

# Greenwood Department!

Prepared in the Interest of the People of Greenwood and Surrounding Vicinity

W. E. Palling and the family were visiting and looking after some business matters in Lincoln on last Tuesday.

Mrs. A. E. Palling was a visitor for a few days in Murdock, where she was the guest of her sister, Mrs. Dr. L. D. Lee.

Mr. and Mrs. P. A. Sanborn were visiting and looking after some business matters in Omaha for a few days during the past week.

Emil Meisinger of west of Ashland was a visitor in Greenwood on last Wednesday, and was assisting in delivering corn for Charles Howell.

Glen Peters, who is attending the state university was a visitor at the home of his parents, O. F. Peters and wife for over the week end last week.

Fred Ethrege was a visitor in Lincoln on last Friday, where he was called to look after some business and as well he was visiting with his friends.

Judge W. E. Newkirk and wife were over to Lincoln on Tuesday of last week where they were visiting with friends for the day as well as looking after some business.

Charles Howell and Frans Nelson shelled and delivered corn to the Greenwood elevators and were pleased to get the corn out of the way of the work of the coming spring.

Travis Cameron has been kept to his home for the past week on account of sickness, and while he is some better at this time he is still not feeling the best, but so as to be out again.

A. E. Lesley shipped a car of seed corn to the Waterloo company, one day last week of the celebrated Northwest Red variety, and was pleased with the result. It pays to raise the best corn and to care for it as it always pays better in the end.

Mr. and Mrs. Charles Anderson, living in the southwestern portion of Greenwood who have been so seriously ill for some time past, still remain in quite poor health, and the many friends of this couple, and they are truly many, are hoping that they may soon again be in better health.

Miss Elva Coleman, daughter of Mr. and Mrs. N. O. Coleman was taken to the hospital in Lincoln early last week, where she was being given treatment, and was very poorly, being accompanied by her mother who was assisting in her care.

On Wednesday Mr. Coleman was called to the bedside of the daughter on account of her poor condition.

J. V. Malory has been appointed by the banking board to look after the Farmer's State bank of Greenwood, who suspended payment a short time since to get the affairs of the bank in better condition. The bank will in a short time resume most of the liabilities, and the Guarantee Fund Commission will look after the remainder. The inability to realize on the paper they have out was the cause of the suspension at this time.

Messrs. M. R. Hann and A. K. Howard of South Omaha were in Greenwood this week and were meeting with the I. O. O. F. lodge of this place, in the interest of the Samaritan order, which is a higher degree of the Odd Fellows, and explained the working and purpose of the degree, and had expected to have gone to Elmwood but as their meeting nights were the same as Greenwood they have to await until next week.

Watson Howard was a visitor in Lincoln on last Wednesday, looking after some business matters regarding the sale of his eggs, which he is receiving from his flock of White Leghorns. Watson has some five hundred and laying hens and is at this time receiving on an average of about two hundred and fifty eggs per day. It pays to get the hens to do business at the time when the eggs are worthwhile. Mr. Howard has given the poultry for profit question a good consideration and knows just about how to handle the birds to get the best results.

Trains Delayed Some. A double header of the Burlington pulled a draw head out of one of the cars of a long train last Wednesday, which resulted in the buckling of the remainder of the cars of the train and put four cars off the track, which required a couple of hours to get cleared up so trains could run again.

## Commercial Club Getting Active

The Commercial club of Greenwood, have been getting active in the best interests of the city in all its avenues. They are looking to the best interests of every individual. They have found by past experience that too much credit has not been the best thing which could occur. Merchants are just like other people, and they have entered into business with a limited amount of capital, which they must make care for their business. They are willing to extend credit, but must have payment in a reasonable time for they have to meet their overhead, pay taxes, and sometimes interest, and replenish their stock of goods and when all the bills are to be met they must have payments of the outstanding bills. At the meeting of the Commercial club, they passed a resolution that they would be willing to extend credit for a period of thirty days but that short settlements must be the rule.

## Hears Relative Dead.

W. G. Renwanz received the sad news of the death of an aunt who has resided at Geneseo, Ill., and with the wife and their daughter, Mrs. E. M. Jardine, departed early Wednesday morning for the east to be present at the funeral and render what assistance they could in this the hour of sorrow.

## Building a Big House.

Gust Sorman is at this time constructing a large modern residence at Waverly, which will be thirty-two by thirty-six on the ground and two stories and containing nine rooms, modern throughout and brick veneered.

## Judge Hand Poorly.

Judge W. E. Hand has been kept to his home for the past four weeks on account of illness, and while he is able to sit up a good portion of the time now, has not been able to get out as yet. He says the day are long now when he cannot get out. This has been the longest period since his marriage that he has not been able to get down town, and it surely seems long to him.

## OPENS ROOFING PLANT

Lester L. Vroman, who has been engaged for several years with one of the largest roofing companies in the United States, located at Rochester, New York, is opening an establishment in this city in which he will specialize in roofing.

