Martin Johnson Ends His Life by Hanging Today

Owner of Lower Main Street Meat Market Found Dead in Shop by Friends.

From Friday's Daily— Martin L. Johnson, aged 58, well known meat dealer of this city at an early hour this morning ended his life by hanging, the suicide occurring in a small room adjoining the meat market. The hanging occurred as near as can be estimated sometime between 7 and 8 o'clock and the body was discovered at 8:30 by friends.

Mr. Johnson has made his home with the J. C. Peterson family for the past thirty-five years, rooming at their apartment over the meat market, and this morning arose as usual and after partaking of breakfast had gone down to the meat market, to open up. About 7:30 it was noticed by the other business men and clerks in the adjoining places of business that the meat market was not open and this led sometime later to Dave Wallengren, proprietor of the adjoining cigar store, noticing the fact that the meat market was closed and no sign of anyone being around the place making inquiries that led to the discovery of the tragedy.

Mr. Wallengren called to the members of the Peterson family as to where Mr. Johnson was, and they told him that he had gone down to the shop as usual and the fact that the place of business was not open led to the investigation of the matter by Claude Smith and Mr. Wallengren. Mr. Smith made his way through the Peterson apartment to the rear stairway and down into the meat market, to be horrified at opening the door leading into the main market to find the lifeless body of Mr. Johnson hanging from the wall at the side of the doorway.

The body was hanging, the toes touching the floor and death having occurred but a short time before as the body was still warm when found altho all signs of life had departed.

The hanging was by the use of a heavy halter rope that had been prepared with a slip noose at which the body was fastened and strangled. It is thought possible that Mr. Johnson had stood on a chair which was near the body and had jumped from the chair with the purpose of ending his life.

Seemingly the unfortunate man had made a previous attempt at hanging as a broken clothes line near the body bore the marks of having been used but had broken with the weight of the man and led to his selecting the heavier rope that had allowed the accomplishment of the rash act.

The only motive that could be ascribed by those intimate with the deceased is worry over ill health and financial worries, as Mr. Johnson has not been feeling the best for some time. Several years ago members of the Peterson family state, Mr. Johnson had been ill and had discussed at one time the ease with which one could end their life by leaping into the river and it is thought that in a sudden spell of despondency that he had committed the rash act today.

There was no trace of any communication or note found on his person or in the meat market and room of the deceased and he left no farewell to the friends or explanation of the suicide.

Members of the family state that he seemed as well as usual this morning and in his pleasant manner had conversed with the members of the family at breakfast and had then gone on down the stairs to commit the act that ended his life.

Mr. Johnson it is stated was in the neighborhood of fifty-eight years of age, and was unmarried. His only known relatives are two sisters who reside in Denmark, where Mr. Johnson was born. He has lived in this city for the past forty years and has been engaged in the meat business for the greater part of this time. He was of a quiet and retiring disposition and had but a small circle of friends but was generally highly esteemed and respected as a pleasant and genial gentleman by those who knew him and had the pleasure of knowing him. He was very prominent in the local lodge of the I. O. O. F. and had been an officer in the order for a number of years.

Sheriff Bert Reed and County Attorney W. G. Kieck were called after the finding of the body, but as the cause of death was apparent there was no inquest held. The body was removed to the Sattler funeral home pending the arrangements for the funeral.

Tournament a Fitting Close of Baseball Season

Plans for the Tourney Here on Week of September 19th Offers Treat for Fans.

From Thursday's Daily— The baseball tournament that is planned here for the week starting September 19th, will be a fitting close of the baseball season in this section and offers the opportunity of getting together all of the teams in the county in an interesting series of games that will test out their playing qualities and give the fans the opportunity of some real baseball.

The tournament will be quite an expense in that it will require considerable amounts for the trophies that will be offered in the tournament for the different class winners and which it is expected will be raised by the sale of the season tickets.

This city has not had an event of this kind for some ten years and the effort that the baseball management here is making in promoting the event should be followed by the cordial co-operation of everyone in putting it across. The tournament will be made self supporting by the advance sale of tickets and the admission and all that is necessary to help put over the event is to get in with a purchase of a ticket to the big event when approached to do so. It is not a donation at all as the teams competing will give a real treat to the baseball lovers of the community and make the tournament one of the best sporting events that has been held in this locality in many years.

