## Louisiana Factious Reach a Compromise

Senate Decides Governor Is to Be Allowed to File Demurrer to Any Charges.

Baton Rouge, La.—Gov. Huey P. Long's crucial fight to avert trial on counts of impeachment voted since the special legislative session ended April 6, resulted in a virtual compromise on Tuesday in the senate. The senate continued to take testimony on his "strip" gambling raids, employment of a purported bodyguard and alleged misuse of state funds.

Without passing on the legality of house charges voted April 6, or still to be taken up by the senate, the senate decided to receive any further indictments brought and permit Governor Long to file a demurrer on arraignment to any and all charges brought. The decision came after adoption of rules for the trial.

The senate adjourned until April 25, after notifying the house that indictment number two charging the governor with bribery of two legislators to vote for his proposed tax on occupational oil had been formally received.

By vote of 22 to 15 the trial body adopted rules providing for sustaining or dismissing by a majority vote of the senate, exceptions of the defense. A two thirds vote is necessary to convict on any count filed.

W. O. Hart, New Orleans attorney, testifying before the house on the charges that the governor had misappropriated state funds, said his information was that there was a balance of \$2,000 unaccounted for remaining from the \$6,000 granted for the entertainment of the governors' conference here last fall. The charge is the governor made an accounting.—State Journal.

## Fear Two Lost as Road Drops Into Missouri

Car Found in River Where Highway Had Crumbled; Occupants Are Missing.

Pender, Neb., April 15.—L. N. Grandgenette, 60, and A. G. Headley, 33, of Pender, his son-in-law, were believed to have been victims of the Missouri river Saturday night.

The two had started for Macey, planning to fish in the Missouri river. They did not return, as planned, this morning.

Investigation by Sheriff Iler Jensen revealed the car lying in the river, about four miles east of Macey, having apparently plunged from a little used trail in the Indian reservation when the river bank caved in. The car was removed tonight. Its top was smashed. No bodies were found within.

Residents of Macey said the river had been cutting into the bank, and recent users of the trail had several times been forced to break a route farther from the waters. The road, which leads to a hunting and fishing ground farther east, runs for a considerable distance between tilled fields in the bottom.

Sheriff Jensen tonight asked that persons who live along the river watch for appearance of the men's bodies. He believes there is little doubt but that both were drowned end swept downstream.

Headley, a garage man at Pender, has a wife and several children.

## BABE RUTH TO WED TODAY

New York, April 16.—Abandoning his original plans for a secret wedding, Babe Ruth announced Tuesday through his business manager, Christy Walsh, that he will be married Wednesday morning at 6:30 o'clock in the St. Gregory's church to Mrs. Claire Hodgson.

The ceremony will be performed by the Rev. Father Hughes at the church, located at 133 West Ninth street.

In the afternoon, if the weather permits, Ruth is slated to start the baseball season with the New York Yankees.

It was announced on Ruth's behalf that he gave up his plan for a secret marriage because of "the interest of the public and as an appreciation of consideration that has always been shown him by newspaper men and photographers." He requested that no attempt be made to obtain photographs of Mrs. Hodgson or herself at their homes or elsewhere until after they leave the church.

Ruth and Mrs. Hodgson, a former actress, obtained a marriage license Monday afternoon.

## REED DRAWS CRITICISM

Washington—William G. Deming, president of the United States Civil Service commission, Monday took issue with a quotation credited to former Senator Reed in his recent Kansas City address that "a majority of the 600,000 federal employees are paid spies, thieves and snipers."

"The most charitable view I can take of that statement is that Senator Reed was either misunderstood or misquoted," Mr. Deming said. He cited that that statement is in the executive branches are in the postal service, with the remainder divided up among the other departments. "And they are not spies, thieves and snipers," he asserted. "A few thousand in the treasury department and the department of justice, no doubt, do some undercover work but that is part of their duty."

