Another Building For Union

There is a prospect for Union having another new building, and thus adding much to the material welfare of the city. The telephone building which has served for a long time first for the Union Mutual Telephone company, and later since the sale to the Lincoln Telegraph and Telephone company of the plant in Union, but poorly for the purpose has been unsatisfactory to the company, and they are seeking for another and a better place for their business office and exchange. A number of the officers of the company among whom were J. P. Lahr of Plattsmouth, manager of this district, and F. E. Behm of the central offices at Lincoln were in Union on last Monday looking over the grounds with the end in view of erecting a new building, for the purpose. They inspected the building which has subserved years as residence of Grandmother Stine and a portion of the time as a hotel and office for a number of doctors, but when inspecting the place the committee thought it was large and rejected it, notwithstanding it is a very good purchase at the price which is being asked. There is one of the citizens of Union who has an offer on the building, and may purchase it.

Withrow a veteran newspaper man, who has been making his home near Union for the past few years, went to St. Paul, last week where he made the purchase of the Shubert Citizen, the local paper of that place, which he will conduct in the future. The people of Shubert are fortunate in that he has decided to locate in their town for when Mr. Withrow takes hold of a paper you may know that it is going to make a success, as well as carry the interests of the city with it.

Luther Hall, Jr. a Former Union

Man, is Burned

Suffers Severe Injuries at Home in
Washington While Filling the
Gas Tank of His Truck

Luther B. Hall, Jr., of Snohomish, Wash., former resident of Nebraska City, sustained serious burns a few days ago at a filling station near Seattle, while filling the gas tank to his truck, according to an article in this morning's Nebraska City News-Press.

Word of his injury was received in Nebraska City yesterday.

Hall had stopped at a service station on the Bothell highway about four miles from Seattle to fill his gas tank. The tank is under the seat with the tank opening on the opposite side of the cab from the driver. He removed the cushion and had passed the hose across the front of the body to the opening in the tank and was holding it in place while the attendant operated the pump.

The gasoline ignited suddenly, and Hall, attempting to escape from the flame, withdrew the hose from the tank and threw it outside. In doing so the gasoline splashed into his face and upon his clothing, and ignited from the other gas. Hall jumped from the truck and rolled on the ground until the flames had been extinguished. A passing motorist took him to the office of a Seattle physician where his injuries were attended and he was then taken to Providence hospital at Everett, Wash. where he is recovering from his burns.

The Hall family were residents for many years southeast of Union, where Luther Hall, Sr., was engaged in farming and later the family moved to Nebraska City, where they resided, and it was there that Luther, Jr., was graduated from the public schools. Several years ago the family moved to Washington, where they were joined by Mr. and Mrs. Derwood H. Lynde, the latter a daughter of Mr. Hall, and the two families have since resided in that state.

The Hotel Main barber shop has added a new feature to their regular line of barber work, a fine and up to the minute beauty shop being opened today in the shop where all of the most modern methods of beauty culture can be secured at the hands of an expert.

The new addition to the barber shop has been arranged by the remodeling of the room occupied by the barber shop, the space formerly devoted to the bath rooms, being changed so as to give space to a neat and attractive beauty shop.

The woodwork has been painted a spotless white and equipped with the most modern equipment to carry on the arts of hairdressing and beauty culture. The room has cozy and comfortable furnishings and gives the added advantage of skilled barbers in handling haircutting.

The new shop will be in charge of Mrs. Stella Hart, who has been one of the leading workers in this line in the city and whose return here will be the occasion of much pleasure to her former customers and an assurance to the new ones who call at the Hotel Main shop.

PLATTS. TO HAVE HARD GAME

At the request of the Fort Crook team of the Interstate League, the game which was to have been played on Sunday at Fort Crook with Plattsmouth, has been postponed until Tuesday evening when a twilight battle will be staged for the R. O. T. C. boys at the Fort as well as the regular garrison.

With Sunday as an open date Manager Distell has been able to secure a red hot game for the local fans which will be played on the home lot.

