

Greenwood Department!

Prepared in the Interest of the People of Greenwood and Surrounding Vicinity

W. E. Pailing was called to the county seat for a day or so during the past week to look after some business matters.

W. C. Emelund, former president of the Farmers State bank of Greenwood, was a visitor in Greenwood for a short time last week.

Wm. Whitlach was assisting in blowing stumps on a farm over towards Murdock last Wednesday, where the man was clearing out an orchard.

Rex Peters departed on last Wednesday afternoon for Kansas City, where he went to attend the Grain Dealers association which was meeting there at that time.

L. B. Appleman from near Alvo was a visitor in Greenwood for a short time on Wednesday of last week, where he was looking after some business and visiting with his friends.

BABY CHICKS WE HAVE THEM

All kinds hatching every week. They are going fast. Better get your order in so as to be sure of getting them when you want them. Prices are right!

Leesly Hatchery

2 miles East of Greenwood on the Louisville road.

L. V. Schaffer, the Olson Brothers, Albert Besel, W. E. Waldwin, Meyer Brothers, R. E. Coleman and Dotty Buskirk shelled and delivered corn at the Greenwood elevators during the past week.

C. O. Swanson and Ed Brunkow were spending last week in Plattsburgh where they went as peace makers, or otherwise jurymen, and where they were assisting in settling the things which the parties themselves were not able to do.

At the Rebekah Kensington which was given during the past week the entertainment was given under the direction of the hostesses, Mesdames Clyde Newkirk, L. C. Marvin and Misses Nystrum and Kent, and all agree that the event was one of the most pleasant and worthwhile.

The Rebekah Assembly of Greenwood or rather the F. L. T. of that order, were holding a meeting on last Wednesday afternoon, and again entertained their husbands and other members of the order at a supper on Friday evening of last week, when they surely did make a merry time for all present and with some of the best of eats.

Mrs. P. L. Hall entertained at her home on last Thursday the Greenwood General Kensington, at which time the ladies enjoyed the occasion very much. The most pleasant afternoon was spent and the ladies did much good work. The afternoon was made more pleasant by the delightful luncheon which was served by the hostess.

At the regular meeting of the Odd Fellows of Greenwood this evening they will confer the first degree of Oddfellowship on Mr. D. E. Grady

who is becoming a member of this excellent order. The boys of the three like friendship, love and truth, and a long list of more of such excellent principles, are quite active at this time in their work which is bearing good results by the adding of excellent men in their order.

On Wednesday of last week Fred Goodfellow loaded his good nor Merrimac, where he will move, and make his home about twelve miles southeast of that place. Mr. Goodfellow goes with the Journal a visitor in his home, and says he will like the new home as he has already spent twelve years there and likes the country. His neighbors were assisting him in the moving to the station and also extending the very best wishes for this gentleman and the family in their home in the northwest.

Wins the Prize.

The sale which was put on last week by the enterprising firm of White & Bucknell, notwithstanding the condition of the weather and the not too good roads was a success, and with better roads, it should have been a greater success. One thing is certain, people received much excellent goods at a figure which was a great saving to them, and at the same time cleaned up the premises of old magazines and worn out auto tires. There was enough to require some four trucks to cart it away. Miss Thelma Birdsall proved to be the most popular of the contestants, and won by some thirty million votes. The prize being \$100 in gold and which was most highly appreciated by this popular young lady.

Two Score Dead, Nearly 100,000 Made Homeless

Bulgarians Numb with Despair and Fear as Tremors Continue—Death Toll Uncertain.

Sofia, Bulgarian, April 19.—A population numb with despair and fear was pictured tonight in reports from the Philippopolis district, visited last night by the second shattering earthquake within a week. Almost one hundred thousand persons are shelterless and more than two score are known to have lost their lives.

Their homes are in ruins, their possessions gone, their highways broken. Bridges have been destroyed and railway tracks twisted away on right of ways that have sunk six feet in spots.

