Mrs. E. P. Hornberger Gives Up Her Position

Head of Child Welfare Bureau Ten Years—Miss L. J. Johnson Appointed.

Mrs. Emily P. Hornberger, well known in Plattsmouth and Cass county, resigned as head of the Bureau of Child Welfare of the department of welfare Nov. 1. Secretary Pollard announced Monday. She has spent twenty years in social work, he first part of which was spent in the Lancaster county detention home. She has been head of the bureau since 1919, when it was created, continuously except during the Bryan administration when she was succeeded by Mrs. Clayton.

Miss Lillian J. Johnson has been appointed as acting chief of the bureau to succeed Mrs. Hornberger. She is a graduate of the University of Minnesota and spent a brief time after graduation with the United Charities of St. Paul, Minn., and two and one half years with the Minneapolis Family Welfare association. For the past two years and a half she has been director for the Children's Bureau of Springfield, Ill., a case-working agency which later merged with the Home for the Friendless.

During the early part of this fall she was taking postgraduate work in Chicago university, but dropped her studies to take over this post. Dr. Edith Abbott, head of the department of sociology of Chicago university, wrote Secretary Pollard as follows: "We do not like to advise our students, when they have just begun work in our school, to change their plans, but I feel so definitely the importance of the Nebraska opening, and my sister and I are both eager to see someone put in this position that knows the field well enough to take a real leadership in the developing of it in our own state."

The sister she speaks of is Miss Grace Abbott, director of the Federal Children's Bureau at Washington, D. C.

CHARGES STATE WITH DECEIT

Lincoln, Nov. 4.—Attorneys for Hartford D. Reed, were in supreme court Monday asking for a writ of coram nobis, the object being to correct his case in Lancaster county. He was bound over on a charge of kidnapping a girl, but as the latter did not wish to be brought into the limelight, the charge was changed to read assault upon J. R. Eiser, her companion. To this he pleaded guilty and was sentenced to five years in prison. He says that he never had any hearing on this charge, that the change was made by writing in the name of Eiser and that he was the victim of deceit by the county attorney.

Convict is Fatally Wounded by Guard

Dies After Effort to Escape From Prison in Ohio—Companions Are at Large.

Columbus, O.—Arthur Brooker of Findley, O., twenty-three, one of three convicts who made a daring break for liberty over the walls of the Ohio penitentiary today, died in the prison hospital tonight from bullet wounds inflicted by a guard. The other prisoners, armed with a shot gun and pistol, were at large, hunted by a posse of thirty policemen and deputy sheriffs. The fugitives were Guy R. Tennent, thirty-two, of Celina, O., and William Miller twenty-one, of Lawrence county.

Brooker had been serving a life term for first degree murder. Tennent and Miller were serving one to twenty-five year sentences for robbery. A trail leading from the penitentiary walls to the northern rim of the city was followed by the officers but no clue as to the whereabouts of the prisoners was discovered. A newsboy early Monday morning reported the men near Upper Allen, a suburb. Brooker was found wounded along a building near the wall of which he escaped. A bullet from the pistol of a guard had felled him, probably when he dropped to the ground from the wall.

The trio chiseled thru a steel reinforced concrete ceiling of their cell in the new "escape proof" block into the attic of the prison, cut thru a brick wall facing the prison walls. Using ropes knotted from the torn bedding, the three men dropped to the "cat walk" leading to the tower in the southeast corner and there attacked Montgomery, disarming him.—State Journal.

KILLS BABIES AND SELF

Scales Mound, Ill.—Mrs. Henry Saam, forty-one, believed to have been unbalanced mentally, Monday lay beside the bodies of two of her infant children. She tossed her babies, James, seven months old, and Mildred, three years old, into the creek near her home near here Sunday while her husband and two older children were at church. Then she drowned herself.

Mrs. Saam had been ill for several months and she had acted peculiarly for the last several days. A note found in the home directed the father to the creek where the three bodies were found in three feet of water. A verdict of murder and suicide was returned by the coroner's jury.

COUNTESS SEEKS TO OUST HOOVER

Boston, Nov. 4.—The federal court here Monday rejected a petition to set aside the last presidential election Monday.

The author of the petition was Countess Ida von Claussen whose suit against the late President Theodore Roosevelt brought her into prominence several years ago. The countess set forth that while in Italy her passport was seized by the Italian government, thus preventing her return to this country to vote for Alfred E. Smith.

Had she been able to return and tell her story of the political situation, she averred Smith would have been elected.

Eight Weeks Lost in Canada Wilderness

McAlpine Is Reported Safe at Cambridge Bay, Northernmost Tip of the Dominion.

Winnipeg—Believed to have been found by wandering Eskimos called to the search by the voice of the radio, Col. C. D. H. McAlpine and his party of seven prospectors, who have been missing for eight weeks in the Arctic barrens, were safe Monday night at Cambridge Bay, away up on the northernmost rim of Canada. From Bathurst inlet radio station, on the north coast 1,000 miles due north of Regina, Saskatchewan, was flashed to the search headquarters late this afternoon the following message:

"Fort James station, King William Island, advised me 10 a. m. mountain time, that McAlpine party arrived safely at Cambridge Bay across the ice from Dease point. Fort James will forward me instructions as soon as possible."

