JOIN EXTENSION CLUBS

The work of the boys' and girls' clubs in the university extension department is one of the outstanding factors that is contributing to the improvement of the farming conditions in the west and for this reason the agricultural committee of the chamber of commerce is very desirous to have the work in this section of Cass county extended to take in all of the young people who may be interested.

A meeting has been called here for Saturday, March 17th at 2 o'clock and at which time it is hoped to have a very fine representation of the young men and women from eleven to twenty years of age, who are interested in farm work, present to join in the movement for the establishment of the additional clubs in this part of the county.

Two live and active clubs were formed here two weeks ago and it is hoped to have two or three more of these clubs established in this locality, that will have a real boosting effect on the improvement of pig and stock raising by interesting the young people in this part of the farm work.

The chairman of the committee is T. H. Pollock and those who wish to get into the club work are urged to call on Mr. Pollock on Saturday afternoon at the Farmers State bank and get a line on the club work. County Agent L. R. Snipes will also be here.

IMPROVEMENTS AT CHURCH From Wednesday's Daily—The First Methodist church of this city is having a number of improvements made that will add to the capacity of the church building and consisting of the excavation of a part of the basement on the west side of the present church parlor, which when completed will give additional space for Sunday school classes and also for various social events that may be held in the church parlor. The new addition for Sunday school work is badly needed as the attendance at the Sunday school on last Sunday was the largest for ten years.

The Social Workers of the church are also placing some new improvements in the main auditorium of the church, new rugs and carpeting on the platform and immediately in front of the platform and also redecorating the choir section with handsome drapes that will replace the present wooden partition that is used to separate the choir section from the main auditorium of the church.
