## Light and Power Co. Preparing to Connect to Line

Mains From the Main Lines Will Be Run Into Local Gas Plant for Use in City.

From Monday's Daily—  
The Iowa-Nebraska Light & Power Co. today started the work of constructing the gas mains from the local gas plant to the main line of the Missouri Valley Pipeline Co., to connect the city service with the natural gas that is being supplied through the twenty-four inch mains.

The force is headed by Ray Brittain and comprises some thirty-five men and who were busy today between showers in trying to get the construction work on the lines started.

The work will be pushed as rapidly as possible as it is the desire to get the line all ready for the opening of the natural gas service here as near the first of September as possible.

The patrons of the company who are using the gas service are anxiously awaiting the coming of the natural gas as it is of much higher heating quality than the present manufactured gas, it is claimed.

## BASEBALL GAME BROKEN UP

In the baseball game at Murray Sunday the contest terminated in a disagreement among the members of the Red Sox and their opponents, the Reitz Radio Co. team and after the threat of a riot, the two teams were ordered off the grounds by the owner as it was feared that a general battle royal was in the brewing.

The score at the time of the termination of the game in the eighth inning was 8 to 2 for the Reitz Radio.

The game had proceeded nicely to a 0 to 0 tie until the sixth inning when the visitors proceeded to score three runs when Pierce, who had relieved Krejci at catch, failed to hold two throws to the plate and then a walk, a player hit by a pitched ball, and several errors combined to allow three more of the broadcasters to race over the plate.

Joe McCarthy did the tossing for the Red Sox as Alex Schlieske, the regular hurler was performing at the second sack.

After the sixth there was more or less argument on the plays and in attempting to score one of the Omaha players collided with Krejci, who had resumed his catching job and the player was knocked out, causing much argument and threats, later another of the players attempting to score again had a run in which Frank Krejci at the plate and in which most of the players of both teams joined and at this the curtain was rung down on the game.

## SENATORIAL RACE CLOSE

The race for the democratic nomination in the second senatorial district has proven one of the closest of the primary election and as a result of the figures on the official canvass in the various counties, Attorney J. A. Capwell is leading George Walter Olson of this city by the narrow margin of 27 votes.

The voters of Cass county gave Mr. Capwell a majority of 243 but this has been met by the Olson majority in Otoe and Sarpy counties. In Sarpy county Olson had 109 majority and in Otoe county 107 or a total of 216 in his majorities to match against the 243 of Capwell.

Mr. Olson at Nebraska City Saturday stated that he was hopeful of adding to his majority in Sarpy county and was undecided whether or not if he was defeated on the face of the returns to secure a recount of the votes in the three counties.

In the mail vote in Cass county each candidate received one vote a piece that left the finals as Olson 245, Capwell, 488.

## GAINS IN MAIL VOTE

In the count of the twenty-one republican mail votes made by the counting board in their canvass of the vote count in Cass county, it was found that County Attorney W. G. Kieck had received seventeen of these and his opponent, Robert J. McNealy, four, leaving the final vote as checked in the official county as Kieck 1,322 and McNealy, 1,215, this leaving a majority of 107 for Mr. Kieck, who had previously only a margin of 89 in the unofficial count. In the mail vote also C. E. Ledgway received eighteen votes to add to his lead and G. L. Farley three. For Sheriff Bert Reed received sixteen of the mail votes with three for Stewart and two for Davis.

## POSTPONE PICNIC

The Farmers Union picnic which was to have been held at Weeping Water has been postponed on account of rain. The picnic will be held on Tuesday August 26th at Weeping Water and the program as announced will be given at that time.

## CAUGHT IN WASHOUT

Miss Henrietta Martens, who left here the middle of the week en route back to San Francisco to resume her work as a nurse in one of the hospitals there, was among those to be caught in the washout and storm near Rock Springs, Wyoming, where several of the Union Pacific passenger trains were held up for two days by the effects of the washouts of the tracks. The large number of trains brought a great demand for food, shelter and care from the passengers on the trains. The stranded passengers included Babe Egan and her Hollywood Redheads now appearing at the Orpheum at Omaha and who were delayed in reaching Omaha. Miss Martens states that the operator at Salt Creek was swamped with messages, having 2,000 on file to be sent out by passengers on the train. The train of Miss Martens was a day and a half late in reaching San Francisco.

## Plattsmouth Ladies Return from Europe

Miss Marie Kaufmann With Members of Party Are Back Home After European Tour

From Monday's Daily—  
This morning Miss Marie Kaufmann with Mrs. Veronica Fornoff and granddaughters, Aurelia and Inga Reichstadt, arrived home after a stay of several months in Europe on a very pleasant sightseeing trip through the principal countries of the continent.

The party arrived back at Plattsmouth on the steamship Montclare, the vessel on which Mayor and Mrs. John P. Sattler sailed recently for Germany, they finding the voyage on the trip rather rough on the last few days as they turned into the north line of steamship travel, finding several small storms to make the travel uncomfortable and foggy days to hide the sunshine on the trip. The passengers on the Montclare had a real thrill however, as they viewed the R-100, English air boat which came over the passenger ship and was flying very low so that the parties on the ship were enabled to gain a good view of the great air liner, one of the largest in the world.

