They are expecting to return home the latter part of this week.

Is there a community which can boast that it is immune from any calamity or disaster and that it will never need the willing and helping hand of the Red Cross? Tornadoes, hurricanes, floods, epidemics, and other destroyers, are no respecters of particular communities. They are very impartial when they decide to go upon a spree of destruction; they do not notify the communities that they intend to pass through; they come in like a thief in the night and destroy everything before them. They attack rich and poor, old and young alike; they tear the babe from its mother's breast.

Who administers to the sufferers they leave in their wake after the storm is over?

Local relief is usually slow, inadequate, inefficient; but the unselfish agency, the very efficient Red Cross, comes forth like an angel from heaven and alleviates suffering and reconstructs the broken homes.

Those who enroll as members of the Red Cross annually, or who make donations, are really paying a premium for disaster insurance.

It is only a trick of fate that epidemics, of the elements, strike certain communities and pass by others.

Local Students to Attend Older Boys' Conference

Auburn to Be Point for Southeastern District Meeting Within Next Two Weeks.

Speakers who will make a great appeal was the aim of those arranging the programs for the Older Boys' Conference to be held in Auburn, Norfolk and Grand Island, November 30, December 1-2. At Auburn, Plattsmouth boys will have an opportunity to hear Dr. James Naismith, head of the department of physical education at the University of Kansas. His name has become a tradition wherever the game of basketball is played as he was the originator of the game many years ago. Other eminent men who will be heard are Harry White of Chicago, for many years a Y. M. C. A. secretary in Indiana; L. C. Oberlies of Lincoln; Walter W. Head of Omaha; Dr. Earl Roadman, president of South Dakota Wesleyan and Dr. Charles Fordyce, a physician of Lincoln.

These men have had years of contact with boys work and are favorites with boys of the age attending these conferences. Here will be a splendid opportunity for a boy to discuss with experienced men his life-work, future education or any other problem that puzzles him. Though they are all busy men, they will be glad to spare time for an interview with any boy.

A feature at each conference will be the special musical numbers. Glee clubs and quartettes will be heard from the many colleges over the state as well as artists from the faculties of our Nebraska colleges. Good song leaders have been secured to lead the boys in the choruses which are so heartily entered into by the boys.

The recreational program for Saturday afternoon will vary in the conference cities. Where athletic facilities are available, contests in swimming, volleyball and basketball will be held. A special feature of the Auburn program will be the stunt entertainment which will be staged by the boys.

The personnel of the Plattsmouth delegation will be completed and announced the first of next week.

Legion's Indoor Carnival is All Over

Saturday Night Wound Up Harvest Festival—Ford Car Goes to Sand Pit Employee.

From Monday's Daily—

In the wee hours of Sunday morning the shouting ceased and all was quiet—breathlessly so. For about to take place was the drawing to determine the winner of the Model A Ford Tudor sedan. Concession spellers, who a moment before had been barking their wares as vociferously as their remaining voices would permit, hushed the situation and joined in the silence.

Eight little girls passed the churn in which the 1,400 names had been placed, each drawing out one name and handing it to the judges, Luke Wiles and Herman Thomas. When the eight had been mixed, five of the girls came back for a second draw, thus eliminating three of the possible winners, and then the other three picked three names from the five.

From the three left, Miss Florence Terry whose 62,000 votes won her first place in the Queen contest, stepped up and picked the winning name, "Red" McClure, an employee of the Lyman-Richey Sand company, at their pits near this city. The two other names that survived the three previous eliminations were those of L. W. Lorenz and Leon McCarty.

A moment more and the spellers are heard in wild confusion, barking their wares once more. People are wending their way homeward—some of them walking who had expected to ride—some with merry expressions—others with looks of dismay.

It's the old, old story. Not everyone can win.

The attendance on the closing night was the best of the entire week and the patronage was very good. Bingo, the old favorite finished the week just \$12 under last year's total.

The Legion boys wish to thank the public for its patronage and all the merchants who donated articles to the carnival.

D. A. R. HOLDS MEETING

From Wednesday's Daily—

The members of Pontenelle chapter of the Daughter of the American Revolution were most pleasantly entertained on Monday afternoon at the home of Mrs. T. B. Bates at Fourth and Vine streets and with a very pleasing number of the members in attendance. In the entertaining and serving Mrs. Bates was assisted by Mrs. R. A. Bates.

The usual routine business of the chapter was taken up by the officers and the members of the chapter enjoyed a very fine report on the work of the Continental congress of the society held last April, Mrs. Frank R. Gobelman giving a report of the various resolutions that were introduced at the congress and the greater part of which were adopted by the session of the congress.

The ladies also spent some time in the discussion of patriotic plans which will be announced later.

At the close of the afternoon the hostesses served a most delicious luncheon that aided in the completion of a most pleasant and profitable session of the society.

SHARE IN AWARD GOES TO WIDOW IN ITALY

Lincoln, Nov. 20.—A decision by the Douglas county district court granting the widow of Joseph Nicotera, a resident of Italy \$1.50 a week compensation for the death of her husband, was affirmed by the supreme court commission.

It was brought out in the trial that Nicotera had left his wife in Italy more than 30 years ago. Prior to 1900 he had several brief visits in Italy, but on the last trip he brought another woman back with him and lived with her in Omaha.

He continued, however, to send one-tenth of his earnings to the wife in Italy. Because of that fact, the trial court decreed that she should receive one-tenth of the compensation, amounting to \$1.50 a week, for a period of 250 weeks.

Massachusetts has an anti-blasphe-my law, passed in 1697, but they're not enforcing it any more. What's the use, with so many thousand of people playing golf?