Colonel McAlpine, head of the Dominion Explorers, and his party went into the north country on an aerial exploration trip. When they failed to return a widespread search was organized. For the last three weeks the base for the search had been at Bathurst inlet. From there four airplanes had been vainly scouring the surrounding territory.

From Cambridge Bay and King William Island the Hudson's Bay company sent out three weeks ago radio messages to Eskimos off the north coast that McAlpine and his party were believed to be marooned in that territory. Each evening during the last three weeks the messages have been repeated. Many of the north coast Eskimos have radio sets and understand English.

It is believed that Eskimos found the McAlpine party somewhere along the north coast, even as the airplanes were vainly hunting for them, and conducted them across the ice to Cambridge Bay.—State Journal.

WHEAT SUFFERS A FALL

Chicago—Renewed liquidation of securities and an increased visible supply of wheat had a depressing effect on wheat values Monday. Selling off at the start, wheat was weak thruout the session and closed at losses of 3 1-2 to 3 7-8 cents a bushel for the day. The final prices were: December wheat, \$1.24 3-8 @ 1-2; March, \$1.31 1-2; May, \$1.35 1-8 @ 1-4.

The opening slump was credited to the stock market weakness, but other market news was added later and bulls found little support in the situation. The visible supply, instead of showing the anticipated decrease, was 1,239,000 bushels larger and now totals 60,000,000 bushels more than a year ago. The Liverpool market weakened in the late trading, and demand for American wheat for export was extremely dull. Midwestern sellers pressed wheat prices down to a maximum of 1-2 cents under Saturday's level but a reaction wiped out part of the loss. All grains were soft, but the loss in corn ranged around 1 cent and oats was only a fraction lower.

SCIENTIST TRIES TO FAIL

Cleveland—Probably no man ever tried so hard in his life to fail in the way the famous gary haired, energetic professor of Case school of applied science here has endeavored to do over many years and yet succeeded consistently.

The good-humored brown eyes of Dr. Dayton C. Miller glowed as he told of his long quest for the zero on which Dr. Albert Einstein based an important hypothesis of relativity. The hypothesis is to the effect that "the phenomena of nature will be the same to two observers who move in uniform velocity whatever their relation to one another."

"The zero never was found, and by george, I couldn't find it," Dr. Miller declared. "I have made 160,000 readings and still I can't get it." The zero to which he referred is that generally supposed to be the finding of Prof. A. A. Michelson and the late Prof. Edward W. Morley in their famous experiment with an interferometer in 1887 on the drift of the earth thru the ether. Even notable physics texts say the result was negative, but they are not correct, Dr. Miller said.

FURNITURE FOR SALE

I will move to town and am offering the following household furniture for sale: bedstead and springs, dresser, commode, 6 dining room chairs, wardrobe, 2 rocking chairs, music cabinet, Atwater-Kent radio, kitchen cabinet, base burner, Copper Clad range nearly new, oil cook stove, 24-foot extension ladder, porch swing, lawn mower. First house north of Eight Mile Grove church. MRS. CATHERINE PERRY n42tw 1d.

BOX SOCIAL AND PROGRAM

There will be a box social and program held at the Cedar Creek school in district 3y, on Friday evening, November 8th. Everyone is invited to come and have a good time. JEAN INGERSOLL DORA SOENNICHSEN Teachers. n4-2td 1tw.

Mrs. W. N. Brink departed this morning for Hastings where she will enjoy a visit in that city with relatives and old time friends for a few days.

PLAN THREE-DAY MEMORIAL FETE

Nebraska City, Nov. 4.—A three-day jubilee will dedicate the new memorial auditorium here, Nov. 11 to 13.

The first day will be governors' day, the second merchants' day, and the third American Legion day. Dances will be held the first two evenings and an athletic carnival the third.

Governor Weaver, William Ritchie Jr., Adjutant General H. R. Paul, Henry Field, Col. R. G. Douglas, M. T. Caster, Frank B. O'Connor, Mrs. O. W. Hahn, John E. Curtis and Matt Tinley will be among the speakers. The parade, led by legionnaires and made up of many organizations and floats, will be staged Wednesday morning. The legion has charge of the program.

West Point's Coach Favors Service Game

"Bif" Jones Hopes Army, Navy Resume Relations—Says Cadets Want This Contest

West Point, N. Y.—Speaking Monday night, Capt. Lawrence M. "Bif" Jones, who gives up his post as head coach of Army football teams this year, expressed the hope that the Army and Navy would resume athletic relations broken off in January, 1928.

"They (the Army and Navy) should again engage in athletics," Captain Jones said. "Army wants another great football contest with the Navy. It should be a game between the two government service schools, a game in which any Cadet or Midshipman who is not deficient in his studies can participate."