Miss Kaufmann had charge of a party of the sightseers and accompanied them on the trip to the old world, visiting in France, Germany, England and part of Italy as well as in Switzerland. The visit to the last country was especially interesting to Miss Kaufmann and the Reichstadt girls, this being the land of the birth of Miss Kaufmann and the two girls having the opportunity of visiting with their grandmother, Mrs. Reichstadt at Olten.

The trip included visits at the main cities in the countries where they visited and allowing them to wander among the scenes of historic interest and among the great art centers of the old world.

While the trip was very pleasant the members of the party felt that the best of the trip was when the Burlington train on which they were traveling, arrived at the Missouri river and they could glimpse Plattsmouth's hills on the west side of the great stream and which spelled home.

## HOLD FINE REUNION

## Dairy Tour of County Proves a Real Success

Many Interesting Exhibitions of Successful Dairy Farms Shown Over County Friday.

The Cass county D. T. I. A. held their first annual tour, Friday, August 15. Sixty-two people attended the tour which started at the Wm. Hoffman farm, three miles west of Alvo. Mr. Hoffman told a very interesting story about the development of his Holstein herd, which he and his father started, nine years ago. They purchased five cows from the Woodlawn Dairy and from these cows his entire herd has developed. Last year, his herd averaged 368 lbs of butterfat and there were six first-calf heifers in the group.

The next stop was at the farm of W. T. Fager, two miles west of Avoca. Mr. Fager's boys and girls exhibited their 4-H dairy calves that are entered at the state fair. Mr. Fager told how most of his herd had developed from two foundation cows.

I. L. Markland of Weeping Water was the next stop. Mr. Markland explained the use of his milk cooler, sterilizer, bottle washer and milking machine. Much interest was shown in the trench silo on the Markland farm. Mr. Markland says his production did not drop this summer when his pasture dried up because he had plenty of silage, some of which was two years old.

The basket dinner was served in the W. F. Nolte grove near Myard. Drs. Hays and Francis, State Veterinarians, gave a very interesting talk on Infectious Abortion in Cattle. Dr. Hays says, "90% or more of the abortions are from an infection and not an accident, or due to some kind of feeds, as many people like to think." "There is no drug, chemical or feed known that will prevent or control infectious abortion. The only control known is in the methods of management of the herd."

Other short talks were given by E. C. Scheidehelm, dairy extension specialist, Lincoln; F. R. Boynton, the new manager of the Farmers Co-Operative Creamery at Plattsmouth; H. L. Gayer, secretary of the creamery; C. D. Geary, president of the Cass County D. T. I. A. and Donald Belknap, tester for the association.

After the picnic dinner, the crowd looked over Mr. Nolte's poultry farm. The next stop was at the Farmers Co-Operative Creamery at Plattsmouth and from there to the Ed Spangler farm home. Everyone enjoyed very much, seeing this wonderful home.

The last stop was at the Pollock and Likewise farm, 1½ miles east of Murray. This is one of the best Guernsey herds in the county. This year was at milking time and those interested in a milking machine had many questions to ask Mr. Pollock and Mr. Likewise about their machines.

## OWNS OIL GUSHER

Julius Bock, of Newcastle, Wyoming, who is a brother of Mrs. William Hunter of near this city and was here for the Bock family reunion, is the owner of a large farm near Newcastle that has developed into one of the best oil fields in the state of Wyoming. On last Friday a well with a daily flow of 500 barrels was opened up on the Bock place and yesterday the second well, one with a flow of 1,500 barrels, was shot. The last well is one of the largest in the Wyoming field and is one that will bring great results to the owner of the land. Mr. Bock has many acquaintances here who will rejoice to learn of the wealth that the black gold has brought to him.

To the voters of Cass county I wish to express my appreciation of the fine vote given me at the primary election on August 12th and I will strive in the future as in the past to give the people of Cass county irrespective of party, the best of service and business administration of the county treasurer's office.

## WORK PROGRESSES ON BRIDGE

Arnold Johnson of this city, who is engaged in the work of the construction of the new bridge over the Platte river at Louisville, reports the work as getting along in fine shape and already several of the steel piers are in for the new structure. The building of the concrete abutments is being started and at the rate that the building program is being rushed the residents of our neighboring city will have a new modern bridge before they hardly realize it.

While the work on the new bridge is in progress the travel continues over the old wooden bridge which is but a short distance from the new structure.

## LEGION HOLDS PICNIC

From Monday's Daily—  
The Cass county American Legion posts held their annual picnic Sunday at the Baker park south of Weeping Water, where the Nehawka post was host to the members of the visiting posts of the county.

The attendance was small as many were kept away by threats of rain, the largest delegations being from Nehawka and Plattsmouth, with representatives also present from Weeping Water and Louisville.

