## Profits Wiped Out on Reich Railways as Expenses Grow

Replacing of Old Ties 7600 Kilometers Behind Normal, Company Report Shows.

Hamburg—An unfavorable turn in the past year's financial situation of the German railways is shown in the preliminary report issued by the company's organs in accordance with the Treaty of Versailles to operate all the railways of the Reich.  
While in 1927 part of the profit and a held-over surplus could be spent for improvements, in 1928 the railways were forced to assume new burdens not covered by current income. The company is behind its normal program of replacing old ties to the extent of 7600 kilometers—this as a result of curtailment during the war and the years immediately after. Final figures for 1928 are not yet available, but it will be a big increase of 42,000,000 reichsmarks annually; replacement payments of German railroads were advanced by 110,000,000 and other expenses increased 105,000,000—a total advance of about 650,000,000 reichsmarks.  
The advance of prices of coal and iron made it necessary to try and increase the railroad's income, as it was possible to reduce outgoing amounts. To this end rates were advanced.  
The number of passengers carried increased by 6.6 per cent. More people made use of the cheaper classes and availed themselves of tickets at reduced rates—therefore the average revenue from each passenger per kilometer traveled was reduced from 3.03 pfennig in 1927 to 2.97 pfennig during 1928.

**COURT REFUSES A REVIEW**  
Washington—The supreme court refused Monday to review the sale of the Kansas City Star, The Kansas City Times and The Kansas City Weekly Star to The Kansas City Star company.  
The properties were sold to the late Irwin R. Kirkwood and associates, on a bid of \$11,000,000 of which \$2,500,000 was in cash. Walter S. Dickey, a Kansas City publisher, who also submitted a bid, asked the supreme court to pass on the sale.  
Under the will of William R. Nelson, founder of the Kansas City Star and the other newspapers, they were to be sold by a board of trustees after the death of his wife and daughter. To handle the properties and dispose of them a board of trustees was provided in Mr. Nelson's will to be appointed by the president of the Universities of Missouri, Kansas and Oklahoma. The funds obtained thru the sale are to be applied under the will in providing a gallery of works on fine arts.

**MARKER BILL IS DEFEATED**  
Pierre, S. D.—The South Dakota house of representatives Monday killed a state affairs committee bill which sought to authorize co-operation of South Dakota with Nebraska in the repair of markers along the boundary line between the two states. An appropriation for the work was included in the proposed legislation.