## Bomb Tossed in House Over Bootlegger

Proposal Held, However, to Be Out of Tune With Subject Before the Lower Branch

While the house Monday, in committee of the whole, was attempting to reach a conclusion as to a proper and adequate definition to fit the bootlegger, Representative Gardner of Douglas tossed a bomb shell proposing to repeal sixty sections of the Nebraska statutes. His substitute bill would have wiped out every prohibition law now in effect. Mr. Gardner's idea was to place the state under the Jones federal act.

Representative Hevis of Dawson, chairman in committee of the whole, declined to entertain the substitute on the ground that it was foreign to the matter under discussion. The matter under discussion proposed one thing and one thing only—to define a bootlegger. Because of the ruling, Mr. Gardner was not permitted to discuss his proposed substitute.

The membership had trouble enough as it was reaching a conclusion on the definition, as returned by the senate, the words "by gift or otherwise." It was urged that the man who gives his neighbor a glass of home made wine or brew certainly does not belong in the bootlegger class. After long and strenuous debate, the amendment was approved 32 to 26 and the bill advanced.

The house advanced S. F. 277, by Senators Kryer, Easton and Randall, requiring submission to voters of any metropolitan district any proposed change from manufactured to natural gas.

S. F. 201 as advanced by the house provides that the county treasurer shall add to each description of land advertised in the delinquent tax list, a notation to delay advertising expenses. The old law provided for a ten cent charge on description of town lots and 20 cents for farm property.

S. F. 41, once killed by the house and raised again, was advanced with two amendments. The original bill provided that in counties having 10,000 or more lineal feet of bridges the county board should have the power to levy an additional tax of one-half mill for bridge purposes.

The first County amendment changing the requirement for bridge footage to one for a population of 15,000 or more and more than 100,000 acres of irrigated land. The original bill would take in many of the river counties, especially along the Platte, while the intent was to give the provision to irrigated areas. Scottsbluff and Dawson counties will be the only ones affected.

The speaker also added an emergency clause to S. F. 41, stating that otherwise the counties affected would not be able to make the levy this year.

## Jearry Bill Killed.

The house indefinitely postponed S. F. 109, introduced by Senator Jearry, which provided that fees for service by special deputy should be taxed against the party requesting such service.

Laurens county representatives said the bill was needed, citing cases when papers were sent from one end of the county to the other to be served, the officer charging mileage for a trip he never made. Bowring of Cherry and other from western Nebraska opposed the measure on the grounds it would not work the same way out in the state.

S. F. 216 was advanced without discussion or amendment. It adds to the list of organizations incorporated by statute, Catholic Workman and the Western Bohemian Catholic union, Z. C. B. J.

## EX-SENATOR DIES IN HEAT OF DEBATE

Sherman, Tex., April 13.—Joseph Weldon Bailey, former United States senator from Texas and of the last of the state's old-time silver-tongued orators and fiery political campaigners, died in district court here Saturday in the midst of a law suit.

The echo of the concluding words Mr. Bailey had addressed to the court in a plea for the transfer to federal jurisdiction of a case involving tolls on a bridge over the Red river had scarcely died away when his head was seen to fall on his chest as he seated himself in a chair.

## Self-Defense to be Plea in Double Killing Hearing

Ridenours Claim They Shot Down Moores After Threat; Result of Feud Over Tots.

North Platte, April 15.—Self-defense will be the plea of the O. A. Ridenour family in the slaying Saturday night of Charles Moore, of Dunning, Neb., and his son, Frank, as a climax to a feud between the Moore and Ridenour families over the custody of three children of Frank Moore.

Members of the two families engaged in a pitched gun battle when Frank and Charles Moore went to the Ridenour farm home 22 miles south of Hershey, Neb., in an attempt to obtain possession of the children. Three of the Ridenours were wounded by bullets (one of them seriously).

## Self-Defense Plea.

The children, all of whom are under 4 years of age, have been living with their mother, Mrs. Viola Ridenour Moore, at the Ridenour home since the latter instituted divorce proceedings against her husband last August.

From his hospital bed here late Monday, O. A. Ridenour, the father of Mrs. Moore, who was dangerously wounded in the gun fight, indicated that his family will plead self-defense in the slaying of the Moores.

