Lincoln, Neb., Sept. 2.—With the weather decidedly a contrast to that of Monday when a stiff north breeze chilled and cloud-laden skies loomed forboding, the Nebraska state fair today was visited by a crowd of 62,569—nearly 10 thousand more than the same day a year ago.

The fairgrounds proper, officials said, seemed even more crowded than Monday when 105 thousand trooped through the entrances, and exhibits and entertainment features were nearly as well patronized. The total attendance to date is within five hundred of the total for the first five days a year. The 1929 eight-day total set an all-time record.

Activity in the 4-H club departments centered this afternoon on the annual sale of prize-winning baby beavers.

Bees Bring Fancy Prices. On the auction block the grand champion cross-bred Shorthorn-Herford steer exhibited by Rex Nisley of Lexington, brought the record price of 44 cents a pound. The other beaves brought prices nearly as high, many of them going to hotels, dining car systems and cafes.

In the educational department contests today, three Lincoln boys won in model airplanes. First went to Virgil Rice; second to Billy Larson, and third to John Passmore.

In the monoplane division, Harry Smith, Jr., of Denton and Leslie Callahan of York, took first and second honors, respectively.

Wednesday eight judging contests will hold attention of 4-H club members, teams competing in live stock, dairy, poultry, crops, clothing, baked goods, canned goods and girls' room contests. From four to 20 teams will enter the various contests, with two or three members on each team.

Specialists from the extension service will be in charge with members of the agricultural college faculty and others as judges. The annual style show will be held Wednesday afternoon, with a repetition of the show before the grandstand in the evening when awards will be made.

The outstanding feature of Thursday will be the annual parade of "the state fair on wheels" when nearly every attraction will be presented before the grandstand. Governor A. J. Weaver and staff will head the procession which starts at 1 p. m.

Wednesday's program includes first judging of all open stock classes starting with Percheron and Belgian horses in the morning, followed by Shorthorns and Polled Shorthorns, in the cattle division; spotted Poland China in the hog division and all sheep.

The Fairfield band, lone competitor for honors in the Class B high school contest, was given its award tonight after playing to the grandstand crowd. Neither the Cambridge or Stromsburg bands appeared to compete in this class.

Tomorrow Class A bands, Havelock, Seward, Blair, Scottsbluff, Pawnee City and Gothenburg, meet for that title.

The state titular horseshoe pitching contest will continue in the morning among the survivors of the 26 who entered competition today. —World-Herald.

U. S. is Collecting Statistics on Crime. Department of Justice to Keep Close Index of Underworld Activity; Regular Reports.

Washington, Sept. 1.—The justice department today assumed the gigantic task of collecting crime statistics from all parts of the nation and maintaining an accurate and up to the minute index of underworld activity.

With the approval of congress, it took over a project inaugurated three years ago and carried on since that time by the International Association of Chiefs of Police, assisted by the Rockefeller foundation.

The new division of criminal statistics is under the supervision of J. Edgar Hoover, chief of the bureau of investigation. The co-operation of police officials in the larger cities has been secured and a uniform plan of submitting crime reports adopted.

Will Be Classified. From more than eight hundred cities, these reports will go to the department at regular intervals, to be classified and indexed. Each month the department plans to make public a resume of the data received.

A central office or clearing house for the compilation of current crime statistics has long been urged by law enforcement officials and prominent criminologists as an essential step in the reduction of crime.

The Association of Police Chiefs, after endeavoring to secure congressional authorization for the establishment of such an agency, set up one of its own some three years ago. From four hundred chiefs originally making reports to the association, the number has grown until it has now more than doubled.

Approved by Congress. Last winter congress approved the program and President Hoover signed the bill on June 5.

For the time being the department is to be assisted in its new undertaking by the permanent staff of the association, but it hopes soon to handle the project with its own facilities.

The monthly bulletins will be limited to "offenses known to the police." The more serious crimes will be tabulated under their own headings and in addition a recapitulation showing crime conditions by states and geographical divisions is planned.—World-Herald.

S. D. ACCIDENTS TAKE 54 IN JULY. Pierre, S. D., Sept. 2.—Accidents in South Dakota resulted in 54 deaths during July, figures compiled by the state rehabilitation department, reveal. Two hundred and forty-five persons were injured. The number of accidents totaled 228.

Motor vehicle accidents, totaling 89, took 10 lives and resulted in 25 persons being injured. Other public accidents resulted in 27 deaths and 52 injuries. Five persons were killed and 20 injured in 25 agricultural accidents. Industrial accidents took a toll of eight lives and 25 injured, while home accidents caused the death of four persons and injury to 23.

Don't advertise haphazardly. Lay out a definite plan and keep persistently at it. We will help you.
