

Greenwood Department!

Prepared in the Interest of the People of Greenwood and Surrounding Vicinity

H. A. Leaver delivered some twenty-four hundred bushels of wheat, for which he is receiving a good price.

Leo Peters and father, O. F. Peters shelled and delivered their corn to the elevator on Thursday of last week.

Mrs. E. A. Landon was a visitor in Ashland on last Thursday, making the trip via the bus and visiting with relatives.

Sheriff Bert Reed was a visitor in Greenwood looking after some delinquent taxes, which have been and remain unpaid at this time.

Miss Mena Gakameyer of Murdock was a visitor in Greenwood for a short time on last Thursday and was a guest of her sister, Mrs. Rex Peters.

Dewey Headley and the family were spending a short time in Eagle on last Wednesday afternoon, they driving over for a short visit with relatives.

Mrs. O. Clynor who has been so seriously ill for some time past, and who has had to have a special nurse,

is reported as being much improved at this time.

E. L. McDonald was a visitor in Plattsmouth on last Wednesday taking with him the election returns, and also looking after some other business matters as well.

Elmer Coleman and family and Mrs. Ella Marshall of Ashland were in Greenwood on last Saturday night, they coming to attend the show, and also were visiting with Miss Catherine Coleman for the evening, and spending the day following at the home of E. A. Landon.

It is with a good deal of satisfaction that P. A. Sanborn and family received the good news of the improvement of the nine year old granddaughter, Margaret Moon, who is at Omaha, and hopes are now entertained that she will recover. The little Miss has been having a strong fight with pneumonia. Her grandmother, Mrs. Sanborn has been there caring for her during the past week, while Mr. Sanborn was there Sunday and Monday.

Mrs. George Wolters of Arlington has been troubled with repeated attacks of appendicitis, and during the storm last week when the snow made the traveling almost impassable, a very severe attack came and she was rushed to Fremont, where an operation was performed and since Mrs. Wolters has been getting along nicely. Her sister, Mrs. Rex Peters and husband drove to Lincoln and from there to Fremont, remaining over Saturday and Sunday with the patient, returning home on Monday. Since then the report is that the patient is doing nicely.

their way in, looked for a way, and so borrowed chickens and sold them, getting the money and then went again and borrowed more chickens, or the same ones and thus came their downfall, for the particular biddies were recognized by the dealer and the merry go round came to an end. Now the hen houses are watched a little more closely.

Mules and Horses.
I have a number of good mules and horses, will sell in matched teams or singly, to suit, they are good and sound and true to work. Or will exchange to suit. P. A. Sanborn Service, Greenwood. m26-1fw

Local Play Makes Hit.
The people who are working for the better conditions of Greenwood, and who put on the play for the benefit of the Greenwood Cemetery Association, put on their play on last Saturday, and again on Tuesday, each time netting about forty dollars for the fund and on invitation went over to Waverly where they again put on the play on Wednesday evening of last week and were rewarded by receiving some eighty-five dollars for the fund. The ones participating are pleased that they were able to thus afford a fund for the beautifying of the already beautiful Greenwood cemetery.

Some Take Degree.
A number of the members of the L. O. O. F. of Greenwood were over to Ashland on last Tuesday, where they enjoyed the meeting of the past grand association and where a number of the past Grands of Greenwood took the additional degree. There were in the number of visitors from Greenwood to Ashland Wm. J. Coleman, C. E. Caffee, James Strahn and Clyde Newkirk. Mr. Caffee had received the degree before but was

To Your Mother

among the visitors and enjoyed the evening and the eats with the rest.

Will Straighten Salt Creek

A number of the people who were interested in the straightening of Salt Creek met last week to devise means and make preparations for a thorough organization of those who are seeking to have the creek straightened so as to save land and care for the flood waters and prevent damage. They will have another meeting soon and it looks like the work will be completed the coming summer.

Will Play Baseball.

There will be a meeting soon of those who are interested in the na-

tional game of baseball, which will be held for the purpose of organizing the team for the summer games. Greenwood has always had a good team and provided good clean sport for the lovers of the game. All who are interested in the sport come out and give the players your moral and substantial support.

Had An Excellent Sale.

The sale which was put on by the enterprising firm of White and Bucknell during the past week reached out and attracted many for miles away, from the town of Greenwood, and those there were also attracted by the excellent prices which goods sold at. The interest was intense, and many of the contests were marked upon the tally sheet, many millions, running over thirty during the latter portion of the week, and expecting to grow many times by the closing of business on Saturday night.

Dr. Claire Owens to Make Race for the Legislature

Blind Lady Physician and Sister of Mrs. J. E. Jones is Named in Fillmore County.

