Better Output, **Swope Declares**

Adequate Pey, Urges General Electric Head

New York-American prosperity can be raised to new high levels by tion's workmen, according to Gerard \$85 Vanity Dresser and Bench, \$35; Swope, president of the General Walnut Secretary Desk, \$15; a three- Electric Company and one of the

Speaking at an informal meeting just held at Greenwich House here, Mr. Swope declared that higher Telephone Stand and Seat, \$4.50; of the unemployment problem. He large Mirror, \$3.50; Duofold, \$15; characterized as "old fashioned" the four Library Tables, \$5 to \$7.50: belief that it is necessary to reduce

"There is no doubt that our present prosperity and generally high cards, napkins and favors. standard of living are in part due to to \$5; Mattresses, \$2 to \$7; two the fact that workmen today are re-Kitchen Cupboards, \$7.50 and \$10; ceiving about 125 per cent higher wakes than they did 15 years ago, while paying only 60 per cent more for what they must buy," he said.

Higher Wages Make Efficiency "Better output generally follows higher wages and the fine esprit de corps which is established in an organization paying adequate wages is nvaluable.

"Higher wages are calculated to crouse the interest and intelligence of the workmen and thus to increase

fficiency and production." Mr. Swope holds that the responsibility of industry to its employees goes hand in hand with its responsibility to the public. The belief that t was necessary to keep down wages n order to have low production costs, he feels, is traceable to the beginning of the factory system. Especially in America, Mr. Swope

found, modern industrial management recognizes that nothing can compensate for inadequate wages end that the only way to safeguard dequate earnings is to "bulwark" Lowry the employees with increased mechanical facilities and electrical

High wages, he believes, are the first consideration in the economic relationship between the worker and he industry. Labor conditions and hours of work, important as they tre, take second place. This question, Mr. Swope declared,

s directly related to the unemployment problem, which is the most erious question facing the country oday. Attempts to solve it through America. pensions, insurance and similar emedies would, at best, provide only emporary relief, he said. "The man earning a good wage

an save enough to provide for rainy lays," Mr. Swope continued. "The provision of the means of thrift and nvestment for the workment is one of the things which industry must ake inot consideration.'

Proper Housing Needed

Mr. Swope does not favor the de-'manufacturer landlords," but beieves that this problem, like all since the club was organized. other aspects of the labor situation, should find its solution in the light of the "individualistic philosophy" hat is characteristic of America. If industry were to provide bene fits of this character, the unemployment problem would be practicall solved, Mr. Swope believes. The present situation where an able, trained and willing worker is unable to find a job constitutes, he holds, "the most severe indictment against modern vivilization," with a large measure of dustries themselves.
