Governor Extends Invitation to Fair

Calls It Agency in Putting Nebraska in Its Present Strong Position To Open August 30th.
Lincoln, Aug. 20.—Governor A. J. Weaver today extended an executive invitation to Nebraskans to take a part in or visit the state fair, which opens its doors August 30th.
His Message
"To the People of Nebraska:
"Nebraska has almost a million and a half of people and an annual agricultural production of almost 500 million dollars. When we consider the additional production which comes from the preparation of our raw material into manufactured products within the state, and is an industrial production of almost as much.
"Because of this record, we have a right to class Nebraska as one of the premier agricultural states. One of the splendid agencies in placing Nebraska in its present position is the Nebraska state fair, which is a growing institution and worthy of the confidence and support of all our citizens.
"All earnings of the state fair are invested in the plant and the state has a plant now valued at 1,250,000. In addition there has been paid to the grain and live stock producers, in premiums more than has been appropriated for all other purposes. As an educational institution as to the possibilities of the state, it has been a real investment.
"One of the more recent and growing activities is the boys' and girls' club work. In 1928 there were 1,200 boys and girls who took an active part in our state fair and made six thousand exhibit entries. Twelve thousand boys and girls have participated in preliminary contests which culminate in the 1929 fair. This kind of an activity is not only an aid to agriculture, but a contribution to our future citizenship.
"Because of your interest in your state, of which you have a right to be proud, I hope that you will be able to attend the Nebraska state fair this year."

British Troops Out of Rhineland Beginning Sept. 1

Is Authoritative Statement at Hague Where Reparations Struggle Continues
The Hague, Aug. 15.—Authoritative announcement was made tonight that British soldiers will begin leaving the Rhineland on September 1.
The chief delegates of France, Belgium, Great Britain and Germany to the storm-tossed Hague reparations conference met this afternoon in the apartments of Foreign Secretary Arthur Henderson of England to discuss measures to satisfy England on the compromise offer of her allies for division of the Young plan annuities.
An entire morning session of what was expected to be a crucial day after so many conference crises had been previously avoided, was taken up by a meeting of the financial experts of the different delegations. This lasted until nearly 3 p. m.
At 3 p. m. Premier Briand had a conversation with Foreign Minister Georges Bonnet of France, and then both went to Mr. Henderson's apartment.
No announcement was made after the financial experts left their meeting. There was nothing to indicate anything had been accomplished to make the compromise of 60 per cent offered by France, Italy, Belgium and Japan, more satisfactory to Chancellor Philip Snowden. Mr. Snowden maintains the offer added only 20 per cent to Great Britain's share of German payments.
It was noteworthy that the delegates who met at Mr. Henderson's

Mrs. Willebrandt Defendant in Suit

Former Assistant Attorney General Is Accused by Former Dry Agent of Libel.
St. Louis, Aug. 20.—Mrs. Mabel Walker Willebrandt, former assistant attorney general of the United States and the Current News Features company were made defendants in a \$1,000,000 libel suit filed here Monday by Gus O. Nations, former chief of the St. Louis federal prohibition enforcement.
Nations, under garnishment proceedings, also tied up funds due Mrs. Willebrandt from the St. Louis Post-Dispatch, which has published her articles on prohibition and its enforcement.
Nations charges the articles were intended to make the public understand that he, while acting as federal prohibition agent in St. Louis, had been guilty of official misconduct in connection with the Griese-diek brewery case.
The petition signed by Nations, as his own attorney, refers to an excellent reputation and wide acquaintance Nations enjoyed during the tenure of his office from January 12, 1922, to June 30, 1924, and during the years following until the publication of articles by Mrs. Willebrandt, the first one of which describes how Mrs. Willebrandt "had to fight the Anti-Saloon league to remove a popular agent," which, the plaintiff believes referred to his activities and experiences.
Nations also cites in another article Mrs. Willebrandt charges the government had to fight the Anti-Saloon league when it protected Heber Nations, brother of Gus, and then labor commissioner of Missouri, who was accused of "helping to flood the territory with high powered beer."—State Journal.

