#### BUSINESS PICKUP SHOWN

Washington—A September increase in the output of factories and in residential building was reported Thursday by the federal reserve board in its summary of business and financial conditions. Factory output has decreased substantially during the four months from May to August. The September increase swelled the upward trend, but despite this the board's seasonal index registered a one-half of one percent drop, which was a much lower one, however, than that in the preceding four months. A lower increase was reported in factory employment than is usual for this period of the year.

Production of iron, steel, lumber and cement dropped while the output of automobiles continued small but activity in the textile industries including cotton, wool and silk increased substantially and there was more than the seasonal increase in output of coal with a larger copper production.

The board said wholesale prices remained at about the same level as in July and August. An increase in August, it continued, was followed by a decline in September in a large number of commodities including grain, livestock, meats, cotton and copper.

#### THREE INDIANS ARRESTED

Milaca, Minn.—Three members of an Indian family were in the county jail here Thursday night in connection with an attack on a white man, whose life was saved by Earle Brown, state highway patrol chief, Wednesday night. The three are William Bedoski, forty-five year old Chippewa, his wife and twenty year old son, George. Sheriff D. W. Luchinger arrested the trio late Thursday.

Charged with assault with a deadly weapon, they are held in lieu of \$5,000 bonds set by a local justice of the peace. The victim, William Moon, seventy years old, has a broken shoulder and head wounds but will recover, physicians said. He and Bedoski have been enemies for ten years, the sheriff said.

Brown happened along near Vineland as Moon was being attacked by Bedoski, who had an ax. He took the ax away and then was attacked by Mrs. Bedoski, who bore a gun, he said. The son then entered into the fight, county officials assert.

## Report of Reynolds Wreck Investigation

County Attorney Denney Refuses to State Whether He is to Take Action in Case.

Fairbury—A report detailing an investigation conducted by Burlington railroad officials into the wreck at Reynolds Oct. 11 in which two trainmen were killed, was submitted Tuesday to County Attorney Arthur Denney. The latter would not discuss probability of future action.

The wreck occurred when a fast Denver-St. Louis train crashed into a car abandoned upon the tracks by Tom Menke of Morrowville, Kas., who said he lost control following a blowout.

Menke's first story that he was returning from the home of a Reynolds girl whom he had taken to a dance when the car crashed onto the rails, Denney said, was contradicted by testimony taken during the investigation.

Menke had been to the dance, the county attorney attorney related, but was chasing another machine carrying a girl he sought to escort home. At the crossing, Denney added, Menke drove his car into one he believed was occupied by the girl but upon learning that it was not he drove up the highway, turned around and started home when the blowout forced him upon the rails.

The record indicated, Denney said, that Menke was dazed and confused and did not realize the danger confronting him until he left his car just prior to the fatal wreck. Henry Wilt, who came on the scene just before the crash, testified he helped Menke from his car. Leaving the scene, Denney related, evidence indicated that Menke walked fifteen miles to the home of Elmer Sadill in Kansas. This was about 5 p. m. The wreck occurred about 1:45 p. m.—State Journal.

#### FEDERAL RESERVE REPORTS

Washington—The daily average volume of federal reserve bank credit outstanding during the week ending Oct. 22, as reported by the federal reserve bank, was \$1,028,000,000, an increase of \$2,000,000 compared with the preceding week and a decrease of \$369,000,000 compared with the corresponding week in 1929.

The weekly federal reserve board report, issued Thursday said total reserve bank credit on Wednesday amounted to \$992,000,000, a decrease of \$2,000,000 for the week. This corresponds with decrease of \$50,000,000 in money in circulation and \$3,000,000 each in member bank reserve balances and unexpended capital funds, etc., and an increase of \$4,000,000 monetary gold stock, coupled with a decrease of \$8,000,000 in treasury currency.

Holdings of discounted bills declined \$18,000,000 during the week, the principal changes being declines of \$25,000,000 at the federal reserve bank of New York and \$3,000,000 at Boston and increase of \$3,000,000 at Cleveland and \$2,000,000 at St. Louis.

#### WHISKY IN THE HOSPITALS

New Orleans—Paul M. Fessler, superintendent of the University of Minnesota hospital at Minneapolis, late Thursday was elected president of the American Hospital association, defeating Robert E. Noel, superintendent of the University of Iowa hospital at Iowa City. The Rev. M. F. Griffin of Youngstown, O., was elected association trustee over Mr. Fessler by a vote of 229 to 217. The presidency and trusteeship were only contested offices.

The election culminated a business session of the convention which was enlivened by the adoption of a motion urging the board of trustees "to have the prohibition forces give a more liberal interpretation of the law as regards the use of whisky in hospitals." The hospital whisky resolution was proposed by Dr. John A. Hornsby of Charlottesville, Va., who said that an unreasonably strict interpretation of the prohibition law had been given since the transfer of enforcement from the treasury department to the department of justice.