The opponents of the Plattsmouth team Sunday will be the baseball team of the Omaha Fire department, reputed one of the very best organizations of its kind in the big town and one that should make the local team get up and play real ball to win.

The game should be one of the best of the season and will bring a very fast organization here to face the Plattsmouth players, as some of the best amateur players in the big town are on the Firemen and Police teams.

TO MOVE SOON

From Wednesday's Daily—
Rev. Grassmuck and family of Greenwood were here Tuesday afternoon for a few hours, motoring down to look over the city and to arrange for their removal here within the next few weeks. Rev. Grassmuck has accepted the call to the pastorate of the First Christian church and will be here in the early part of August to take up the active work of the church. Years of Service in MODEL T FORDS

Expenditure of few dollars may enable you to get thousands of miles from your old car

THE Model T Ford is still a great car. It led the motor industry for twenty years and it is used today by more people than any other automobile. More than eight million Model T Fords are in active service in city, town and country, and many of them can be driven for two, three and five more years and even longer at very small up-keep expense.

The cost of Model T parts and of necessary labor is unusually low because of established Ford policies.

The labor charge for tuning up the motor is only \$1. This includes replacement of commutator case, brush and vibrator points if necessary. Grinding valves and cleaning carbon runs from \$3 to \$4. Overhauling carburetor, \$1.50. Installing new pistons or connecting rods, \$6. Tightening main bearings, \$6. For a labor charge of \$20 to \$25 you can have the motor and transmission completely overhauled.

The labor charge for replacing rear axle shaft, drive shaft pinion or drive gear is \$5. All sockets and joints of front end can be tightened for \$1.50.

The steering gear can be completely overhauled for a labor charge of \$3.50. Muffler repaired for \$1.

The labor charge for repainting the Coupe is \$25. Sedan, \$25. Touring Car, \$20. Top deck of Coupe or Sedan can be replaced for a labor charge of \$4.

All of these prices are approximate, of course, because the cost of materials needed will depend on the condition of each car. They show, however, the low cost of putting the Model T Ford in shape for thousands of miles of additional service.

See the nearest Ford dealer, therefore, and have him estimate on the cost of reconditioning your Model T Ford. He will tell you, in advance, exactly how much the complete job will cost.

Smith Will Carry Fight Into the West

Iowa Democrats Will Make Farm Relief Issue in Coming Campaign; Favor Houston Plan.

Des Moines, Ia., July 15.—Iowa Democrats plan to carry the fight to the republicans on farm relief. They express a hope that the "corn belt revolt" will prove a horseshoe in Al Smith's glove. Dr. J. W. Reynolds, national committee man, just back from New York, said Governor Smith and John J. Raskob, the new democratic national chairman, are for making a battlefield of the west on the question of "equality for agriculture."

Committee man Reynolds made an onslaught today upon Hubert Work, republican national chairman, in a statement which said:
"Secretary Work, it is rumored, wants to center the fight in this campaign in the eastern part of the United States. I do not blame the secretary. I am not surprised that he is afraid to tell the farmers why his party has failed to produce a remedy for the ills of agriculture."
Republicans See Victory.
Republican leaders point to the harmonizing process that is bringing the regulars and the insurgents together behind Hoover and they declare rock-ribbed republican Iowa will adhere to its habit and custom of giving its electoral vote to the republican ticket. But they all say a lot of campaigning is to be done and careful watch has got to be kept on the pulse and temperature of the farmer.

Rather scant attention is given by the politicians to the meeting of the corn belt committee here tomorrow. Its purpose is to make a comparative analysis of the republican and democratic farm plans.
William Hirth of Columbia, Mo., its chairman, is on a sick bed. A split opinion is shown among some of the leaders; one group is for coming out definitely with a resolution as to who is the farmers' friend, the republicans or democrats; another group advocates deferring final action until the acceptance speeches have been made by Hoover and Smith.
Milo Reno, head of the farmers union of Iowa, says: "We want to punish our enemies and reward our friends. The farmer didn't get even a sweet smile at Kansas City, but at Houston the democrats wrote a plank embracing the principles of the equalization fee."—World Herald.