The changing face of nature shows whole hills moved and their contours altered. In places underground reservoirs have broken through and are spouting water and sand-like miniature geysers.

City Devastated.

The dead are uncounted because of the interruptions to communications and the organization of local governments. But in Philippopolis there are more than 20 dead and 60 of the more than 100 injured there are in serious condition. In five villages near that city 27 persons were killed and scores injured. Sadavo, seat of a school of agriculture and model farms, was destroyed.

Borrisovgrad, which suffered severely in the previous quake, again was devastated.

In Philippopolis only the higher parts of the city are habitable. The other sections were crashed into ruin.

And the quakes continue. In some sections there have been tremors on an average of a half-dozen a hour. Each fresh shock has been echoed by falling walls or chimneys or witnessed by fresh cracks in the sturdy structures which resisted the earlier attacks upon their stability.

At Regular Intervals.

The shocks have been felt regularly at Tehirpan, center of the heavy quake of last Saturday, but the devastation there has not been increased materially.

People throughout the stricken districts are in a state of deplorable destitution. Many have gone insane. Government and charitable agencies are trying to bring order out of the chaos. King Boris is in the field in person.—World-Herald.

IMPROVE HIGHWAYS ON BASIS OF THE TRAFFIC

Mr. B. E. Gray of the West Virginia State Road Commission, made an important statement when he said recently:

"A highway system is analogous to a railroad system in that it is purely a means of furnishing transportation service. The various lines of a railroad are improved according to the traffic which they are called upon to bear, and there is no reason why a highway should be improved on any other basis than that of making it adequate for the traffic which will come upon it. Accordingly, wherever it is possible to use local materials immediately available, and make surfaces which will give adequate service at a low cost, such a type certainly should be used, rather than arbitrarily selecting some high type purely for reasons of sentiment or because of public clamor.

There are actually tens of thousands of miles of gravel and macadam roads in this country which can be made suitable for the modern traffic which they are called upon to bear, at a moderate expense, by surfacing them with a waterproof material such as asphaltic concrete. Instead of tearing up roads which have a well equipped foundation, salvaging methods should be studied, just as railroads salvage old equipment for use on lines and in sections to which it is suited.

PROHIBITION IS BLAMED

Washington, April 18.—"Common people" of the country are getting "sick and tired" of congress talking them what to do, what to eat and what to drink. Senator Blease, democrat, South Carolina, told the senate today, warning that the people were losing respect not only for law but for the president, the cabinet and for congress.

Enactment of prohibitory laws was blamed by Blease for the revolt which he declared was leading to anarchy. He complained of the prohibition law but was speaking against the migratory bird bill.

"These people are getting sick and tired of being ham-strung and hog-tied," he said. "When I was a boy we thought the president was something. But they don't think so now. We thought members of the cabinet were comparable to the apostles. But not now. Nor do they think anything of congress today. Don't fool yourselves."

MAN MISSING THIRTY YEARS REUNITED TO HIS FAMILY

Tabor, Ia., April 19.—Thirty years after he dropped from sight out of remorse for having lost \$40 which a brother had loaned him in a poker game, Frank Aberly, member of a prominent family here, has been reunited by the members of his family. When he was taken sick Sunday, Aberly revealed his family connection after spending several years in his youthful environs without resorting to an alias.

The sun and the standing of the Red Sox both rise early at the beginning of the big league season.

Many Trains to Carry the Beauty Winners

Local Contest to Pick Miss Plattsburgh Will be Held on Next Monday and Tuesday.

Galveston, Tex., April 18.—Grief is being upped for the poor train dispatchers as scores of excursions are being planned into Galveston June 2 to 5 for the Third International Pageant of Pulpit and Ninth Annual Bathing Girl Revue, which will bring hundreds of thousands of visitors to this island resort on the Gulf of Mexico.

