# County Superintendent is Visiting the Schools

**Miss Peterson Making General Trip Overd County to Look Over the Schools as Year Closing**

From Friday's Daily—

Miss Alpha Peterson, the efficient county superintendent, has been engaged in the past week in swinging over the county to visit the various schools and while these trips are made often during the year, the trip this time finds the schools of the county fast nearing the end of the school year.

The various school districts are now occupied with the matter of the selection of teachers for the next term and which keeps the school boards busy in the selection of the applicants for the positions and in most cases a great many applications have been received for the positions even in the rural districts.

The greater part of the teaching forces of the county are being retained but in many cases particularly in the larger places teachers are changing, many taking the year off for advanced educational work at college or specializing along the chosen lines of educational work while others are leaving the schools to be married and which makes necessary the supplying of these vacancies.

The schools are all progressing nicely Miss Peterson finds and the past year has been most successful in all of the schools.

The superintendent will complete the visiting of the schools the coming week and making a survey of the school situation as the year draws to a close.

# BANDIT CHIEF SURRENDERS

Mexico City—The presidential office has received reports that Benjamin Mendoza, noted bandit chief, again had surrendered. It was stated that he had submitted to federal authorities in the town of Tulancingo, sitte of Mexico. The report revealed that the federalists had allowed Mendoza to retain a following of 100 men with the understanding that he would give up banditry and use his outfit to fight other robber gangs.

# YOUR BOY

carries his school books into another world where his appearance registers instantly. He can also carry a smile of assurance if he wears a

# Kayne e SHIRT

as smart style then travels with him. His own good taste is built for the future. The well-groomed man is fathered by the Kaynee Boy. See that your boy has this advantage in meeting his away-from-home world.

The designs are many. He'll want every one!

# PROGRESSIVE SCHOOL

Advancement and success of the Hastings Business College at Hastings was thrown into prominence during the latter part of the year 1928, when the college purchased the Nebraska Sanitarium with its extensive grounds.

The college at once proceeded to remodel the building, shaping it for the requirements of a modern business college, including dormitory facilities and a dining room, features which the college has not had up to this time. With no hitch in the year's school program, re-modeling was accomplished in time for the opening of the second semester, and in its new home the Hastings Business College is launched upon a school career that promises large developments.

The schools' enrollment of 150 students will in all likelihood increase more rapidly even than is shown by the fine record it has previously made under the management of the late Carl E. Pratt. It has been Mr. Pratt's aim from the beginning of his management to develop a school that will efficiently and economically give to young people of the territory such a training in business as will enable them to secure positions in business houses of various lines and not only to hold these positions but to have an outlook that will be helpful to them in progressing in business.

Mr. Pratt is himself a college graduate and combines the academic with the practical outlook in a way that has given his school a constant and growing popularity. Following graduation from college Mr. Pratt was superintendent of the Plattsmouth city schools for three years as a member of the board of education, and these contacts with the public schools gave him a valuable insight into the requirements of a business college.

It is a very unusual thing for a business college to be provided with the facilities that the Hastings Business College now has since securing its own building. Operating a dining room and a dormitory, the Hastings Business College has facilities that generally are to be found only in academic institutions. No other college in a very great territory is so well equipped to meet the requirements of students.

There is a staff of five teachers, and the schedule is arranged to permit new students to begin their work at any time. There is scarcely a limit to the possibilities of a business college here, in the view of Mr. Pratt, and it is with this view that he has secured for the institution its own home upon a location that will permit of expansion commensurate with the expected growth of the college.

# LOPS ONE WIFE FROM TANGLE

York, March 26.—District Judge H. D. Landis Tuesday untangled the matrimonial tangle of Leon Hudson by annulling his marriage to Mona Bolte Hudson on Dec. 25, last, and reinstating a decree of divorce from his former wife, Ella. Hudson now awaits sentence here on a charge of robbing a store at Thayer, to which he has pleaded guilty.

Hudson found himself with two wives on his hands by action of the court, when after marrying his second wife at Bellevue, Kan., Judge Landis set aside his divorce from wife No. 1, which was granted but 11 days before the second marriage. Wife No. 2 applied for an annulment immediately after the court gave her husband another wife by setting aside the divorce decree.

# GERMAN PLANE IN PANAMA

Colon, Panama—For the first time since ex-President Coolidge issued on February 18 an order setting forth principles governing flight of foreign aircraft over the canal zone, a German-owned and operated amphibian plane, the C-33 of the Skadia company, landed in Cristobal Harbor Wednesday afternoon. The machine came from Columbia where the Germans have been operating a freight and mail service for some time.

Because of the Panama-United States treaty of 1903 the American authorities hitherto have refused landing privileges to foreign airplanes. Exceptions were made only in the case of sporting flights, such as the Coste-Lerix venture.