The park is a very pleasant spot for a picnic of this kind, there being a fine grassy field with an abundance of shade trees and a running stream of water fed by a spring, making it ideal, and here for the afternoon the members of the party and their families enjoyed themselves to the utmost. The land is owned by Mr. Baker, father of two boys who were in the service, and who has generously offered use of the grounds at any time. This being centrally located for the entire county, there has been some talk of holding next year's picnic at the same place.

Another thing that served to cut down the attendance yesterday was the short length of time in which the affair was arranged. With numerous Legionnaires leaving for the state convention next Sunday, however, it was thought best by the arrangements committee to hold it yesterday.

The early arrivals at the grounds had come with well laden baskets and a number of family picnic parties were enjoyed and later followed by the sports program which was under the direction of County Commander Eugene Nutzmann, of Nehawka, and in which the picnic party, especially the children, had a real time.

## Bock Family Held Reunion at Nehawka

Country Home of Mr. and Mrs. George Hansen Scene of Very Fine Family Gathering

On Sunday, August 17th, the descendants of Mr. and Mrs. John Bock, pioneer residents of Cass county, met in the annual family reunion and which this year was held at the home of Mr. and Mrs. George Hansen at Nehawka, a place that was very appropriate for the fine gathering and one that all enjoyed to the utmost.

The day was spent in visiting among the members of the family, gathering for this occasion to renew the ties of kinship and to review the days when they were all at the home and had with them the parents.

The officers elected for the ensuing year were: Mrs. Edward Gansemer, Nehawka, president; Miss Martha Peters, treasurer; and Miss Helen Hunter of Plattsmouth, as secretary.

It was voted to have the 1931 reunion at the home of Mrs. William Peters, a daughter of the family, at Weeping Water.

Philpot, Nehawka; Mrs. George Hansen, Nehawka; Mrs. Jake Hill, Myard; and Mrs. Ed. Gansemer, Nehawka, were present with their husbands, children and grandchildren.

## EARLY MORNING FIRE ALARM

From Monday's Daily—  
The burning out of the motor in the Frigidaire plant at the Taplett Sweet Shop this morning caused a fire that set the first department to the scene, but on arrival the damage was found to be confined to dense smoke that filled the room of the sweet shop.

The smoke was first noticed by the D. O. Dwyer family, residing in the apartment above the Sweet Shop and they gave the alarm and aroused Mr. Taplett and son, who were sleeping in the rear of the building.

The main room of the lower floor of the building was filled with the dense smoke and Mr. Taplett and son, searching were unable to locate any fire until they reached the motor in the basement. The fire was extinguished and which was found to be hot and had burned out, also burning out the fuse. The trouble caused a great deal of inconvenience to Mr. Taplett, as it made necessary the calling of a repair man from Omaha and a delay of several hours in the operation of the fountain in the Sweet Shop.

## Preparing to Start Work on Athletic Field

Board of Education Ready for Call for Removing Dirt When Plans Arrive Here.

The board of education is now in readiness to issue their call for bids for the moving of dirt on the new athletic park on Washington avenue, formerly the tourist park, they awaiting only the estimate of Prof. M. I. Evinger, of the state engineering college who is making the estimates for the work.

Prof. Evinger is making the plans for the completed park but the board is anxious to have the field ready for football this fall and will push the work as rapidly as possible, once the plans and estimates are received here and in the next two weeks they expect to have the work started.

The members of the high school who are expecting to respond to the call of Coach Fred Rothert are very much interested in the plans for the park and are anxiously awaiting the time when they can start their games on the new grounds. The shortness of time for the work to be completed and the playing season will not permit a perfect field this season but it will be a great improvement over the past years and eventually will be a real football field and park for the track sports.

## A BEAUTIFUL COUNTRY HOME

The field man of the Journal was a visitor at the home of Mr. and Mrs. Nelson Berger a few days since, and observed the construction of their new home which being erected by the contractor, J. A. Scotten, with his crew of workmen, Ralph Kennedy, Fred L. Hill and Wm. Obermaier. During the erection of the house, Mr. and Mrs. Berger are making their home in a garage, and having for their sleeping quarters another house which has been used for a granary. The new home which is now under construction is twenty-eight by forty-seven feet with a full basement and which is full eight feet in the clear and concrete throughout. The basement will be equipped with a shower bath, a fuel room, a laundry which will have washing machines electrically power equipped, with electric lights from a plant installed in the basement.

Besides there will be the heating plant which will be the latest design and using hot water for heat. Coming to the second floor, there is the living room connected with the dining room making a most commodious set of rooms and affording a view reaching nearly to Nebraska City, including the old home-stand of former Senator Van Wyck. Off from the dining room is the den of Mr. Berger, and also connected to the dining room is the commodious kitchen with the quarter room as a wash house for the men, and this as well as all portions of the house will be supplied with hot and cold water, and electric lights. On this floor is one chamber and a bath and toilet.

Going to the second floor there is three chambers with large closets for each, and a bath on this floor as well as toilet. The view from the south chambers is superb and gives a range extending over the entire east, south and west. No pains or expense is being spared to make this an ideal country home with all the conveniences of the most fastidious city residence. This will make this excellent couple a home which will be a joy to live in. They are entitled to this good home as they both are hard workers and will appreciate and care well for the new home.
