Mr. C. F. Redlich, the successful expert says:

The "Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief, contract the opening in a remarkable short time and strengthen the weak tissues (the real cause of rupture) so that they frequently recover their previous natural retaining power, needing no further outside support. Stomach trouble, headache and constipation often caused by Rupture promptly disappear.

Truly remarkable and prompt results have been obtained not only with recent and not fully developed ruptures but also with old, long neglected ones.

Ingenious, recently perfected devices are now holding ruptures firmly which heretofore never had been retained.

No elastic belts nor filthy legstraps are used.

I guarantee the durability of my absolutely airtight and moisture proof, sanitary appliances.

75% of ruptured children recover completely through expert mechanical treatment according to statistics.

Do not waste your money on widely advertised mail order contraptions. You cannot fit yourself.

C. F. REDLICH, Rupture Appliance Expert, Home office, 535 Boston Block, Minneapolis, Minnesota.

FARM BUREAU NOTES

Copy for this Department furnished by County Agent

Over the Top.
Records show 510 4-H club members in 14 different projects pertaining to agriculture and home-making. Ten of the 49 clubs were winter clubs and have completed their project and filed their final reports. Summer members have a real reputation to keep up, as winter clubs finished almost 100 per cent. All members are urged to put their best efforts into the work and help to make Cass county the leading county in completions.

County Mixer.
A picnic dinner and general good time was incentive enough to bring together over 200 project club women over the county, Friday, May 23. A bountiful dinner, informal program and games not only kept the women busy but gave them the chance to get acquainted with women from other parts of the county. Miss Helen Rocke, State Specialist, from Lincoln, and Aunt Betty from the Nebraska Farmer, were out of county guests.

Want Water to Run to Them.
Nebraska farm women are tired running after water, they want the water to run to them. Of the common modern conveniences which may be put into a farm home, they want running water worse than anything else. Modern lights would be second, heat third, and refrigeration fourth, according to a summary of Station Bulletin 238 which is about the routine and seasonal work of farm women. 38% of the homes reported had no modern conveniences. 25% had hot and cold water; 21% had electric lights; 37% had furnaces; and 47% had refrigeration. Less than 7% of the homes were entirely modern.

Setting a Good Example.
Four hundred and ninety-four cows have been culled from dairy herds since the first of January. 287 were culled out in the same five months in 1929. Practically all of these cows were sold at markets as unprofitable producers.

The average number of cows per herd in the association dropped from fifteen to thirteen in the last five months. Some in all the same five months in 1929.

Either way of figuring sets a good example for dairy producers at the present time. Similar reduction of producing cows in all the herds of the country would take care of the present surplus of the industry several times over.

Members of these associations are not getting out of the dairy business, however. They are studying the figures and facts furnished by the cow testers and keeping only the cows that are making the most money.

Does Testing Pay.

Owners of dairy herds often question the benefits of dairy testing work. The following article is taken from "Successful Farming" and results from D. H. I. A. work are very similar.

"A nine-year survey on the value of official testing has just been completed by the American Guernsey Cattle Club. This is probably the most comprehensive survey of its kind ever made. During that time more than five million dollars worth of registered Guerneys have been sold at public sale. Cows with official records have averaged \$389 while those without averaged \$283. Bulls from cows with official records have averaged \$455 while those from untested dams have averaged \$159. Thirty proven sires have been sold and they averaged \$2,363.—Jessie H. Baldwin, Asst. Co. Ext. Agent, D. D. Walcott, Co. Ext. Agent.

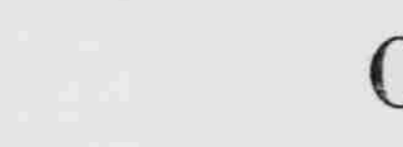

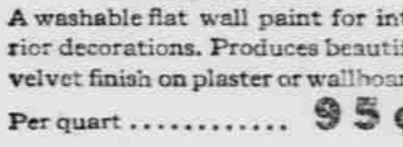

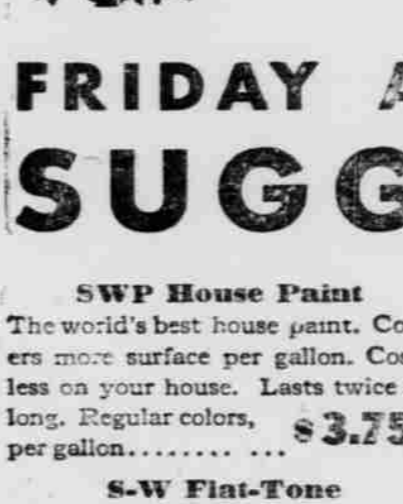

COL. M. A. BATES 88 MONDAY

On Monday, June 2nd, Col. M. A. Bates, the editor emeritus of the Plattsmouth Journal will pass his 88th milestone. He was born in Ohio, was a drummer boy in the Civil war, and has been actively engaged in the newspaper business for the greater portion of his life. He will celebrate his 88th birthday on Monday, and will be pleased to greet his many long time friends. He has been instrumental in making Plattsmouth a better town during the near thirty years which he has been a resident here. Here is to you Colonel M. A. Bates, my old friend, may your shadow never grow less.

FUNERAL OF MRS. BACH

The funeral services of the late Mrs. Wilhelmina Bach were held Tuesday at the St. John's Roman Catholic church and it was a fitting tribute to this splendid lady that the church was filled with the friends from all of the walks of life to pay their last respects.

The beautiful and impressive solemn high mass of the church was offered to this devoted member of the faith, Father Marcelles Agius, pastor of St. John's serving as the celebrant, Father Stoltz of Nebraska City as deacon and Father Weise of Nebraska City as sub deacon. Father Jerry Hanck of the Holy Rosary church of this city served as master of ceremonies. The music of the mass was given by the junior choir of the church.

At the close of the service the body was borne to the Catholic cemetery where it was laid to rest beside of the husband to rest until the resurrection morn. The pall bearers were from the old time friends of the family and members of the K. of C., being John Fassbender of Nebraska City, E. H. Schulhof, Joseph Libershal, John Bergmann, John J. Cloldt and William Woolcott.

GIVE FINE RECITAL

From Tuesday's Daily—
The charming home of Mrs. J. M. Roberts on high school hill was the scene of a most delightful musical event last evening when the members of the piano class of Mrs. Roberts were heard in a recital.

The home had been very tastefully arranged for the event and a very large number of the relatives and friends were in attendance to enjoy the most delightful event. The program covered some wonderful offerings and the artistic manner in which the numbers were given reflected the greatest credit on the
