DRUNKEN FLYER TAKES 2 LIVES

Springfield, Mo., Dec. 26.—Sam Bartel of Springfield, world war flyer, and W. B. Allen of Mountain Grove, Mo., a student pilot, died Wednesday night of injuries received in the afternoon when their plane crashed near Cabool, Mo. The craft, a dual control biplane, was apparently wrecked when both men attempted to pilot it.

Both men suffered crushed skulls and internal injuries, while Bartel's leg and both shoulders were fractured. Bartel, 35, was a stunt aviator, although he had been refused a pilot's license.

He went to Cabool Wednesday with Allen, who was a student under him, planning to take up passengers. He was refused permission by Mayor H. E. McKinney after citizens had complained of Bartel's allegedly intoxicated condition.

A gasoline filling station owner also refused to sell him fuel, but he either had some in the plane or obtained it elsewhere, as the plane took off a short time later and flew at a low altitude.

The plane dove in crashing, with both men fighting for control of the ship, according to on-lookers.

TAX REFUND IS DENIED OIL CO

Lincoln, Dec. 26.—State Treasurer W. M. Stebbins answered the Consumers Oil Co.'s district court injunction suit Thursday by saying that firms shipping gasoline into Nebraska for reshipment into other states are not entitled to a refund in excess of the tax in other states.

The company would restrain the treasurer from collecting any tax on motor fuels brought into Nebraska for reshipment to other states.

The answer was accompanied by a cross-petition asking judgment for the oil company had received refunds of 4 cents on gasoline resold in Iowa where the tax is 3 cents, which constituted an overpayment.

The oil company in its suit claimed it was entitled to a refund of the entire amount of the Nebraska tax when it reshipped to other states.

We print everything but money and butter. Phone your order to No. 6. Prompt service.

Sarpy County Attorney Says He Was Aiding Law

Says Taking Cargo of Booze to Papillion that Had Been Captured Near Avery by Constable

A complaint charging illegal transportation of five gallons of liquor was filed in the county court at Papillion Thursday morning by County Attorney William Nolan of Sarpy county, against "one 1923 Ford roadster, against a license and with a mutilated engine number."

Nolan Tuesday night was arrested in South Omaha, and charged with illegal transportation of five gallons of liquor, being drunk and driving recklessly.

Thursday morning he sent word to South Side police court that he could not appear to be tried and his case was continued until December 31st. He is out on bond for five hundred dollars, signed by Ben Lustgarten.

Says Acted for Sheriff Nolan's explanation of his criminal action against the Ford roadster (under Section 3274 of the Nebraska statutes) and of his own predicament was made yesterday as follows:

"Tuesday night Joe Pavelka, constable in Avery precinct, just south of South Omaha, saw someone driving a Ford roadster without a license number. He started in pursuit in his own car and was gaining on the roadster when the driver stopped, leaped a ditch beside the road and disappeared across the country.

The constable took possession of the car and found in it five gallons of whiskey. He had the car hauled to the Jones garage at Avery and tried to telephone Sheriff Olderog, at Papillion. But the sheriff was busy in the west part of the county, so Pavelka phoned me and asked me what to do with the booze. I told him to get it and take it to Papillion to put it in a safe place in the courthouse."

Into a Traffic Jam "I got the booze. I had to drive through South Omaha because the roads are bad and besides it's just as short. At Twenty-fourth and K streets there was a traffic jam and my auto hit a parked car owned by Virgil Jewell, of 2740 South Tenth street."

Here Nolan explained that his right leg has been amputated above the knee, and he has a wooden leg, so when he drives he uses only the left foot on clutch and brake. He put the foot on the brake, he said, but touched the accelerator by mistake, speeding his car ahead.

"I was severely bumped," he continued, "when my head struck the steering wheel. I immediately offered to have the car towed to a garage and pay for its repair, or to settle on the spot, but the owner thought it was his duty to notify the police, and did so."

Will Demand Liquor Officer Francis Musgrave, of the Omaha police, who arrested Nolan, said he had to pursue him half a block, and thought he was trying to escape. Nolan denies this, saying he was only excited and dazed.

At the station he was booked under the name of J. W. Knowles, of a South Side address. Nolan explains that a friend in the court gave the name and nodded to him, and he thought the whole thing was "a joke."

Nolan said he would issue a subpoena to the South Side court, demanding the liquor be brought to Papillion as evidence in the trial of the Ford, and will try to find the owner of the car.

FLORIDA CROPS DAMAGED

Jacksonville, Fla.—Severe frost and cold wind caused damage Thursday in some trucking sections of the state, reports to the state marketing bureau showed. Beans, strawberries, peppers, tomatoes and egg plant appeared to have been the heaviest sufferers, but the damage was not general to the whole producing areas.

