Drop into the market and I will explain the matter to you and how you can secure the table and not be to the expense of much money. JOHN OSTBLOM MARKET.

Struck a Red Root.

There are many people who do not know what it is to strike a Red Root, but when one has had the experience it needs no explanation. This Red Root business is a stump, but growing under the ground and will not stand cultivation, but appears in prairie ground. The piece of raw prairie which has been used for hay land west of the place where Ferdinand Brunkow now lives used for that purpose, while the adjoining lands along side have been in cultivation for over forty years. Fancying that the piece of land would produce excellent corn and knowing that it must be used some time, Frank Rosenow and son, have been breaking the land during the past week, with a "Western Grasshopper" and unknown to them being struck a thing as a Red Root, which jerked the plow out of the ground with disastrous results to the man's ribs, as they were walking in doing the plowing. They do not need to be told what a Red Root is now.

Pioneer of State Celebrates Birthday Annivers'y

Robert Crawford, Well Known Resident of Near Murdock Enjoys Happy Occasion

Mr. and Mrs. James Crawford, came to Nebraska and Cass county in the balmy month of June 1866, and here established a home, first living in a tent on the farm now occupied by Harry Marshall, near Murdock, where they established a home and continued to reside there most of the remainder of the nineteenth century. The husband passed away in 1897, and for two years thereafter Mrs. Crawford continued to reside there and also lived a year at Washburn, then coming to Murdock at the beginning of 1900 built a home and have made her home since, together with her son, Robert Crawford, who still lives with her. On the 12th of October 1866, following the arrival of this couple in Cass county, there was born to them a son, Robert Crawford, who was able to celebrate his sixty-third birthday anniversary at the home of his mother in Murdock. There were a large number of relatives and friends present at the celebration to do honor to this pioneer of the West, to pay their respect to the mother, Mrs. Malissa J. Crawford, who was one of the real pioneers of Cass county as is evidenced by the fact that during the early years in Cass county she resided in a tent and here gave birth to children and reared during the early years of the county to make of this the willisera state it now is. Mrs. Malissa J. Crawford was born in Pike county, Illinois, and was there united in marriage to Robert Crawford, who was killed in one of the first battles of the Civil war. After a number of years just at the end of the war she was again united in marriage this time with the brother of her former husband, James Crawford, who came to Nebraska late in 1865 and took the homestead two and a half miles north of Murdock. There was present for the celebration of the birthday anniversary of Mr. Robert Crawford, the sixty-three old citizen of this county, Viola Evers of Omaha; Jason Straight and wife of South Bend; Jess Fiddler and wife also of South Bend; Otto Olsen, Oscar Laughlin and families and Mrs. Fred Sherman.

Observes 400th Anniversary of Catechism

Lutheran groups all over the world were commemorating this year the 400th anniversary of the two Catechisms, published by Martin Luther in 1529. The book so uniquely vital has a fascinating history. We possess it in two forms. Martin Luther wrote the Large Catechism as a treatise in which he expounded the fundamental truths of Christianity, which he also sets forth in questions and answers in the Small Catechism. Both of these appeared early in 1529. They were born of the need of the times. Religious ignorance was widespread. A saxon, made a decade after the Reformation had gotten underway, revealed a deplorable lack of Christian knowledge, even among clergymen. The preface to the Small Catechism contains a graphic picture of the situation that prompted Luther to write these books. Like his 95 theses, published twelve years previously, Luther's Catechism took Europe by storm. At one time every printer in Wittenberg was printing them. Outside of that city there were 132 different editions during the sixteenth century. An English translation was soon made by Archbishop Cranmer. During the sixteenth and seventeenth centuries translations were published in the Icelandic, Polish, Greek, Hebrew, Latin, Arabic, Bohemian, Danish, Estonian, Finnish, French, Slavonian, Livanian, Lettish, Lithuanian, Dutch, Norwegian Swedish, Spanish, and Wendish languages. Ever since it has remained the chief text-book for the religious instruction of children in Lutheran churches of all lands. Thousands of American boys and girls are daily studying the booklet that first appeared in 1529.

What the Catechism Contains.

The popularity and continued usefulness of the Small Catechism are readily understood. The great truths of the Bible are summed up and presented in a form so simple that every child may grasp them. These truths are eternal and meet the religious needs of every good soul in every age. Luther injected into the Catechism no wisdom of his own. For him the Bible and God's Word, the only and sufficient authority in matters of religion. A religious text book could do no more than present what God's Word teaches. President W. H. T. Dau of Valparaiso University has rightly observed: "The Catechism of Luther has taught Lutherans to respect no teaching except that drawn from Holy Writ."

Luther begins with the Ten Commandments, to each of which he adds a brief word of explanation. After
