### AIDED IN SUCCESS

In reporting the community meet at Fairview last week, several were unintentionally omitted.

Little Miss Mildred Murray gave one of her very delightful piano numbers.

Miss Minnie Pankonin, accompanied by Elizabeth Tritsch on the piano gave an alto horn solo.

Christie and Victor Stohlman were heard in a vocal duet. These numbers were much appreciated by everyone and Fairview feels fortunate indeed in having so many friends who always help to make this a real social center.

Boston, March 27.—The battery room of the S-4 was flooded within 85 seconds and the control room in any time up to 13 minutes after the submarine was rammed and sunk by the coast guard destroyer Paulding off Provincetown last December, according to testimony before the naval court of inquiry at the Charlestown navy yard today.

The court, which was appointed by Secretary of the Navy Wilbur and convened here last January, paid a surprise visit to the yard today for a personal inspection of the submarine. Lieut. Commander Emery P. Eld-

redge, a member of the board of investigation which has been conducting a minute examination of the S-4 since she was raised and brought to Charlestown, was the man who reconstructed the happenings inside the S-4 after she was sunk for the members of the court today.

## To the Voters—

OF THE FIRST COMMISSIONER DISTRICT

On January 1st, 1925, the funds of the First Commissioner District were practically exhausted. The road building equipment was worn out. And prior to this date there were no County Patrols.

Today funds of this district are in good condition, and we have good machinery to grade and maintain the roads.

We have two maintainers working all the time and one half time on a laid out connected system of County Highways, consisting of 75 miles. I have tried to give all parts of the District a fair deal. All proceedings are on record. I invite your investigation.

If you approve of this record, I am asking for your support at the Primary Election April 10, 1928.
