tatal injuries. The exact cause of the accident was not definitely learned as Mr. Stett was alone in the air chamber of the caisson when the tragedy occurred and it is supposed that the young man had matches in his pocket that suddenly become ignited or had been smoking and had allowed the cigarette to set his clothing on fire and in a few moments the fatal injuries had been inflicted on Mr. Stett.

The injured man had gamely stuck to the job while suffering the intense agonies of the burns and put out the fire and had gone into the chan .her and saw that all fire was put out before he sought aid. Wholesale Houses Co-operating with Merchants in Displays, Demonstrations and Distributions

Arrangements are materializing for the "Platismouth Merchants' Trade Exposition" and Style Show, to be held at the American Legion Community building April 24th to 27th, inclusive. Twenty-five merchants of this city have reserved booth space at the show and there is still a limited amount available. Any others desiring to participate should see olther Frank Bestor or Roy Holly at

The Legion is giving booth space ree to the merchant, the only exense being a \$2 rental charge on the lumber and of course each merchant must decorate his own booth. Legionnaires will construct the different booths, which will be as near uniform size as practical and the greater part of the 58x88 auditorium at the community building will be given over to these displays, demonstrations and distributions.

The wholesalers and jobbers are o-operating wholeheartedly with loal merchants in planning their displays and a great deal of originality is expected to be seen in the diferent booths.

This show is something entirely ew in this vicinity. It is patterned after the larger cities' Food, Building and like shows, but with all lines represented instead of only one. As an advertising proposition it offers unlimited possibilities to the merchants and wholesalers to display and popularize their exclusive lines.

From the public's standpoint, the advantages will be equally good. A nominal admission of 10 cents will be charged, entitling the attendant to opportunity of sharing in the It is planned to provide all who

other articles. However, the main feature of this exposition will not be merely the distribution of samples. There will