Never before have railroads planned such extensive accommodations for visitors to Galveston's superspectacle which this year will attract foreign entries from fifteen countries, state entries from virtually half the states in this country and individual entries from a score or more of the larger cities.

This year will see more all-expense tours than ever before, excursions of this type, in which the participants will sleep aboard their special Pullman cars during their stay on Treasure Island, having been planned from Nebraska, Missouri, Arkansas, Iowa and Minnesota, with more in prospect.

Each of these excursions will bring state entries for the international pageant, together with hundreds of their backers. Coaches will bear streamer signs advertising to the world the delegations they are carrying and will be otherwise decorated.

Three of these all-expense tours will be over the Missouri Pacific and two over the Rock Island. The former will include one from Omaha bearing Miss Nebraska and her retinue; another from St. Louis with Miss St. Louis and Miss Missouri and the third from Little Rock, with that city's entry.

The Rock Island will have specials from Des Moines and from St. Paul, with Miss Iowa and Miss Minnesota, respectively, the fete honorees.

The elimination contest for Plattsburgh and vicinity will be held on Monday, April 23rd and Tuesday, the 24th. New entries are received daily, but the management of the Barnele theatre have not as yet decided to close registration. So there is still a chance for a small number of young ladies to compete for the \$5,000.00 in prizes if they will act quickly.

Household Goods!

FOR SALE

EARTH SHOCKS RECORDED

Washington, April 18.—The university seismograph began registering earthquake shocks at 2:34 p. m. today and at 4:45 p. m. the instrument was still recording. Father Tondorf said that the tremors reached the greatest intensity between 3:04 and 3:10 p. m. He estimated the distance to be about 4,200 miles in a southerly or southwesterly direction.

Sofia, Bulgaria, April 18.—A violent earthquake shook Sofia at 8:25 o'clock tonight. It was followed by a general panic. The streets were crowded with people who rushed from the buildings as soon as the movement started. The first quake was followed by tremors of lesser intensity. First indications were that the center was in the southern environs of the city.

To the Farmers of Cass County, Neb.---

The Farmers Mutual Fire and Live Stock Insurance Company was organized 34 years ago in Cass county, for the protection of Cass county farmers. During this time we have paid our losses promptly and the rate we have charged has been pleasing to all our Policy holders. . . . If you are not a member of our company, see one of our Directors or write to J. P. FALTER, Secretary, at Plattsburgh, Neb., and we will be glad to give you full information regarding rates, etc.

Farmers Mutual Fire and Live Stock Insurance Company

Newspaper is Strongest Advertising Medium

Docherty Tells Realtors This is the Way to Get Maximum Results—Necessary as Rent.

"The strongest advertising medium for the real estate man is the newspaper," the Omaha Real Estate Board was told by Charles R. Docherty, president of the Charles R. Docherty company at its luncheon Wednesday.

The speaker declared there is no magic formula to "get rich quick" by advertising, but there are methods in its use which get maximum results.

"Advertising is a very necessary part of your business and mine," he said. "It is as necessary as the rent you pay, because you would not need a place of business if you had no customers, and you won't have customers if you don't advertise. You can't try advertising. It must be kept up consistently and persistently. When I began business in a small way, I put advertising on my payroll and I have kept it there. Now, with few salesmen, my company covers Nebraska and Iowa and reaches out to cities in all parts of the country.

"Some of your newspaper advertising is very good, and some is very bad. I wonder how many of you read the little book which tells how to write the copy for a classified advertisement. Very often there is a tendency in real estate classified ads to make technical statements which other real estate men would understand, but which would not be understood at all by the general public. It may be only one word, and yet that one word sometimes makes an advertisement ambiguous, or makes it lose its appeal to the person it should attract. Classified advertisements must necessarily be brief, and choice of words is very important. Every advertisement must convey a message, for advertising is printed salesmanship."

