Curtis Takes Higher Tariff Plea to West. Sheridan, Wyo., Sept. 21.—Senator Curtis carried the republican protective tariff campaign into the night, blaming the "flood" of farm importations last year for much of the farmers' troubles.

Renewing his pledge of higher tariff rates on agricultural importations the senator questioned the democratic attitude on tariff and declared that Governor Smith "apparently" has the Underwood bill of 1913 in mind as a tariff measure.

"Then, I need not spend time," he declared in a prepared address "to convince you that agriculture will receive no tariff protection from the democrats. Listen to some of the products on the free list in the Underwood bill: Bacon, hams, buckwheat, cattle, corn, cream, eggs, hogs, lambs, lard, milk, potatoes, rye, sheep, and goats, wheat and wool. Our tariff rates must be raised to shut out foreign imports which congest our markets and every avenue and channel of trade."

Reaching Sheridan late in the day the senator crossed Nebraska and South Dakota in coming into Wyoming. He appeared on the back platform at stops in all states and left the train at Edgemont, S. D., to speak to a crowd in the railroad yards. He talked high tariff and Herbert Hoover at these places, also, and was given a good hand dby his audiences.—World-Herald.