Dr. Claire E. Owens, of Exeter, who is blind, won the democratic nomination for representative to the state legislature from this district, defeating Albert Krause 510 to 491. Her republican opponent at the fall election will be Guy A. Brown, of Geneva. A democrat, George Landgren, now represents the district, but retired and won the nomination for county judge.

Dr. Owens is a "native daughter" of Fillmore county. She was born on a farm near Burress and after being graduated from the Nebraska school for the blind, was supervisor of music in the public schools of Exeter, Fairmont and Geneva for 15 years. After finishing 10 years in the Geneva schools, she completed a four-year course in the Des Moines Still college of osteopathy in June,

To the Farmers of Cass County, Neb.---

The Farmers Mutual Fire and Live Stock Insurance Company was organized 34 years ago in Cass county, for the protection of Cass county farmers. During this time we have paid our losses promptly and the rate we have charged has been pleasing to all our Policy holders. . . . If you are not a member of our company, see one of our Directors or write to J. P. FALTER, Secretary, at Plattsmouth, Nebr., and we will be glad to give you full information regarding rates, etc.

Farmers Mutual Fire and Live Stock Insurance Company

1921. She returned to Geneva, and after two years' practice there, moved to Exeter.

"I know the life of the people in this county from three viewpoints," said Dr. Owens. "As a farmer's daughter, I know the great gamble of the farmer with the elements, the low price of porkers and the high price of the packer's product; the high freight rates which carries his grain away to mills and foreign ports and the high price of the flour which is shipped back to him; the high rate of interest he pays on the mortgage and the low rate he receives on time deposits; and the taxes which he dare not dodge! I know school life, both as a teacher and member of the board of directors."

Dr. Owens served on the school board in Exeter and Geneva. She is president of the Nebraska Osteopathic Woman's association and has been active in national affairs of her profession and also in the interests of the blind. Dr. Owens is quite well known in Plattsmouth, where she has been a visitor here at the home of her sister,

Mrs. J. E. Jones, and is one of the most talented professional women in the state and should she be named by the Fillmore county voters would make a real representative.

HOLD EXAMINATIONS

From Saturday's Daily—
The eight grade examinations held under the direction of County Superintendent Miss Alph Peterson over the county, on Thursday and Friday were very largely attended by the young people, there being some 300 in the county that took the examination.

The examinations for this section of the county were held at the office of Miss Peterson, there being some ninety of the young people in attendance and one of the largest that has been held here. The large number made necessary the use of the G. A. R. room at the court house as well as the office of Miss Peterson and the greatest interest was shown by those who were in attendance.

All local news is in the Journal.

BABY CHICKS WE HAVE THEM

All kinds hatching every week. They are going fast. Better get your order in so as to be sure of getting them when you want them. Prices are right!

2 miles East of Greenwood on the Louisville road.

ANNOUNCING The World's Lowest Priced Six Automobile The New Whippet Six

Whippet Six Features

- 1-Silent Timing Chain
Eliminating noisy, troublesome timing gears.
- 2-Big, Powerful Four-wheel Brakes
Mechanically actuated, easily adjusted, reliable.
- 3-Mechanics Oil Type Universal Joints
Noiseless, self-lubricating and sturdy.
- 4-Modern Rear Axle
One-piece housing, removable shafts, stem-type pinion, six adjustable Timken bearings.
- 5-Scientific Body Construction
Extended dash panel, affording generous leg room. Correct placing of seats to give plenty of head room.
- 6-Attractive Instrument Panel
Switch, choke, ammeter, oil pressure gauge and an 80-mile speedometer attractively and conveniently grouped on dash panel.
- 7-Saunders
At both front wheels to assure riding comfort.
- 8-7-Bearing Crankshaft
Heavy, accurately machined, perfectly balanced, drilled for lubrication to all bearings.
- 9-Nelson-type Pistons
With invar steel, non-expanding strut. Light in weight.
- 10-Tryon Shackles
Soft adjusting and practically self-lubricating.
- 11-Thermostat
Assuring proper control of water circulation. Pump actuates the water flow.
- 12-Air Cleaner
Cleanses all air before it enters carburetor. A gasoline filter is also standard equipment.
- 13-Timken Radial Bearings at Steering Pivots
Insuring easy steering.
- 14-Safety
Assured by low center of gravity, gasoline tank in rear, four-wheel brakes, strong, sturdy chassis and body.

Willys-Overland is the third largest producer of automobiles in the world. Willys-Overland sales gained 42% in first quarter of 1928 over same period in 1927. Willys-Overland registration shows the largest gain in Nebraska. With one exception, their gain was more than the total registration of any other car in this time.
