the clothes the look that marks them "home made" brand. How often a woman admires the tailored finishes on ready made clothes. During this project home sewers will be shown how to make bound button holes, and set-in pockets, how to use the binding and hemmer, and the use of pipings. One lesson is on underwear-trimming, material, and purpose—for old and young. Another lesson is the one-hour dress—will it be a party dress? Mending always seems to take so much time, but there are short cuts there. What to do with the "time" saved will also be discussed.
Some of the goals of the project are: use the machine for darning; make undergarments, collars and

cuffs, etc.; select materials and alter patterns.
Any new club wishing to join be sure to have delegates elected before this meeting.