# HOOVER HAS A TELEPHONE

Washington—President Hoover has departed from a white house precedent and a telephone now is installed within arm's reach of his desk. Chief executives during the telephone age prior to Mr. Hoover's taking office rarely used a telephone, and when they did they talked either over one in a booth in a room adjoining the president's office or the one in the president's study on the second floor.

Mr. Hoover's ideas regarding the activities of a chief executive are different, however, and because of his increased use of the instrument he did not relish leaving his desk to reach it.

# U. S. SENDS GUNBOAT TO MEXICAN SEAPORT

San Diego, Cal., March 28.—The United States destroyer Robert Smith Tuesday anchored in the beleaguered seaport of Mazatlan to watch after American interests during the fighting between the attacking insurgents and the federals, it was announced at naval headquarters here.

# Legislature Turns Down Bill for Paving Aid

**Rejects Measure Urged by Hon. Troy L. Davis for Relief of Cities From 2,500 to 5,000**

The measure introduced in the state legislature by Hon. Troy L. Davis of Weeping Water, Cass county representative for the relief of cities of from 2,500 to 5,000, in regard to the maintaining of state highways over paved streets, was nicely headed through the house of representatives at Lincoln yesterday when the representative from Dawson county, Rev. Hovis, proceeded to ask for a full detail of the bill and opened a battle on the measure that developed a warm argument between the eastern and western members of the legislature.

The measure was one that would cover a situation that exists here on Sixth street for the two blocks from Vine to Pearl where heavy traffic has caused a great deal of damage to the paving.

The bill provided that in cities of from 2,500 to 5,000, highways may be maintained solely by the department of public works in its discretion. Under the present law the department maintains highways in towns of up to 2,500, while cities above that class do the maintaining. Mr. Davis stated that there are in Nebraska seventeen cities of from 2,500 to 5,000 but that the bill is intended only for those near the populous centers. Plattsmouth, in his district, is heavily traveled by trucks going to and from Omaha.

The pavement, he said, is paid for by owners of abutting property and that in many cases, these owners are poor people. Heavy truck traffic has worked a hardship, he also pointed out, on these property holders in that they must bear the cost of repaving. The bill would make it optional with the departments as to whether or not it shall assist.

# Pays His Compliments

In opposing the bill and moving that it be indefinitely postponed, Hovis of Dawson paid his compliments to O street, Lincoln. "It's the worst stretch of highway in the state," he declared, "and next comes main street in Plattsmouth."

The department of public works, he said, has something more important to do than replace worn out pavement in cities. He added that he is sick of seeing everything in way of legislation being for the benefit of eastern Nebraska with nothing for the west portion.

Andrews of Lancaster approved the bill as a step in the right direction. O'Malley of Greeley, took a direct poke at the measure when he said:

"Who sustains the city of Lincoln? It is the university, the capital and the several other state institutions. These institutions are maintained by tax assessments against the people in all sections of the state. We give you the money you think you are giving back in good roads and other things. You couldn't have any paving in Lincoln and you wouldn't have any paving in Omaha but for the people out in the state who support the institutions and who go to these two cities to spend their money."

# GOES OVER SITE FOR VETS' HOSPITAL

Lincoln, March 28.—Col. J. J. Phelan of Washington, of the United States veteran bureau engineering department, arrived today to begin a topographical survey of the site of the new veteran's hospital on East O street. Accompanied by Frank Eager and County Engineer Edgren, Colonel Phelan looked over the grounds this afternoon and expressed himself as pleased with the location.

County Engineer Edgren is to assist Colonel Phelan in the work which will require approximately two weeks.

"All who want to go to Heaven stand up." (All stood but Willie) "Why, Willie, don't you want to go to Heaven?" "Not yet!"

You may want to go to heaven, but you probably don't want to go just yet . . . and while an accident or injury might not carry you to your reward, it might make things hard for your wife and children, if you were laid up for a long time. See us today about your Accident Insurance.

# Democratic Candidates for City Council

**Nominees Represent List of Able and Representative Men for the Election**

The city will be called upon to elect Tuesday, six members of the city council, the law making body of the city and one that has the handling of the city affairs.

For these offices the democratic party is offering for the consideration of the voters a strong and able group of representative men and who come from every walk of life and give the city the benefit of their experience and viewpoint as business men, laboring men and those who have a deep and abiding interest in the city.

The re-election of these men assures the support of the wise and economical steps that Mayor Sattler has taken up and which has resulted in the improvement of city finances and the building up of city funds and the checking of unnecessary expenditure of the taxpayers' money.

# First Ward

P. A. Horn, candidate for councilman in the first ward, is a member of one of the old families of the county and has spent his lifetime in this community and since coming here from the farm several years ago has become a property owner and active factor in the city and its affairs. Mr. Horn is a safe and conservative man and one needed in the city council.

