FARM BUREAU NOTES

Women's Home Economics Clubs

Tailored finishes for pockets, cuffs, necks, hems and other finishes of home-made garments are being studied and practiced on this month by the ladies who belong to the clubs taking this project, "Time Savers in Clothing Construction." Leaders of all the clubs met with Miss Helen Rocks on Jan. 19 at Elmwood, and 20th at Weeping Water for the monthly lesson. They are now giving the same lesson to their local clubs.

The tailored finishes will not only make the garments look attractive, but they will also save much time of the homemakers who are making their own clothes. Miss Rocks included in the day's lesson a demonstration of how to alter patterns and some suggestions and directions for making dress-maker's binding.

The next lesson will be another time saver, the use of sewing machine blinders and hemmers. Many a lady will soon know how to efficiently use all the little attachments that come in a nice box with her sewing machine.

Miss Rocks called upon Mrs. Daisy Smith who attended the winter meeting of Organized Agriculture at Lincoln the first week of the month to give brief outline of the meetings she attended.

Burn The Fence Rows

Now is the time to burn the bunch grass and the fence rows if it has not already been done. This will aid some in destroying the chinch bugs that have hidden for the winter.

Proper Culling

Now is the poorest time to cull chickens. This should be done between July 1st, and the middle of November for the following reasons:

the poor hen will do no laying after July 1st. If you cull her out during the summer or early fall, you have more room for your pullets and they need all the room they can get. It is best to watch the high market during the summer and early fall and cull the old hens. If you are culling now, you should not cull your pullets because they have not passed one egg-laying period yet.

Pruning Demonstration

There will be a serious of pruning demonstrations held the second week of February. The first will be at Chas. Ayres, Alvo, Feb. 13 at 1:30; Herman Reike's, Union, Feb. 14 at 10:00 A. M.; Chas. Warga's, Plattsmouth, Feb. 14 at 1:30. The last one at Peter Leonard's, So. Bond, Feb. 15 at 1:30. Mr. Hoppert of the Horticultural Department of the College of Agriculture will assist at these meetings. You are urged to attend the meeting nearest you.

Parent Teachers Association

The P. T. A. held a meeting at the Chilson schoolhouse last week under the leadership of Mrs. R. C. Willes, which was a success. The rural committee should have some organization where they can all meet together and discuss school and agricultural problems. You should not be satisfied until your community belongs to one of these organizations.

Community Clubs

The Mynard Community Club held a successful meeting Friday night under the leadership of W. F. Nolte. Besides different numbers on the program, they put on a Soil Robber Trial, all characters being represented by local people. This trial was exceptionally good and everyone taking part deserves credit for the success of the meeting. Any community interested in organizing should visit the Mynard club and I am sure you can learn what a community organization can do for you.—L. R. Snipes, Co. Ext. Agent.