APPRECIATED CONTRIBUTION

From Thursday's Daily— The Legion Building committee feels greatly indebted to Manager F. I. Rea of the Nebraska Gas and Electric company for an additional donation made by the company in the installation of a switch box, interior conduit work, etc., carrying their heavy lead lines some thirty feet inside the new community building to the main cut-off control panel. The material and labor on this job came to some \$20, a receipted bill for which was placed in the hands of the committee. The company subscribed \$50 to the building fund early in the drive and in addition has been most accommodating in the loaning of tools, etc., to the volunteer force of workmen installing the 700 feet of conduit encased wiring in the building.

Another volunteer offer that will be taken advantage of is that of George Taylor to furnish a team and Fresno scraper for some exterior grading work, that will get the site in shape for the laying of sidewalk. The concrete floor in the check room not provided under the general contract, will be laid by William Kief, being his further donation to the cause, at the same time he puts in the sidewalks.

Final polishing and waxing of the 5,000 square feet of maple floor in the assembly room will be done Saturday and by that time the general contractors hope to have the building ready to turn over to the Legion in an all but finished state.

INCREASES FORCE

From Thursday's Daily— The Burlington Refrigerator Express Co. shops in this city have in the past two days taken on more than the usual activity and added some fifteen men to their employes in the plant here where the refrigerator cars for the Burlington are rebuilt and repaired.

The company has called back into service some fifteen men who were laid off some time ago and who are now connected with the company payroll again.

The local shop has secured a large number of cars for repair and which necessitates the engaging of more men for the work and gives the opportunity of the men who were laid off back to duty.

The lack of cars at times curtails the work of the refrigerator shops but with the close of the summer the cars are commencing to come in at a more lively rate and add to the increase in employment in the shops, the one here being the BRES representative on the Burlington lines.

The employment of the men is very pleasing to the community and that is showing the real old spirit in regard to permit a larger force than ever is hoped for.

Mary Louise Spies Thought to Be Kidnaped

Young Girl Who Has Been With Aunt at Kansas City Since Death of Grandmother Missing.

From Friday's Daily— Mary Louise Spies, thirteen year old daughter of Elmer F. Spies, and who had made her home in this city since she was three years old, with her grandmother, is thought to be kidnaped from the home of her aunt, Mrs. Marie Cline at Kansas City, Missouri.

The young girl who had lived here up to the time of the death of her grandmother, Mrs. Louise Spies, was taken to Kansas City by her aunt and where also her father, Elmer F. Spies, is making his home. On Wednesday the child was found to be missing from the home of the aunt and efforts to locate her has proven unavailing so far, messages from Kansas City state.

The girl was brought to this city on April 1, 1917, then being three years of age, her father having been in the service of the U. S. in the army and as claimed later in litigation the parents decided to send the child here to the grandmother. Later on February 1, 1919, the mother of the child, Mrs. Maryland Spies, demanded the custody of the child which was refused by the grandmother and action started here in the district court under a writ of habeas corpus secured by the mother, to secure the possession of the child, it being contended by the grandmother that the care and custody of the child had been given her at the time the child was sent here for care and education. In the hearing in court here the custody of the child was vested in the grandmother, altho Mrs. Spies and with whom the child made her home until the death of Mrs. Spies.

The mother of the child is now residing at Chicago while the father resides at Kansas City to where the child was taken. No clue has developed as to the whereabouts of the child but it is thought that possibly the girl has been taken or gone to the custody of the mother.

K. of T. Bridge is Fast Paying for Its Cost

Cass and Sarpy Counties Pay Off \$5,000 on Bridge for August From Tolls Collected.

From Saturday's Daily— The King of Trails auto and wagon bridge over the Platte river north of this city is fast being paid for from the tolls collected by the counties of Cass and Sarpy and it seems but a matter of a few months when the amount collected will pay the amount that the two counties advanced for half of the purchase price of the bridge and the structure become a free bridge.

For the month of August the county commissioners have paid over to the bridge company that erected the bridge, the sum of \$5,000, one of the largest payments that has been made on the structure and materially reducing the amount that the counties have yet to secure to insure the structure being a free bridge.

The payments have averaged about \$3,500 a month for the time that the bridge has been in control of the state and counties and since the completion of the gravel on the K. of T. highway from this city to Fort Crook the amounts received are steadily mounting and with the fall and winter months and the good roads there will be a steady stream of travel over the highway.

With the rate that the tolls have accumulated it will be only a matter of a very short time until the payment of the cost of the bridge is accomplished and the late winter or early spring should see the structure given free to the people of the state.

The bridge suffered a great deal in loss of tolls in the spring by the fact that the roads were impassable but with the graveling of the road there should be little falling off in the travel during the winter the coming season and adding to the rapidity of paying for the bridge.