# Second Ward

Claude C. Smith, present councilman in the second ward, is a candidate for re-election and in his record in the council is deserving of the return to the office that he has filed so ably. Mr. Smith is engaged with the C. Hartford coal company here and his experience along business lines has made him a very valuable man in the council. In his service Mr. Smith has been alive to the interests of his entire city and believes in thoroughly investigating all matters affecting the affairs of the city before taking action on them. Mr. Smith is the chairman of the claims committee of the council.

# Third Ward

In the third ward the nominee is one of the business men of the community and one exceptionally well versed in the affairs of the city and county. W. H. Puls, the candidate, being active in the business affairs of the city and also is serving as county assessor and thoroughly familiar with the property values of the city and county and the handling of the public business. He has been the chairman of the finance committee of the council and has assisted very much in the handling of the city affairs, as he has occupied this position in the two years of his service in the council. The re-election of Mr. Puls is an assurance of a capable and well trained man in this important position.

# Fourth Ward

The candidate for councilman in the fourth ward is one of the long time residents of the community. R. W. Clement, agent of the Burlington railroad at this point, and who has spent his lifetime in the ward that he has so ably represented. Mr. Clement with his splendid judgment and ability has made a strong member of the council and from his labors there deserves a re-election to the office. Mr. Puls is chairman of the judiciary committee.

# Fifth Ward

The voters of the fifth ward will have the naming of two councilmen, Arthur Blunt, for the regular term that he is just completing and Henry F. Lutz, who has been filling the unexpired term of former Councilman Shea. Mr. Blunt has made a very able councilman and is chairman of the parks and improvement committee and has with Mr. Lutz been alive to the interests of his section of the city. He is president of the local Eagles lodge and since becoming a resident of this city has taken a keen interest in the city affairs and proven a valuable man in the council.

Henry F. Lutz, candidate for the short term in the council from the fifth ward needs but little introduction to the fifth ward voters as he was born and reared in that ward where his father, John Lutz, was for many years the councilman. Mr. Lutz is one of the industrious young men of the community and has for several years been connected with the Harry Kruger paint and paper hanging business and has a very clear view of the position of the property owner and laboring man and the city government. The re-election of this native son by the fifth ward would be a fitting recognition of his services.

# CARD OF THANKS

We wish to offer our most sincere appreciation of the many acts of kindness shown to us during the illness of our loved one and for the sympathy and comfort of the friends at the time of death. We wish to thank especially the American Legion, the M. D. A. and the Legion Auxiliary and the friends for the beautiful flowers—Mrs. L. O. Bennett and Children, the Relatives.

# COMES FROM SWEDEN

Mayor E. Sundstrom had the pleasure of welcoming his youngest brother, Ingvar Sundstrom, aged 22, last Sunday upon the occasion of the young man's arrival in Louisville. This makes the fifth brother to come to this country to live and all are prosperous, law-abiding citizens who stand well in their home communities. Two of the brothers live in California.—Louisville Courier.

# Boys are Placed Under Parole to the Police Chief

**Four Boys Charged With Pilfering Articles Around the City to Be Placed on Honor**

From Saturday's Daily—

Yesterday afternoon Judge James T. Begley was called upon to set in the case where complaint was made as to the action of four boys of the city who had been charged with having pilfered numerous articles over the city and disposing of the same. The boys who were apprehended by Chief of Police Joe Libershal a few days ago comprised Glen Brittain, Ellery and John Richardson and Elburn Covert, all young lads and who have been very bright and alert in their school work but seemed to have gotten in bad in this case.

After hearing the facts in the case Judge Begley suspended an sentence to the state reform school during the good behavior of the boys and who were paroled to Chief of Police Libershal. The boys are required to pay back all damages that they may have caused and must attend Sunday school and church in the future while under parole and also not be out at night on the streets.

The court also placed Glen Brittain under the jurisdiction and

# Amusement Parlor Opened!

I have opened an Amusement Parlor at the corner of 5th and Main streets, in the room formerly occupied by the "Sportsman." We will serve Cigars, Tobaccos, Confections and Soft Drinks. We shall conduct a place where all may come for a pleasant hour. Good, clean amusement and good order always. A cordial invitation extended to all my old friends and acquaintances.

# Louie Kohrell

guardianship of his father, John C. Britain in the future.

# FINED FOR NO LICENSE

The hand of the law is falling on those who operate motor vehicles without the proper licenses for the year 1929, as S. Y. Holcomb, a traveling salesman of Omaha was gathered in this morning and rushed to the court of Judge A. H. Duxbury where he pleaded guilty to the charge preferred by Constable Tom Svoboda and received a fine of \$1 and costs which was settled and the man allowed to go on his way rejoicing.

The arrest of Ray Watson, operator of a truck for failure to have the proper license on his truck was also made but in this case the defendant entered a plea of not guilty and the hearing of the case was set for next Monday before the county court.