It was on this very point that the Army and Navy broke off relations. The naval academy insisted on the Army's adopting the three year eligibility rule, while the military academy stood pat on its policy of permitting any Cadet to participate in collegiate competition regardless of how many years he had completed before coming to West Point.

Lauds Players' Spirit

Speaking of Army and Navy athletic relations, Captain Jones said: "While I consider the 1922 Army-Navy game the most interesting I have ever witnessed, there is something in every football contest between the two government service schools that makes it of really far more interest than the average well played, close, exciting game. "These Cadets and Midshipmen, who will in time lead their respective services in both peace and war, fight in these games for their alma mater as they will in the future for their country. They are out to keep up their wonderful spirit until the final whistle has blown."—State Journal.

PALESTINE ARABS STRIKE

Jerusalem—The Arabs of Palestine observed a general strike Saturday, the twelfth anniversary of the Balfour declaration pledging British support to the Jewish homeland movement.

Black flags were flying all day from Arab homes and the minarets of the mosques. Jaffa, Haifa, and other towns presented similar appearances. The crowds were orderly everywhere, except at Haifa. At this place, the correspondent of the Jewish Telegraphic agency reported that police dispersed a demonstration of about 1,000 Arabs. Fourteen Arabs were reported to have been arrested.

The only fatality reported was a Jew shot by an Arab lampighter in the old city of Jerusalem.

FOR SALE

160-acre upland farm, lays very fine, all in cultivation, some 30 acres in pasture and spruce hay, 5 acres alfalfa, nicely located, close to three good market towns, about the center of Otoe county, Nebraska, 3/4 miles to gravelled road, fair set of farm buildings. Will sell at a real bargain and on good favorable terms. Price \$21,000. Can give possession March 1st, if interested phone Bellevue 132-23, or address FRANK PETERS, La Platte, Neb. o31-3tw.

MAKE COVERS FOR SUBS' BIG FEAST

Lincoln, Neb., Nov. 4.—Gobs on six submarines in the Atlantic fleet will find their Thanksgiving dinner menus this year enclosed in attractive covers made by Lancaster county rural school children. In 22 districts, pupils have fashioned 214 covers. All are decorated with water colors and many bear appropriate burles. The Junior Red Cross is sponsoring this activity at the request of the Navy department. The subs to which the covers will go are the R-17, S-24, S-25, S-28, and S-29.

The Adventures of The Fire Hellion

Speed Spirit Stamina

beyond anything you have ever known at its price

Watch the Pontiac Big Six on the open road, revealing top speeds such as no other car in its field can match. See it leap eagerly ahead at a green light, accelerating with unrivaled snap and spirit. . . . Pontiac is equally far ahead of its field in stamina and long life, due to many wear-resisting features such as crankcase ventilation which prevents dilution of engine oil—positive full pressure lubrication at all speeds—and the Harmonic Balancer which counteracts torsional vibration in the crankshaft. . . . Come in today. Learn how easily you can own and enjoy the finest car the market affords at its low price.

Pontiac Big Six, \$745 to \$995, f. o. b. Pontiac, Mich., plus delivery charges, Bumpers, spring covers and Looney shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. . . . Oakland-Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

Cheese Production Shows an Increase

American Dairy Products in General Growing, Except Creamery Butter, Which Is Less.

Production of American cheese is showing another marked increase according to records gathered by A. E. Anderson, state and federal agricultural statistician. Cottage cheese is showing a fair increase, also. Ice cream and condensed milk increased slightly, and creamery butter is slightly lower.

According to the records of manufactured dairy products for the first half of the year, the American cheese output was 1,998,520 pounds as compared with 1,396,230 for the first half of 1928. A total of 547,225 pounds of cottage cheese were manufactured during the first half of 1929 against 500,649 for the same period last year.

Ice cream and condensed milk production increased slightly. The production of ice cream for the first half of the year was 1,272,253 gallons and condensed milk, 4,090,657 pounds as compared with 1,257,678 gallons of ice cream and 3,918,025 pounds of condensed milk for the same period in 1928.

Creamery butter seems to be falling slightly below the record production of last year. During the first half of the year, production reached 51,088,965 pounds as compared with 51,563,470 for the same period in 1928. Late fall pastures have been much more favorable than a year ago, and late summer pastures were slightly better than in 1928, so it is possible there may be a slight gain in creamery butter production during the last half of the year, Mr. Anderson says.

POINCARÉ AIDS NEW PREMIER

Paris, Nov. 4.—The hand of the old master, Raymond Poincaré, who is ill after an operation, was seen Monday by French politicians in the composition and future course of the new government, headed by Andre Tardieu, premier.

M. Tardieu has been in constant consultation with the former president and premier, veteran of many hard fought political battles, since he was designated by President Doumergue last Thursday to select the next ministry.

Politicians remarked that the roster as finally completed was little different from the last government headed by M. Poincaré, while M. Tardieu was regarded as committed to carry out Poincaré policies.

M. Tardieu and his new ministers Monday began to map the new government's outline of policy for the chamber Thursday. Rapid passage of the budget was considered the first demand.
