Alvo News

Hal Parsell is constructing a barn for Charles Graham northwest of Greenwood, which will require some time to complete.

James Friend complains of not feeling the best, but still able to be about. He is, however, hoping to soon be all right again.

F. E. Dickerson was looking after some business matters in Omaha for the day on last Wednesday, making some purchases of goods while there.

Roy Kuhns and Chris Eikerman were over to Omaha on last Tuesday, where Roy purchased a car load of calves which he brought to the farm for feeding.

Carl Rosenow was a visitor in Omaha last Sunday and was accompanied by Mrs. Rosenow, they visiting with friends and also remaining over for Labor day.

O. E. Kitzel and wife, of near Waverly, were visiting for over the week end at the home of Edgar Edwards, where all enjoyed the occasion very much.

C. H. Kirkpatrick has been feeling quite poorly for several days past and has been kept to his home thereby. He is, however, feeling some better at this time.

Edward Edwards and wife and Mr. and Mrs. Lyle Miller were over to Lincoln last Monday, where they were enjoying attending the state fair with all its attractions.

Lyle Miller is having a new chicken house constructed, which is being built by John Coleman, the carpenter. The lumber was obtained from the Banning Lumber company.

Miss Mary Peters, of Wichita, Kansas, who has been visiting here for some time past, the guest of her mother, Mrs. Minnie Peterson, returned to her home and work late last week.

Kenneth Bailey, who some time since completed a course in the Lincoln Business college, has accepted a position with a wall paper company in Lincoln and began his duties there a short time ago.

C. H. Warner and Leonard Terryberry, of Plattsmouth, were in Alvo last Monday (Labor day) and visited with W. H. Warner for a time, and also went on to Lincoln, where they spent the day at the state fair.

L. M. Snavely and family, as well as Mrs. Carl Rosenow, who have been visiting for the past ten days at Bloomington, Ill., returned home late last week and report having enjoyed a very pleasant time while gone.

E. G. Harlan, who makes his home at Sidney, and who formerly resided here, moving to the west about three years ago, wrote to W. H. Warner last week telling of the crop of wheat which he had, it being less than he had expected.

Lee Coatman, who has been looking after the state fair, where Art Dinges was away, on the return of the proprietor last week took a couple of days off, on Sunday and Labor day and visited with some very dear friends in Utica.

C. D. Ganz went to Fort Crook the first of last week, where he will be located the coming two weeks and will be in training there as a reserve officer, as well as giving instructions to those of the C. M. T. C. who go there for instructions in military tactics.

R. M. Coatman and wife were over to Lincoln last Monday (Labor day) and were attending the state fair, and there met John Woods and wife, S. C. Hardcock and Wm. Miekke and families as well as Elmer Bennett and family, who were all enjoying the great exhibition.

Last Sunday the Manley ball team came to Alvo and played a game of ball which was one with kept the people guessing for some time. The first inning showed Manley 5 scores to Alvo none. Then the home lads began to gain and made seven runs in one inning, winning the game by a score of 18 to 9.

Moved Barn to Farm

Last week Art Skinner with two tractors and skids moved a barn from the home of C. H. Kirkpatrick to his farm some three and a half miles west of Alvo. Art took the building, placing it on skids and with the tractors moved it along and soon the trip was made and the barn was out of the way in town where it had been and was where it could be used to good advantage.

Will Teach at Wesleyan

R. M. Coatman and wife were visiting for over Sunday at the home of Mr. and Mrs. M. L. Golliner, the latter a sister of Mr. Coatman, and had a very nice visit at the Golliner home at Grand Island, and on their return Miss Gladys Coatman, who has been visiting for some time at Grand Island, returned with them to Lincoln, and will teach at the Wesleyan university, where she has been employed for the past five years.

Farm Sells for \$110

The Hanson farm of 240 acres last week sold at auction to E. A. Landon of Greenwood for \$110 an acre, or a total of \$26,400 for the farm. It is reported the place was immediately resold to another party.

Captures a Salamander

While taking some bananas from a bunch which he had just received, Edward Nelson, the merchant, found a salamander in the bunch which he placed on exhibition in a glass jar. It is a spotted one and about seven inches in length, including the tail. It resembles very much an alligator, with the exception of size. These things are rare in this climate, but very common in countries where the bananas grow.