Swiss Fliers Fight Winds on N. Y. Hop

Plane Sighted Twice Over Atlantic; Pair Have Only 3 Years' Flying Experience
Lisbon, Aug. 19.—Two young Swiss aviators, with only three years of flying experience, Monday night were speeding westward over the Atlantic toward New York, after taking off from the village of Juncal, near here, at 7:30 a. m. 1:30 a. m. eastern standard time Monday.
Since their departure on a flight which has balked or cost the lives of so many more mature aviators, the airplane of Oscar Kaeser, 22, and Kurt Luescher, 21, has been sighted twice.
Kaeser and Tuescher estimated that their flight from Lisbon to New York would take them over a distance of 3,060 miles, by way of the Azores and Halifax, N. S.
Their airplane was a French Farman monoplane which they called the Jung Schweizerland, or Young Switzerland.
They estimated their plane had a normal radius of 3,750 miles and a speed of 105 miles an hour.
If their flight proves successful the Swiss fliers should reach Roosevelt field about 6 p. m., eastern standard time, Tuesday.—Omaha Bee-News.

Buses Cannot 'Rule' Highways

Lincoln, Aug. 19.—Though they may be bigger and more powerful than the ordinary automobile, Nebraska buses are not to have any advantage when it comes to using the highways. Chairman John Curtis of the railway commission, ruled Monday.
The latter's ire was somewhat aroused, he said, over a protest presented by T. B. King of Central City, who complained that interstate bus drivers were snatching their rights and scaring people off the roads.
Another complaint, he said, is that sirens used on the buses resemble railroad motor cars so much that confusion is the result.
Chairman Curtis advised the Central City man that the matter had already been placed in the hands of the interstate company with instructions to correct any condition existing.
The Dennison Bus offers you year-round entertainment goods. Picnics, lawn parties and outdoor events can be supplied as well as interior decorations, favors, etc., etc. Call at the Bates Book and Gift Shop.

EMPINGHAM COMING EAST

Los Angeles—Dr. James Empringham, former national vice president of the Anti-Saloon league, was reported Sunday on his way east to face charges before the New York diocese of the Episcopal church of unlicensed practicing of medicine in connection with the new discontinued health educational society.
Mrs. Empringham, who said she and Dr. Empringham had been living quietly in Fontana, fifty miles east of here, announced Saturday night that Empringham had decided to "return to New York and clear the matter up."
"The charges against my husband are absurd. They are the outgrowth of trouble we had with doctors who tried to exploit the poor," she said. Charges which are now being Bishop Manning of the New York diocese allege misconduct on the part of Dr. Empringham during the latter's administration of the affairs of the society.
Dr. Empringham recently denied that he and his wife had been divorced, and also proceedings including names identical with those of Dr. Empringham's family, including the children, were recorded in court. Dr. Empringham stated he was not the man involved.

AWAY TO CLEVELAND RACES

San Diego—Two Sikorsky amphibians advance guards for the navy's team which is going to the national air races at Cleveland, took off from the naval air station at North Island at 5:50 o'clock on Sunday morning, and will be followed Monday by the main body of eighteen fast fighting planes. One of the planes, piloted by Radio Electrician, C. G. Alexander, and carrying live mechanics, landed at Tucson, Ariz., where it will remain to assist the other planes on their arrival. The other amphibian, piloted by Lieut. Emil Chourre, landed at El Paso, at 4:50 p. m., to remain over night.
At 5:30 o'clock Monday morning Lieut. Commander Homer Wick will lead the eighteen planes of squadron V. F-1 on their way to Cleveland, where they will participate in the air events to be held there. Included in the squadron are the "nine high hats," the navy's famous team of aerial acrobats who will engage in flying at an advanced type features of the races.
"According to the fashion news from Paris, women's belts are now at normal waist line. Where's that?"—Eg Poitger, in Boston Globe.
