City Spends \$1 in Advertising; Rings Up \$600

That Is Average for Detroit as Result of Investment in Tourist Trade

Detroit, Mich.—For every dollar that Detroit has spent in advertising the advantages of the city as a convention center and a hospitable stopping place for tourists, \$600 have come rolling back into Detroit cash registers, according to J. Lee Barrett, executive vice-president of the Detroit Convention and Tourist Bureau.

As a result, the bureau plans to spend \$1,000,000 during the next three years in telling the world about Detroit—and Detroiters have been wrenched to build cash registers big enough to hold the \$600,000,000 that may be expected to return if the same ratio continues.

Murray Loses Drug Store.

On last Saturday the McManus Pharmacy which has been a feature of Murray and Murray life for a number of years, closed their doors and departed with their stock of goods for Falls City where they will engage in business.

Horses and A Cow For Sale.

I have a little more horse power than needed, can spare either a single horse or a team all well broken, and also a four years old Holstein cow to freshen soon.—Fred Rehmeier, Weeping Water.

CHANGE IN SENATE RULES

Washington—Proposal to change the senate rules to prevent a repetition of the repeated votes upon the amendments such as were taken in that branch while it had the tariff bill under consideration, was made Thursday night by Senators Swanson of Virginia and Harrison of Mississippi, both democrats. In a statement issued by the democratic national committee, Senator Swanson said the "glaring foolishness" of the present method of procedure was illustrated in the tariff bill just passed.

URGENT U. S. SHARE LAND PROJECTS

Washington—March 20.—Recommendation that states in which reclamation projects are developed should share with the federal government financial and other responsibility has been made to Secretary Wilbur by an advisory committee appointed by him a year ago to make an economic survey of irrigation projects.

RESIDENT DEALERS

Omaha Grain Exchange members are spending their lives and their own money to make Omaha the great terminal market of the central west. Would you expect men with no other incentive than a monthly salary to be keenly interested in giving the highest grade of service? Business men who are taxpayers and who support the schools and churches on which the future depends will surely have a greater interest in serving customers than would salaried employees of a centralized and distantly located corporation.

TAFT'S MEMORY IS HONORED

Washington—The widow of William Howard Taft received an honor in his name Friday and was mentioned for a congressional courtesy. Presentation was made to Mrs. Taft of the grand cross of the Order of Polonia Restituta by Tytus Filifowicz Polish ambassador to the United States. It had been conferred upon the former president and chief justice in 1924, but could not be presented while he was on the bench. Later Mr. Taft's health would not permit the presentation.

WHAT A DIFFERENCE 90 DAYS MAKE!

TODAY A TODDLING CHICK... in 90 days a proud pullet about to lay. There's something to think about! Tiny bones and little muscles have grown several times in size... a delicate fuzz has sprouted into hundreds of feathers... a chick weighing grams has grown into a pullet weighing pounds... all in 90 short days!

A wonderful change... and only one thing can do it... good feed! This year consider Purina Startena Chow (mash) and Purina Chick Chow (scratch) or All-Mash Startena Chow for the first six weeks... and then Purina Growena and Purina Intermediate Hen Chow until your pullets are laying at 16 weeks.

Put these Chows before your chicks. You will see pullets that are built right... pullets that will lay eggs aplenty in fall and winter when eggs are always worth good money.