Tender growing crops were severely injured by the cold through a wide area, but the complete reports were lacking. There were no reports of any damage to citrus and the bureau believed this class of crop had escaped harm. The bureau said it was impossible to make any estimates of the general damage now.

The weather bureau reported that Wednesday night's frost line extended as far south as Homestead below Miami. In the Miami area there was considerable damage to crops, with estimates ranging from slight to as high as 75 per cent in places.

BOOM TOWN HAS SLUMP

Cheyenne—House by house, Manville, Wyo., is being divested of its homes and business structures. Property owners have been moving buildings out of the town at the rate of two or three a week since bonds issued by the municipality were defaulted. The mayor of Manville appealed to the state attorney general but was advised there was nothing in the Wyoming law to prevent a man from moving his house.

Manville once was a thriving little town. It slumped, however, and extensive municipal improvements for which the bonds were issued, went into disuse. A large hotel built recently was moved nearly a hundred miles to another town. Some buildings are being moved just outside the city limits. There are now between 100 and 125 houses left in Manville, many of them unoccupied, and the population of the town is barely 300.

During the boom days the population was more than 2,000.

ECKENER DENIES HE HALTED GRAF

Berlin, Dec. 26.—Dr. Hugo Eckener, commander of the dirigible Graf Zeppelin, issued a sharp denial Thursday of charges that he was responsible for abandonment of the airships projected flight to the north pole.

The trip was abandoned, owing to the impossibility of obtaining suitable insurance in time for the start, it was said.

The society entertained an incomprehensible optimism regarding the insurance and the time necessary to prepare for the flight," Dr. Eckener declared. According to Dr. Eckener, the Aeroarctic society, which sponsored the proposed flight, alleged that he was responsible for the delay in obtaining insurance for the trip.

Fire Record in City Has Been Good for 1929

Fires That Have Occurred Have Been Handled in Fine Shape and Property Loss Low

The fire record of the past three months in this city has been limited to three small fires. Chief Oscar Sandin of the fire department states, while the record for the year has been very good.

The largest fires that have occurred in the city has been that of the White building occupied by the F. R. Gobelman paint store and in the Bekins building where the Peoples Market is located.

In the handling of the fires the members of the department, all of whom are volunteer members gathered from the residents of the city, are deserving of a great deal of credit for their untiring efforts in battling the flames and holding to a very low figure the property loss to the residents of the city.

The winter is always a fruitful source of fires particularly in the residential sections and Chief Sandin feels that the fire department's number of fires has been held at such a low figure for the past few months.

The record of this city with a volunteer department and small facilities for fire fighting is much better than many places with paid departments and great deal of equipment and for which the hard working members of the department can be thanked.

STUDENTS DRINKING LESS

New York—Sigmund H. Steinberg of Philadelphia, supreme master of the Alpha Epsilon Pi fraternity, said Thursday that efforts by college and university officials had brought about marked decline in drinking among students. Speaking at the fraternity's thirteenth annual convention, Steinberg outlined his observations during a recent tour of sixteen colleges and universities, as compared with his findings on a similar tour a year ago. He said efforts of officials to reduce drinking were meeting with particular success at the University of Illinois.

In most cases, Steinberg said, reports of drinking in fraternity houses were greatly exaggerated.

SEE OPINION AS VICTORY Lincoln, Neb., Dec. 26.—The Illinois supreme court decision in the Modern Woodmen insurance rate case is viewed as a "sweeping victory for the insurgents," by Carl E. Sanden, member of a Lincoln law firm that represented the Beatrice, Neb., Woodmen camp in a similar litigation.

"As the relief prayed from the district court of Cook county was general against application of the new rates, the classification of members and the division of the benefit fund," Sanden pointed out, "it is regarded as a sweeping victory for the insurgents. There will be no new trial in the circuit court as the supreme court decision is final."

SCHOLARSHIP IS STUDIED

Des Moines—Seven hours a week is approximately the difference between high scholarships and poor scholarships in college. This was indicated by a survey of 245 college freshmen, the results of which were reported to the American Association of the Advancement of Science here Thursday by Richard S. Uhrbrock of Cornell university.

"The high scholarship men," Uhrbrock said, "averaged 56.57 hours per week on school work of various types, while the students on probation spent 59.52. The difference, of 7.07 hours, represents approximately a full working day large week."

LARGE REWARDS OFFERED

St. Louis—Rewards for information leading to arrest of the person who sewed up the mouth of a small dog and released the animal to starve to death had mounted to more than \$1,000 Thursday night, the Humane society announced. The dog, found behind a hospital, was killed by the Humane society with a painless injection because of its weakened condition.

Cruelty to animals under a law passed by the last legislature carries a penalty ranging from a fine of \$50 or three months in jail to a three year penitentiary sentence.

There is always an appreciation in receiving the remembrance of a hearty greeting for the new year and this is easily given in one of the fine New Years cards that are carried by the Bates Book and Gift Shop.
