Trunkenholtz, of Greenwood post, and County Treasurer John E. Turner, of Plattsmouth, representing the county seat post. The only post not represented at the meeting was Louisville post. The last two years' picnics have been held at Louisville.

Meet With Sad Experience.

A number of men from the vicinity of Nehawka, number about a half dozen, concluded last Sunday they would go fishing and swimming, and all piled into the truck of one of the gentlemen, and with overalls, for each party except a visitor from Omaha. They arrived at a secluded shady nook on the Weeping Water above Nehawka, and after having found an excellent place to disrobe they all did so with the exception of the guest from Omaha, there being a guest from Nebraska City who joined the Nehawkaites. They enjoyed the sport of trying to catch some fish and also of swimming for a while, leaving the truck, clothes, two watches, their personal belongings, which every man has in his pockets, with some money, for they were not broke when they went. The young man left in charge also had a girl in Omaha, and had seen the town with her and was slightly sleepy, he curled himself up on a cushion, and was soon fast asleep. During the time he was snoozing away, someone came along and appropriated the clothing, all of it with two watches, the money, the pocket knives and the keys of the bathers, and made his getaway. Soon the swimmers returned and found the young man sleeping, for his eyes were heavy, and also the clothing gone.

We were told the names of the losers of their clothes but we are refraining from making it public as it might embarrass the losers.

Celebrated 63rd Birthday.

Last week on August 6th, Charles D. St. John and a royal fellow despite his three score and three years, celebrated the passing of his birthday very quietly, and was greeted by many of his friends with congratulations on having achieved this honorable age, and the wish extended that he may see many more happy and prosperous years. Mr. St. John came upon the scene of activity in America, just as the country was getting over the great civil war, and remembers the many years of peace intervening between then and the next war, which of any consequence was the Spanish-American war, and then the last war. He believes in peace and is so strong in that belief that he would fight for it.

Met to Arrange for Picnic.

Delegates representing the different Legion posts over Cass county met at the Nehawka auditorium on Sunday forenoon and held a very interesting meeting, looking after the making of arrangements for the annual Cass county picnic of the Legion to be held next Sunday, August 17th and at which time they expect to have a very enjoyable day. Eugene Nutzman, county commander of the Legion presided at the meeting and it was decided to hold the picnic at the Baker Grove south of Weeping Water, when the ex-service men and their families will have the usual big time.

Warner Talks About Problems Facing Aviation

Foreign Competition in the Central Americas Well Organized, He Declares

Williamstown—Edward R. Warner, former assistant secretary of the navy for aeronautics warned American Commercial Aviation companies in Latin America to be "watchful to hold their place against the intelligently directed and well financed efforts of French and German companies," in speaking at the institute of politics Tuesday.

Mr. Warner, who is a member of the national advisory committee for aeronautics, said at the round table discussion of aerial navigation that "subvention is calculated to enable American operating companies to take a leading place in South and Central America and the Caribbean area."

"Altho companies under American and under European direction are in competition with America, they should also be co-operating," he said.

Clarence M. Young, assistant secretary of commerce for aeronautics, in a paper read by Mr. Warner stated that "eventually all civilized nations will recognize the progress and value of aerial commerce and will co-operate to the utmost in establishing regulations of universal application."

In the round table discussion of pan-American problems, Prof. Jesse S. Reeves of the University of Michigan denied anti-League of Nations activity of the United States in Latin American countries. He said that contrary to opinion expressed in some quarters, "the United States, as far as we can tell, has never attempted to dissuade any Latin American country from joining the League of Nations or from taking any part in the league's activities." The actions of such countries as Brazil in leaving the league, he said, cannot be traced directly to any influence exercised in the United States.—State Journal.

ENCOURAGEMENT TO BRIAND

Paris—Foreign Minister Briand Tuesday received the first direct reaction from an American republic to his memorandum concerning the formation of a federation of European states when Brazil and Cuba made known their approval. European nations not included in the proposed "United States of Europe" would feel that Europe was seeking to erect a discriminatory body. After receipt of the two replies Tuesday the foreign office let it be known that the new world republics had expressed confidence that such a union would involve no hostile attitude or action toward other continents or groups of nationals.

The two republics' replies to the Briand questionnaire agreed that the proposed federation was perfectly compatible in its form and proposed function with normal relations with other continents.

When the original memorandum and questionnaire went to the European powers whose membership was invited, copies of the same document were sent unofficially to the United States and virtually all other independencies in the world whose co-operation would be essential to the success of the proposed federation. Brazil and Cuba are the first of the Latin-American countries to respond.

Farmall Price Reduced!

We have just received a big piece of power farming news—the McCormick-Deering FARMALL price has been cut \$50, and we are at once passing the information on to our customers. The Harvester Company's announcement says:

"We are glad to be able to make a reduction in the FARMALL tractor price at this time because right now the farmer is seriously in need of anything that will help him to cut down his costs of crop production.

"Due to manufacturing economies and anticipated reductions in material costs, we were able to reduce prices on the McCormick-Deering implement lines, effective for the present season.

"Recently, by the same process, we lowered the price on the 10-20 McCormick-Deering tractor \$40, and cut the 15-30 tractor price \$75.

"Now, to complete our program of reductions, we announce a \$50 out in the price of the FARMALL.

"These price reductions, made during recent months, mean a saving to farmers of millions of dollars.

"As the original all-purpose tractor the McCormick-Deering FARMALL has won tremendous popularity. More than 100,000 FARMALLS have been built. Already this tractor has created a real revolution in farming. It is the best investment a farmer can make.

"The new price, \$825 f. o. b. Chicago, is the lowest ever placed on the FARMALL."

You have probably seen the FARMALL Tractor at work. If not, we will demonstrate it at any time, on any job. The FARMALL replaces 6 to 10 horses and 2 to 3 men. It plows 7 to 9 acres a day . . . double disks 18 to 25 acres . . . drills up to 45 acres . . . plants 24 to 46 acres . . . cultivates 33 to 50 acres and, in later cultivatings, 50 to 65 acres. It handles every farm power job, including row-crop operations. Put the best tractor power to work now—at the new FARMALL price!

If it isn't a McCormick-Deering, it isn't a FARMALL