Alvo Schools Convene

The Alvo schools convened again on last Tuesday, with a good corps of teachers and everything going on in good shape. However, the attendance of the high school is somewhat decreased from that of last year, when the number of students in the upper grades was 52, while this year the registration has only reached 35 thus far. It is expected to increase considerably as the season advances, thought as many are kept away for various reasons. It is expected that many of the 18 needed to make up last year's attendance will be back in school soon. There are a few who live nearly equal distance from other towns offering high school courses, and who have elected to go to the other towns thereby reducing our enrollment here to some extent.

Enjoyed Fine Dinner

Fred Rosenow, of Clay Center, Kansas, has been visiting here for some time past, being a guest at the home of his brother, C. F. Rosenow, of Alvo, as well as other relatives at Murdock and Elmwood. On last Sunday, C. F. Rosenow and wife gave a dinner at which most of the family here were in attendance. They enjoyed the get-together meeting very much. There were there for the occasion Grandmother, Rosenow, of Elmwood; Frank Rosenow and family, of Murdock; W. F. Rosenow and family, of near Waverly; Carl Rosenow and wife and Elmer Rosenow and wife, of Alvo. A very pleasant gathering was had.

Home from Northwest

A. B. Stromer and wife and Mr. and Mrs. Art Dinges returned from their trip to the north, northwest and the Black Hills last week after having been away for some time. They say that it is a wonderful country, the Black Hills being especially beautiful and the grandeur of the mountains almost beyond description. From the consistency of the soil in some places where they visited, they are wondering how anything grows there. Still they say the Black Hills supported a degree of heat running up to 110 degrees in the day time, while at night one wanted a good cover on to sleep.

Art says it was difficult to get a good drink of water. He says that in a drive from Gregory, South Dakota, to White River they were not able to get a good drink of water anywhere, but the water at White River was good enough to pay for all the waiting. They visited at Winner, where they tried to find some Cass county people, but were not able.

ASHLAND PIONEER DIES

Ashland, Neb., Sept. 5.—A. W. Waybright, pioneer resident of Ashland, died at his home Wednesday of the age of seventy-two. Mr. Waybright came to Ashland forty years ago, having come to this state from Virginia ten years before. He was a miller by trade and was in charge of the old A. B. Miller mill on the present location of the Nebraska Power company plant. He ran this mill for several years until it was abandoned. Since then he had lived on his farm near Ashland. He is survived by his wife, a brother in Virginia, two sons, Ralph, of Ashland, and John of Westington Springs, S. D., and a daughter, Mrs. Herbert Sabin, of Node-Wrooming.

FIND SHIPWRECK LETTER IN BOTTLE

Gulfport, Miss., Sept. 5.—Dr. R. Singley of San Diego, Cal., sergeant in the United States marines here, while bathing near Mississippi City, picked up a bottle containing a note reading:

"At sea, April 7, 1913. We sank off Cape Hatteras in a storm. I am headed for God knows where." It was signed by John Warner, sergeant, Eighty-third company, U. S. marines.

HELP WANTED

Lady or girl wanted for general housework. Experience required. MRS. FRANK SHELTON, 29-1st, Nebawka, Neb.

Snow Falls in West Part of State Friday

Temperature Here of 42 Last Night Brings Forerunner of Winter Season Soon at Hand.

While this section of Nebraska was spared the snowfall that visited the northwestern part of the state Friday afternoon and night, the temperature was such last evening as to remind the dwellers of eastern Nebraska of the fact that winter was just around the corner.

In this city the mercury fell to 42 degrees and with a rather stiff north-west wind made the conditions very chilly and a decided change from the heat that has marked this part of the west during August.

The snow, while unusually early this year, breaks no records in this line in the state, weather bureau officials state. The snowfall reported from the west part of the state ranged from one to four inches.

Hay Springs had the lowest temperature, according to unofficial reports, as the mercury there stood at 28 degrees. Four inches of snow had fallen. Sleet was falling at Gordon, Neb., and the mercury was below the freezing point.

Chadron had an inch of snow and Crawford had three inches, with a temperature of 30. At Scottsbluff, a rain of 1.65 inches turned into snow Friday, with a temperature of 34.

Valentine had snow starting at 10 o'clock Friday—the earliest since the government weather station was established there 45 years ago. Harrison reported two inches of snow on the ground and more falling.

Earliest Snow Fall. Rapid City, S. D., also reported the earliest snow in the 47 years weather records have been kept there. The previous early snow fell at Lead and Deadwood, S. D.

