It Sure Can Ras.

It is said that the Coyote of the farther deserts, of the west can put to shame any other animal anyway near its size, when it comes to running, and many is the time that a proud aristocratic house dog, who prided himself on speed, has been humbled and humiliated when they have endeavored to round up one of these coyotes. So is the Wolverine, the latest and most nimble of automobiles, one of which of the sedan type has been purchased by Winfield Scott Norris, and he took Henry Pollard riding in it and Henry declares that it rides as easy as an airplane, and makes good as time. There will be but one shift for the present, the drilling being in charge of Driller Dickerson, and the well will be sunk to below water level and sealed so as to prevent the ingress of water, as that interferes with the work at lower depths.

Later it is expected to put on three shifts, that the work of sinking the shaft can be pushed forward with more rapidity. The news of the resuming of the work is good news to the people of Nehawka and vicinity which will be especially benefited by the striking of oil.

Indifference

costs money

WHEN your motor starts slowly and your acceleration is weak, when you get gas knocks and shift to second or low gear for every little hill, you are wasting gasoline and money. Such indifference is expensive.

Better change to balanced Red Crown Gasoline, if your motor is free from carbon. It will give you quick starts, plenty of power and big mileage per gallon. It is uniform, power-full, economical gasoline.

But if you have one of the new high-compression motors or a motor that is heavily carbonized, use RED CROWN ETHYL GASOLINE. It is ideal high compression fuel—a combination of always-reliable Red Crown Gasoline and Ethyl Brand of Anti-Knock Compound. It eliminates gas knocks, runs the motor more quietly, develops more power. Costs more by the gallon but less by the mile. Use it in truck, tractor and passenger car.

Buy your gasoline and oil where you see the Red Crown Sign—the sign of quality products and prompt, obliging, courteous service.