Mr. Docherty said the old style of "reason why" advertising copy is being replaced by shorter advertisements with more direct appeal. "You must sell your salesman on your advertising," he asserted. "I remember once, when I wanted to buy a house, I was attracted by an advertisement which mentioned a home in a particular section of the city. It was the location that attracted me. But when the salesman had shown us the house, he took us to a far distant part of the city, determined to sell us another house."

COMMANDER TO WICHITA

Alliance, Neb., April 19.—Edward E. Spafford of New York, national American Legion commander, was the guest of Alliance today. He arrived here by airplane from Billings, Mont., at noon and will take off Friday morning for Wichita, Kas.

Several hundred visiting legionnaires from over the state, Colorado, Wyoming and South Dakota, greeted the commander upon his arrival. A dinner in his honor was held tonight.

The trip from Billings was negotiated in three hours and fifteen minutes with Capt. D. Breen, an army pilot, operating the machine. Earl Ewing, state legion commander of Colorado, flew here today.

Craig Wants Candidates to Come 'Clean'

Would Have Opponents Also List All of Their Expenditures in the Race for Congress.

Jesse V. Craig, of Lincoln, chief of the state blue sky department took a little time off to run for the republican nomination for congress with a field of eight candidates. As one of the defeated number, he has filed a statement of his primary campaign expenses. His itemized statement deeded with the secretary of state totals \$585.07. Mr. Craig said he included every piece of money expended, nothing being omitted on account of exemptions allowed by the state law applying to landholders for state office. He contends that under Section 2293, which stands unamended, candidates for congress must file a complete statement of campaign expenses. So he has set a precedent by including all expenditures. He said he expects other candidates to comply with the same "state law."

John Witte, of Falls City, who also ran, filed a statement under another section of the state law, Section 2291. As this section does not require candidates to report personal expenses, the cost of circulars, posters, letters or stationery, telegraph

and telephone and newspaper advertising, he reported with these items excluded by law, he did not spend anything. Mr. Craig contends that the section under which Mr. Witte filed his account does not apply to candidates for congress or senator or any office not established by the state constitution or laws of the state, but that Section 2293 plainly applies to congressional candidates and requires them to report all items of expense. This Mr. Craig has done.

Others contend that while Section 2293 was intended to apply to campaign expenses of congressional candidates the section is a dead letter on account of federal statutes which require congressional candidates to report campaign expenses to federal authorities instead of to state officials and that the state in fact has no control over candidates for congress or United States senators.

Mr. Craig's itemized statement specifies the amount paid to various publications for advertising, amounts paid to workers distributing cards and posters and stickers. The largest item is one of \$98.75 for 5,000 posters, 23,000 stickers and 1,200 show window cards.

The hanging of Birger will do good in the way of pacifying the disturbing element in Williamson and Franklin counties in Southern Illinois. They know that from now on justice will be meted out to them. Chicago needs a lot of this kind of medicine.

HOWELL DECLINES TO MEET METCALFE IN JOINT DEBATE

Washington, April 18.—Senator Howell today sent the following letter to Richard L. Metcalfe in reply to Metcalfe's letter to the senator:

"My Dear Mr. Metcalfe: Your letter of the fourteenth instant is on hand, and I thank you for the suggestion contained therein. However, I have other plans for the campaign.

"Your congratulations in connection with my nomination are indeed appreciated, and you may be assured I heartily reciprocate.

"With best wishes for you and yours, I am sincerely,
"ROBERT B. HOWELL."

Richard L. Metcalfe, Nebraska's democratic nominee for United States senator, in a letter to Senator Howell on April 14, invited the latter, as republican nominee for the same office, to meet him in joint canvass of the state in a series of meetings to start as soon after July 4 as would suit Howell's convenience. Mr. Metcalfe suggested that in this manner the two could best present the real issues of the campaign to the whole state with a minimum expense and inconvenience to all concerned.

Mr. Metcalfe, when advised of the contents of Howell's letter, declined to comment until he has received the letter itself.

Governor Smith is to establish headquarters in Kansas City.