Cheyenne and Newcastle, Wyo., reported heavy falls, starting last night.

Court Denies Plea to Kill the License Law

Judge Dineen Rules Treasurer Can Collect for "Extra Work"—Dismisses Action.

Declaring the courts are not entitled to set aside acts of the legislative body unless some constitutional provision has been violated, Judge Frank Dineen at Omaha late Thursday afternoon dismissed the petition of Peter Mehrens and W. F. Poff against County Treasurer Otto Bauman, of Douglas county, and authorized Bauman to collect a 25c fee on every driver's license issued.

The last legislature passed the driver's license law whereby all drivers of automobiles must secure a state license. The fee was set at 75 cents and the county treasurer was allowed to keep 25 cents of every fee.

Peter Mehrens and W. F. Poff, members of the Taxpayers' league, of Omaha, filed suit in district court attacking the constitutionality of the law.

"Pay for Extra Work" In a two-page decision, Judge Dineen holds the motor vehicle law requires the county treasurer to examine and approve applications for license and to investigate and determine the ability of the applicant to safely operate an automobile.

These duties are foreign to any duties previously imposed by law up on the county treasurer and the fee of 25 cents which the county treasurer receives from the applicant for personally performing the duties of an examining and approving officer is not a fee paid as county treasurer, but for performing the new and unrelated duties required of him by the license law.

Following the decision, County Treasurer Bauman of Douglas county announced work would be resumed in Omaha on the issuing of drivers' licenses here. Starting Friday night, the office of the county treasurer would remain open nights, he announced, in order to accommodate the large number of applicants. In Douglas county there are over 100,000 unlicensed drivers yet, who must obtain their licenses before October 1st.

The 25 cent fee for each license, at this rate, will bring County Treasurer Bauman of Douglas county upwards of \$25,000, out of which he will have to pay his extra help and incidental expense connected with the issuing of the licenses.

Peter Mehrens, principal party to the suit, said he was undecided as to whether he would appeal the case to the supreme court or not.

WATER CONSUMPTION RECORD AT KEARNEY

Kearney, Sept. 5.—Water consumption records here were broken last month when 57,500,000 gallons of water were used by Kearney citizens. This was an increase of more than 3,000,000 gallons over the July consumption. The water rate has been cut in half to encourage the watering of lawns and gardens.

HOME GROWN PEACHES

Local Creamery to Handle Check-board Chows

Farmers Co-operative Creamery Co. Now Represents Purina In This Section

Appointment of the Farmers Co-operative Creamery as the distributor here for the famous Purina Chows has just been announced by Mr. Hofmann, head of the local concern. This, according to Mr. Hofmann, is quite a distinction for his firm, in view of the fact that the Purina Mills selects only the outstanding firms to represent them and their products.

"Before taking the Purina line," said Mr. Hofmann, "I became thoroughly convinced that this company, the largest manufacturer of livestock feeds in America, is actually doing more than it claims. For thirty-five years the Purina Mills has been manufacturing feeds with one point always uppermost: to lower the farmer's production costs by increasing the production of milk, eggs, beef, pork or horsepower; and to prepare livestock for market in the shortest possible time.

"That they have done that has been proved consistently on the feed lots of America as well as on the experimental farm of the Purina Company itself. Notwithstanding this, chemists and nutrition experts of the company are constantly at work, trying still further to improve the Purina products. The Purina Research Department at St. Louis is in charge of a former professor at the University of Missouri. All new discoveries of the experiment stations and the colleges are tested in these laboratories, and if they are of advantage in practical feeding, are applied to the manufacture of Purina Chows. All Chows are sold on the basis of lowering the farmer's cost of production—if they don't do that, we don't want any feeder around Plattsmouth to buy them.

"Right here, I want to emphasize the fact that Purina Chows are not intended to take the place of home grown grains. Their purpose is to supplement the home grains so as to form a complete, balanced ration, and to make the home grains worth more."

Mr. Hofmann states that it will be the aim of the Farmers Co-operative Creamery Co. to render a real service to feeders in its territory. "We will not be satisfied just to sell the Purina line," he declared. "We want to know that it is paying the feeders. For this reason, we will call back on feeders regularly to see that they are feeding for best results. Our organization is equipping itself to give real advice on all problems of poultry and livestock feeding."