While Mr. Vroman is preparing to offer the residents of this city and vicinity a line of fire and weather proof roofing that will be a saving to the owner of the property and a matter of safety from fire and the elements of the weather.

With his long experience in this line of work he comes with the highest recommendations from the company at Rochester by whom he was employed and will be able to give the residents here the very best in his line of specialized roofing.

While not being located definitely as yet Mr. Vroman is prepared to fill any orders that may come to him and his workmanship is the very best that can be desired.

The new roofing concern will be known as the Economy Roofing Co., and orders may be left at the Journal for the present.

And if it is not war in Nicaragua, the long-awaited substitute for armed conflict has been found, but it seems as bad as the real article.

## Central P-T Holds Meeting Last Evening

Fine Program Enjoyed and Much Interest Shown—Committees for Year Named.

From Friday's Daily—

Central Parent-Teachers association held the regular January meeting last evening at the high school auditorium. There were some fifty parents in attendance despite the rather unpleasant weather and several other meetings and events that took patrons elsewhere. May we just remind ourselves in this way that the third Thursday evening of each month is the regular meeting time for Central P. T. A. Owing to the absence of the president, and not knowing his plan, the program was partly impromptu, but one that would interest all as parents. One never tires of singing the praise and prayer for our country, found in "America, the Beautiful" of which we should often remind ourselves. In absence of the president, the vice president, Miss Marten conducted the business, at which time the complete list of committees were read. If each member does his small part, the task will not be hard for any one. The membership chairman reported number of members by rooms and also number of parents having visited school this year. Every child needs the parents interest in the school room, his place of business during most of the day, preparing for citizenship.

The program was mostly in charge of Mr. Woodward, the director of physical education for the schools. He used some of the pupils of the first grade to demonstrate how through the principles of complete bodily exercise could be carried out, and ease and grace in bodily carriage developed. It is hardly desirable in a bunch of romping racing youngsters but time tells the complete story.

James and Cecil Comstock favored the gathering with a piano duet and were called back for another. The school nurse, Miss Farley now on duty in our schools gave a short talk on health. We have come to learn that the visits of these school nurses do not mean only the curing of the deflection but the keeping of the well in best condition, so we always welcome her report and try to profit thereby, for the present parents seem to be the generation on which much responsibility along this line has been placed.

The program closed with two numbers by the Junior orchestra under direction of Mr. Woodward, and which contained several boys of our Central school. This was our first opportunity to hear the boys, and altho we as a family do not look for perfection, we were well pleased with the progress the children are making in this line.

The evening closed with a short social time when a committee from Miss Dehn room, the third grade, served refreshments. Much thanks is due the committee who were only called in the afternoon but so willingly consented to do their part and thus completed the evening.

The following committees were named:

Membership—Mrs. Hayes Chairman; First Ward, Mrs. Shellenberger; Central C Class, Mrs. Peterson and Mrs. Handley; First grade, Mrs. Nelson and Mrs. Hadraba; Second grade, Mrs. Cloidt and Mrs. E. Rosenkrans; Third grade, Mrs. C. Rosenkrans and Mrs. Marks; Third grade, Mrs. Terryberry and Mrs. McVay; Fourth, Mrs. H. McMaken and Mrs. Bullin; Fifth grade, Mrs. Wells, Mrs. Douglas, Mrs. Hinz and Mrs. Hallett; Sixth grade, Mrs. Hiatt, Mrs. Baldwin, Mrs. Armstrong, and Mrs. Robertson.

Program—Mrs. G. Dovey, chairman, Mrs. Leosis, Mrs. Tidball, Mrs. Swatek, Mrs. Barkus, Mrs. Lightbody and Mrs. Knorr.

Publicity—Mrs. Patterson, chairman, Mrs. Keck, Mrs. R. Johnson, Mrs. Thomas, Mrs. Arn and Mr. Moye.

Hospitality—Mrs. Minor, chairman, Mr. Bailey, Mr. Arn, Mr. Hayes, Mrs. Davis, Mrs. Rhoades, Mrs. A. Moore, Central teachers, Miss Kaufmann.

## BIG COAL MERGER IS PLAN

New York, Jan. 20.—Isaac T. Mann, president of the Pocahontas Fuel company today confirmed Cincinnati reports of negotiations for a merger of about twenty-five large coal producing companies operating in Virginia.

The proposed consolidation would result in one of the largest coal companies in the United States, operating in a territory where numerous producing concerns now exist. Mr. Mann said, He added that the industry can be saved from demoralization only by mergers such as that proposed, with the aim of safeguarding the interests of the owners, labor and the public.

It is not expected that any new finance will be required in the formation of the new company, since only the transfer of physical properties to a centralized control is contemplated. It is estimated that the consolidated company will have an annual output of approximately 30,000,000 tons.

All local news is in the Journal.
