Hoover Checks Plans for His Trip to West

Schedule Is Considered During Quiet Day at Mountain Camp; Relaxes in Shade.

Orange, Va., July 27.—President Hoover relaxed today in the welcome shade of his mountain camp as he shilled away the hours chatting with friends and considering plans for the western trip he intends to take next month.

It was a day of almost complete inactivity to the president and his guests. The heat from the lowlands had edged upward to the mountain retreat and the presidential party sought relief in the shade.

The president went over plans which have been presented for his summer vacation in the west, but no decision was announced. It was understood he would decide upon a definite schedule this week.

A walk to the top of a hill near the camp with Mrs. Hoover was the only activity engaged in by the president. From this vantage point he and Mrs. Hoover obtained a panoramic view of the surrounding country. They saw a number of small forest fires scattered about in the distance.

The fires had sprung up as a result of the dryness due to the lack of rain. The drought also had lowered the supply of water in the reservoir and the president's party were careful not to waste any of it.

Six of the guests braved the heat for a short while to take a horseback ride. They were Senator Baird (N. Y.), three District of Columbia commissioners, Dr. Joel T. Boone, the White House physician, and Lawrence Rieley, one of the president's secretaries.—World-Herald.

Fears 'Farm Relief' Comes in Wrong Way

Legge Asks Acreage Cut, but Drouth Another Matter—Plans More Tours.

Washington, July 28.—Discouraging reports of the effects of the continued drouth in the grain belt reached the farm board today as Chairman Legge laid plans for a trip he and Secretary Hyde are to make through the winter soft wheat belt in behalf of acreage reduction.

"We are getting some relief of the surplus in a way we don't like at all," Legge said. "I have a feeling this is the worst drouth we have had in 30 years."

Questioned regarding recent recommendations of the department of agriculture that wheat could be used to advantage as live stock feed in some sections due to the prevailing prices of wheat and corn, the chairman said it would have some beneficial effect. He added, however, that it is "not something to contemplate for steady procedure."

Beginning August 1 at Indianapolis, plans have been made for the secretary and chairman to carry their acreage reduction program into the soft winter wheat belt. The two will confer with extension directors and specialists from Indiana, Illinois, Michigan and other states affected.

Saturday, and possibly Monday, the chairman will confer with wheat and live stock co-operative officials at Chicago.

Swinging west with Secretary Hyde, the chairman will visit Montana, Washington, Oregon, Idaho and probably other states. Dairy and live stock problems will be discussed, and the acreage adjustment for wheat outlined to producers.—World-Herald.

After an investigation the coroner said it was a double suicide. No explanation of the tragedy was offered. The father had shot himself in the heart with an automatic pistol and the son had fired a revolver bullet into his temple.