Relating to the versions of the shooting he said:

"About six years ago my daughter was married to Frank Moore. We had been friends of the Moore family for 33 years. After the first son was born to my daughter, she and her husband started having trouble.

Had Knife, Claim. "Mrs. Moore was compelled to stay at her father-in-law's home, where she was mistreated. She wanted her husband to get a home of their own, but he refused. Trouble between the two continued until last August, when they agreed to take the matter to court. My daughter returned to my home, retaining the custody of the children. At times the two families met and we were threatened on several occasions.

"When the two Moores came to my home last Saturday evening, demanding the custody of the children, I insisted that they wait until the case was settled in court. Frank Moore would not listen to this, and brandished a butcher knife he had brought with him."—Omaha Bee-News.

## BUSINESS TO BE PUBLIC

Geneva—Indications Monday night confirmed the idea that suggestions will be presented at public sessions of the preparatory commission for a disarmament conference, which held its opening session here Monday, rather than that they would be made the subject of private conversation between the chief delegates.

It was increasingly believed that the American delegation will not refrain, because of the approaching English general elections, from putting forward any concrete suggestions calculated to advance the cause of limitation or reduction of naval armaments.

## JLITED YOUTH DROPS DEAD

Kansas City—Daniel Mingler, twenty, knew that football and basketball at Ellis Grove, Ill., high school had overtaxed his heart. He did not count on the effect of a discarded engagement ring.

Mingler and his fiancée, Vivian Mitchell, eighteen, fought the age-old lovers' tiff as they rode in the youth's motor car. She wouldn't promise not to have other "dates." Young pride flared and she dropped a sparkling ring into his lap.

Then Vivian held her head high as the car reeled crazily into a curb and zigzagged over a parking. Just trying to frighten her, she thought. A wreck seemed imminent and she reached down and snapped off the motor. Then she turned reproachfully toward Mingler.

He was dead.

## Labor Bills Given Approval by the House

Cash Payment of Poll Tax Killed—Reciprocity Fee on Buses, Trucks Sent Forward

The house Monday approved, in committee of the whole, two of three labor bills embodying ideas contained in the findings of the special compensation commission appointed two years ago by the governor by legislative authority. Progress was reported on the third member of the group on the expressed theory that it makes a czar of the labor commissioner by taking away certain privileges of taking disputes into court.

The house crushed S. F. 4, Senator Griswold's bill in cash that poll tax shall be collected in cash by county, deputy or precinct assessors from persons having no personal or real property. Jones of Colfax moved to indefinitely postpone and was sustained 40 to 24.

S. F. 206, introduced by Senator Griswold at the request of the governor, was advanced without debate and by unanimous vote. It consents to acquisition by the United States government of land, water or land and water with the state of Nebraska for migratory bird reservations authorized by the act of congress of Feb. 18, 1929.

S. F. 214, by Senator McGowan, bus and truck reciprocity bill, was advanced. It provided that non-resident owners of motor vehicles required to register may take application for such registration in any county. Exemptions not to apply to commercial motor trucks and buses. The purpose is to treat buses and trucks of other states in the same manner as Nebraska buses and trucks are treated in those states.

Three bills, S. F. 127, S. F. 153, S. F. 155, were considered in regular order because of the fact that they are directly repealed. All are amendments.

S. F. 127 gives to the department of labor power to enforce such safety codes as it may deem necessary. It may, from time to time, create commissions composed of employers, employees and such other persons as may be designated. A house standing committee of amendment providing that the provisions of the act shall not apply to firms, corporations and individuals employing more than twenty-five persons, was rejected. Chairman Kendall of the labor committee and Jerry Howard urged against its adoption. As introduced, the bill provided that any person dissatisfied with the commissioner's ruling may appeal to the district court of Lancaster county. An amendment, approved by the house, provides that appeal may be taken to any court of competent jurisdiction. The bill was advanced as was S. F. 153, second of the group.

S. F. 155, second of the group, provides that appeal may be taken to any court of competent jurisdiction. The bill was advanced as was S. F. 153, second of the group.
