ARANTEED tions have increased rather than diminished the need for them even if the consciousness of the need may ave weakened in many instances. Especially is this true from the

standpoint of the farmer's business nd his standard of living. In business the farmer must n ater to the far distant customer who has all the great avenues of production open to him. Croup setion, not individual action, must be em ployed in dealing with the competition involved in serving this distant. gustomer. It is a case of the community acting as a unit in business."

"The rural community is the one which has always been depended up on to furnish great leaders for civic most active organizations of its kind state and national problems. Anyin the eastern part of the state, will thing that will help to create a more united spirit and furnish inspiration. "A short time ago it was the for the youth of the country districts is well worth while. There is a real need for more communities with a spirit such as is indicated in this Nobraska community, whose folks can be instructed and entertained without going to the city.
