Wheat Trade Looks in Vain for Relief

Nearly Five Cents Is Shorn Off Prices Per Bushel That Prevailed on Saturday.

Chicago—The wheat trade looked in vain for a stimulus Monday and went on selling at new bargain prices.

Nearly five cents a bushel was shorn from prices that prevailed Saturday, and the Farmers National Grain corporation continued to absorb high grade country run wheat wherever it was offered at or below the government sanctioned loan value.

At Minneapolis the Minnesota Wheat Growers appealed to farmers to borrow on their wheat rather than sell at prevailing low levels.
 Monday's trading in the Chicago board of trade ran from 3 7-8 to 4 1-2@4 5-8 cents a bushel. At the last, March wheat sold at \$1.13 1-4 to 3-8—as much as 4 3-4 cents under the loan worth of the equivalent grade of cash wheat; May at \$1.17 7-8 to \$1.18; July at \$1.19 5-8 to 3-4 and September at \$1.22 to 1-4.

One of the few hopeful news factors in the pit was Saturday's announcement that the farm board had created an advisory wheat committee to meet in Chicago Wednesday. This was widely regarded as the first step in formation of a stabilization corporation, but the news seemed to give little backbone to a wilting market.

On the other side were the disturbing facts that export business in domestic wheat was lacking and both Russia and South America are offering wheat, with 185,000 bushels going from Russia to Britain, Liverpool and Winnipeg markets were both weak.—State Journal.

AIR PILOTS HAVE MISHAPS

New York—Two air mail planes of the Colonial Air Transport company crashed in the east Monday, one at Hartford, Conn., and the other near Silver Creek, N. Y.

Charles E. Pridham, twenty-nine, of Lexington, Mass., carrying mail from Newark to Boston was killed when he misjudged his altitude in landing at Brainard field, Hartford, and hit an observation platform. The impact tore the left wing from his plane, and the wreck landed in the Connecticut river upside down.

Ernest E. Bashaw, who carries mail between Cleveland and Buffalo was injured as his disabled plane nosedived into a grove near Silver Creek, before daylight. He stood by his mail cargo until it was light enough for him to find his way out of the woods, delivered it at the nearest postoffice, and then collapsed and was taken to a hospital unconscious.

Washington—President Hoover plans to leave late this week for a trip to Long Key, Fla., where for a week or more he will indulge his favorite pastime of fishing.

 The president will be accompanied by Mrs. Hoover and some friends who enjoy fishing. Plans for the trip have not been settled sufficiently for invitations to be extended. Among those expected to accompany the chief executive are Justice Stone, of the supreme court, and Dr. Joel Boone, the white house physician.

Make Ready Appeal in Bank Injunction Case

Chicago May Accept Offer by the Committee

Federal Supreme Court to Be Asked to Take Jurisdiction in Guaranty Law Case.

Altho no formal steps have been taken and nothing official has been given out, the state banks interested in the lawsuit which they lost recently in supreme court, where an injunction had been sought against the levying of any further assessments for the benefit of the guaranty fund, little doubt exists that an appeal to the federal courts will be attempted.

The difficulty in the way, and which caused considerable research and effort by their lawyers, is that in the syllabus of the decision the supreme court indicated that it was basing its decision, in part at least, on estoppel, that is, that the banks could not be heard to question the law now that it had grown burdensome, after having profited by it in the past. The body of the opinion, however, is not at all specific in the matter, altho mentioning the fact that a number of them engaged in an advertising campaign at one time boasting the advantages of the law.

The court has twice been urged to strike out this part of the syllabus, but has declined. The attorneys asked for this so that their way to the federal court might be cleared, since that tribunal might construe the decision to be on the basis of estoppel and hence the decision of the supreme court final. The question upon which District Judge Frost at Lincoln decided the case was that the law, as it operates, is confiscatory of the property of the banks. This raises a federal question, upon which the banks could gain a hearing.

In spite of this handicap, it is felt that having gone so far, the case might as well be fought out to a finish, and attorneys are now seeking to devise a way by which the full situation be presented to the federal supreme court with the hope and belief that as the circumstances exist that tribunal will take jurisdiction.
